## GF UK GROWTH FUND

KEY INVESTOR  
INFORMATION  
DOCUMENT

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Liontrust GF UK Growth Fund is a sub-fund of Liontrust Global Funds plc. This document is based upon the C3 GBP Accumulating share class (ISIN: IE00BP4KB298), which is the representative class for all other classes.

### Objective

- The Fund is a feeder fund of the Liontrust UK Growth Fund (the 'Master Fund'). The Master Fund aims to provide long-term capital growth by investing predominantly in UK large and mid-cap stocks using the Economic Advantage investment process.

### Policy

- The Fund will normally be fully invested in the Master Fund but may hold up to 15% in cash and near cash. The Master Fund may invest anywhere in the world but will primarily invest in companies traded on the UK and Irish stock exchanges.
- The Fund's investment returns are expected to be very similar to those of the Master Fund.
- Income from the Fund's investments may either be paid to you or reinvested in the Fund, depending on whether you choose an accumulating or distributing class.

### Recommendation

- This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

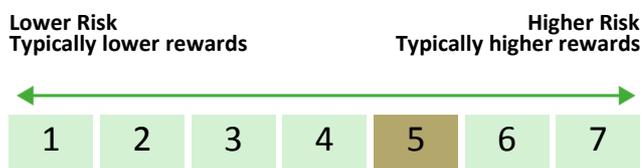

### How to buy

- You may buy or sell shares on a daily basis (but not weekends or Bank Holidays). Orders must be received by 5.00pm (Irish time) for execution at 12.00 midday valuation point on the following day. Further details can be found at [www.liontrust.co.uk/How-to-invest](http://www.liontrust.co.uk/How-to-invest).

### Investment process

- A fundamental principle of competitive markets is that profits regress to the mean. The fund managers believe the secret to successful investing is to identify those few companies that have a durable Economic Advantage which allows them to defy this principle and sustain a higher than average level of profitability for longer than expected. This surprises the market and can lead to strong share price appreciation.
- Economic Advantage is the collection of distinctive characteristics of a company that competitors struggle to reproduce even if those competitors have understood the benefits arising from those characteristics.
- In the fund managers' experience, the hardest characteristics for competitors to replicate are "three classes of intangible assets": intellectual property, strong distribution channels and significant recurring business.
- The fund managers evaluate companies in the UK stock market for their possession of durable Economic Advantage. Companies must possess at least one of the main advantages: intellectual property, strong distribution or recurring business (at least 70% of annual turnover).
- The fund managers measure the universe of Economic Advantage companies for the market's appreciation of their potential earnings growth. Under-appreciated companies have the strongest potential for share price growth.
- Every smaller company held in the Fund has at least 3% of its equity held by main board directors. Companies are also assessed for employee ownership below the board and changes in equity ownership are monitored.
- Further details may be found in the prospectus and information on the investment process may be found at [www.liontrust.co.uk](http://www.liontrust.co.uk).

### Risk and reward profile

- This Synthetic Risk and Reward Indicator (SRRI) is based on historical data and may not be relied upon to gauge the future risk profile of the Fund.
- The SRRI shown is not guaranteed to remain the same and may shift over time.
- The lowest category (1) does not mean 'risk free'.
- The Fund's risk and reward category has been calculated using the methodology set by the European Commission. It is based upon the rate by which the Fund or a representative fund or index's value has moved up and down in the past.
- The Fund is categorised 5 primarily for its exposure to UK companies.
- The SRRI may not fully take into account the following risks:
  - that a company may fail thus reducing its value within the Master Fund;
  - any company which has high overseas earnings may carry a higher currency risk;
- The Master Fund may, under certain circumstances, make use of derivative instruments but it is not intended that their use will materially affect volatility.
- For full details of the Fund's risks, please see the prospectus which may be obtained from Liontrust (address overleaf) or online at [www.liontrust.co.uk](http://www.liontrust.co.uk).

## GF UK GROWTH FUND

### Charges for this fund

- The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

#### One-off charges taken before or after you invest

Entry charge	5.00%
Exit charge	None

- This is the maximum that might be taken out of your money before it is invested.

#### Charges taken from the Fund over the year

Ongoing charges	Class C3 Acc: capped at 1.41%
	Class C6 Inc: capped at 0.99%

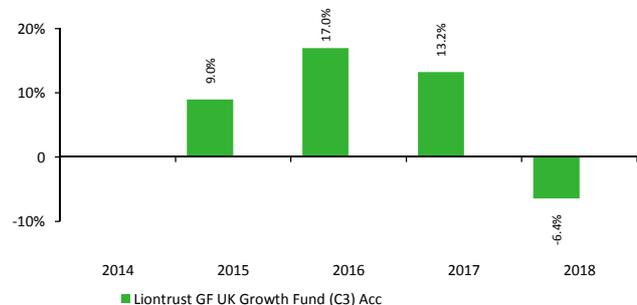

#### Charges taken from the Fund under certain specific circumstances

Performance fee	None
-----------------	------

- The entry and exit charges shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser or fund platform if you are not using a financial adviser.
- The ongoing charges figure is based on expenses as at 31 December 2018. This figure may vary from year to year. It excludes:
  - portfolio transaction costs, except in the case of an entry/exit charge paid by the UCITS when buying or selling units/shares in another collective investment undertaking.
- For more information about charges, please see the Charges and Expenses section of the Fund's prospectus, which is available electronically at [www.liontrust.co.uk/Literature/DownloadLiterature](http://www.liontrust.co.uk/Literature/DownloadLiterature).

### Past performance

- Past performance is not a guide to future performance.
- Past performance has been calculated on the basis that any distributable income of the Fund has been reinvested.
- The past performance shown in the chart takes into account all charges except entry and exit charges.
- The Fund launched on 03 September 2014.
- The base currency of the Fund is pounds sterling.
- The C3 Acc share class was launched on 03 September 2014.
