

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Liontrust UK Ethical Fund is a sub-fund of the Liontrust Sustainable Future ICVC and categorised as a UCITS scheme. This document is based upon Retail class units (2 Acc Class) (ISIN: GB00B8HCSD36). This Fund is managed by Liontrust Fund Partners LLP, a subsidiary of Liontrust Asset Management PLC.

Objective

- To produce long-term capital growth (over five years or more) by investing in a broad range of UK companies.

Policy

- At least 80% of the Fund will typically be invested in the shares of UK companies.
- The Fund will only invest in companies that meet defined ethical considerations and will benefit from improvements in environmental standards and a shift towards a more sustainable economic system.

Recommendation

- This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

How to buy

- You may buy or sell shares on a daily basis (but not weekends or Bank Holidays). Orders must be received by 11:59am for execution at 12:00 midday valuation point on the same day. Further details can be found at www.liontrust.co.uk/How to invest.

Investment process

- In a fast-changing world, we believe the companies that will thrive are those which a) improve people's quality of life, be it through medical, technological or educational advances, b) drive improvements in the efficiency with which we use increasingly scarce resources and c) help to build a more stable, resilient and prosperous economy.
- The process seeks to invest in high-quality organisations with robust business fundamentals, strong management and attractive valuations.
- Our assessment of quality is a distinctive part of our process. For us, high-quality companies must exhibit the following three characteristics: excellent management and core products or services that are making a positive contribution to society, strong growth prospects, and the ability to translate these into leading returns on equity.
- For each company, we determine the key environmental, social and governance (ESG) factors that are important indicators of future success, and assess how well these are managed. We do this through our proprietary sustainability matrix.
- We also seek strong and dependable growth prospects due to alignment with our themes. Our research has identified 20 areas of long-term growth within economies. These are our themes and we believe companies exposed to these are likely to see stronger and more persistent performance than those that are not.

Risk and reward profile

- This Synthetic Risk and Reward Indicator (SRRRI) is based on historical data and may not be relied upon to gauge the future risk profile of the Fund.
- The SRRRI shown is not guaranteed to remain the same and may shift over time.
- The lowest category (1) does not mean 'risk free'.
- The Fund's risk and reward category has been calculated using the methodology set by the European Commission. It is based upon the rate by which the Fund or a representative fund or index's value has moved up and down in the past.
- The Fund is categorised 5 primarily because of its exposure to UK equities.
- The SRRRI may not fully take into account the following risks:
 - that a company may fail thus reducing its value within the Fund;
 - any company which has high overseas earnings may carry a higher currency risk;
- The Fund may, under certain circumstances, make use of derivative instruments but it is not intended that their use will materially affect volatility.
- The Fund may invest in companies listed on the Alternative Investment Market (AIM) which is primarily for emerging or smaller companies. The rules are less demanding than those of the official List of the London Stock Exchange and therefore companies listed on AIM may carry a greater risk than a company with a full listing.
- The Fund will invest in smaller companies and may invest a small proportion (less than 10%) of the Fund in unlisted securities. There may be liquidity constraints in these securities from time to time, i.e. in certain circumstances, the fund may not be able to sell a position for full value or at all in the short term. This may affect performance and could cause the fund to defer or suspend redemptions of its shares.
- Counterparty risk: any derivative contract, including FX hedging, may be at risk if the counterparty fails.
- For full details of the Fund's risks, please see the prospectus which may be obtained from Liontrust (address overleaf) or online at www.liontrust.co.uk.
