B Acc GBP - Fund Factsheet - May 2024

The Liontrust Global Equities team has taken on the management of the fund. The team is headed by Mark Hawtin, who joined Liontrust in May from GAM Investments, where he was Investment Director and was Head of Global Equities.

Please note that the Assets Under Management (AUM) of the Fund have decreased over the last 12 months and therefore the Ongoing Charges Figure (OCF) as a percentage of the Fund has increased. **Key risks: Past performance does not predict future returns. You may get back less than you originally invested.** We recommend this fund is held long term (minimum period of 5 years). We recommend that you hold this fund as part of a diversified portfolio of investments. Overseas investments may carry a higher currency risk. They are valued by reference to their local currency which may move up or down when compared to the currency of the Fund. This Fund may have a concentrated portfolio, i.e. hold a limited number of investments. If one of these investments falls in value this can have a greater impact on the Fund's value than if it held a larger number of investments. The Fund may encounter liquidity constraints from time to time. The spread between the price you buy and sell shares will reflect the less liquid nature of the underlying holdings. Outside of normal conditions, the Fund may hold higher levels of cash which may be deposited with several credit counterparties (e.g. international banks). A credit risk arises should one or more of these counterparties be unable to return the deposited cash. Counterparty Risk: any derivative contract, including FX hedging, may be at risk if the counterparty fails.
