

LIONTRUST DIVERSIFIED REAL ASSETS FUND

The value of investments and any income provided by them can go down as well up. Investors could get back less than invested. Past performance is not a guide to future performance. This factsheet is for information purposes only and is not designed to provide advice on the suitability of an investment for your personal situation. If you have any questions regarding this factsheet, you are recommended to speak to a financial adviser.

Investment Objective and Policy Summary

The Fund seeks to achieve growth from a combination of income and capital growth. The Fund aims to achieve this by combining asset classes, sectors and securities that deliver total returns above inflation over the long term. The process is unconstrained with a focus on listed private assets that can help diversify against traditional equities and bonds. The Fund invests at least 80% of its net asset value in a diversified portfolio of

real assets (including investments in infrastructure, renewables, commodities, inflation linked assets and specialist property). The Fund gains exposure to these real assets through investment in real estate investment trusts (REITs), investment trusts, equities, debt instruments (bonds), collective investment schemes and exchange traded instruments. The Fund is limited to investing 10% of its assets in other open ended collective investment schemes.

**RISK AND REWARD INDICATOR**Potentially
lower rewardPotentially
higher reward

This risk indicator is based on historical data and may not be a reliable indication of the future risk profile. The category may shift over time and is not guaranteed.

Funds of category 5 have shown in the past a medium to high volatility. The volatility describes how much the value of the fund went up and down in the past. The shares of a fund of category 5 might be subject to medium to high price fluctuations based on the historical volatility observed.

The following are additional risks not covered by the risk and reward category:

Credit Risk: There is a risk that an investment will fail to make required payments and this may reduce the income paid to the fund, or its capital value.

Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.

Liquidity Risk: If underlying funds suspend or defer the payment of redemption proceeds, the Fund's ability to meet redemption requests may also be affected.

Interest Rate Risk: Fluctuations in interest rates may affect the value of the Fund and your investment.

Derivatives Risk: Some of the underlying funds may invest in derivatives, which can, in some circumstances, create wider fluctuations in their prices over time.

Emerging Markets: The Fund may invest in less economically developed markets (emerging markets) which can involve greater risks than well developed economies.

Currency Risk: The Fund invests in overseas markets and the value of the Fund may fall or rise as a result of changes in exchange rates.

Important information

Yield is the amount of income generated by a fund's investment in relation to the price shown as an annual percentage.

The Annual Management Charge (AMC), is a charge taken from the fund. The charge is expressed as a percentage per annum but is normally taken daily from the fund and is calculated based on the value of funds under management. Normally the fund manager reserves the right to review the level of charge.

The Ongoing Charges Figure (OCF), is a charge you'll pay over a year for as long as you hold your investment, it is made up of the Annual Management Charge (AMC) and other operating costs. Other charges may occur.

Under fixed Administration Fees, the Operating Expenses are paid directly by Liontrust and we are reimbursed by each fund at a flat rate per year out of their respective net asset values. The OCF is made up of the AMC plus the fixed Administration Fees. In some periods, the Operating Expenses paid by Liontrust may be more than the Administration Fees collected by Liontrust from a fund. If this is the case, Liontrust will pay the difference from its own resources. Conversely, in some periods, the Administration Fees may be higher than the Operating Expenses, in which case Liontrust will retain the difference. As the funds in which you are invested grow in assets, the fixed Administration Fees are reduced.

This document does not provide you with all the facts you need to make an informed decision about investing. For a comprehensive list of common financial words and terms, see our glossary at: www.liontrust.co.uk/benefits.of.investing/guide.financial.words.terms. More information is available in the Key Investor Information Document (KIID) for the fund and in the fund prospectus, both of which are available, free of charge, from Liontrust. The KIID can also be downloaded from our website at www.liontrust.co.uk. We also recommend that you speak to your financial adviser before making any investment. The adviser can advise you on the number of financial products through which you can invest in this fund. This fund may not be appropriate for investors who plan to withdraw their money within five years.

Past performance is not a guide to future performance. Do remember that the value of an investment and the income generated from them can fall as well as rise and is not guaranteed, therefore, you may not get back the amount originally invested and potentially risk total loss of capital. The portfolios' investments are subject to normal fluctuations and other risks inherent when investing in securities. The issue of units/shares in Liontrust Funds may be subject to an initial charge, which will have an impact on the realisable value of the investment, particularly in the short term. There is no certainty the investment objectives of the portfolio will actually be achieved and no warranty or representation is given to this effect. The portfolios therefore should be considered as a medium to long term investment.

This document is issued by Liontrust Fund Partners LLP (2 Savoy Court, London, WC2R 0EZ), authorised and regulated in the UK by the Financial Conduct Authority (FRN 518165) to undertake regulated investment business.

It should not be construed as advice for investment in any product or security mentioned, an offer to buy or sell investments mentioned, or a solicitation to purchase securities in any company or investment product.
