#### Key risks:

**Past performance is not a guide to future performance.** The value of an investment and the income generated from it can fall as well as rise and is not guaranteed. You may get back less than you originally invested. Investment in the Fund involves a foreign currency and may be subject to fluctuations in value due to movements in exchange rates. The Fund holds a concentrated portfolio which could mean that it will be volatile when compared to its benchmark. Investment decisions should not be based on short-term performance.
