Fund sustainability and impact report: Q4, 2021

Marketing communication

Contents

Exposure to positive sustainability investment trends	3–4
Alignment with UN Sustainable Development Goals	5
Assessment of how sustainable companies are: Sustainability Matrix Rating	6
Climate change: portfolio data on carbon, solutions and fossil fuels	7
Weight of holdings owning fossil fuels	8
Fund holdings	9–24
Additional ESG metrics	25–27
Key features	28

Exposure to positive sustainability investment trends

We look to invest in companies having a positive impact on our economy by making it either cleaner, healthier or safer. Exposure to all of our 20 Sustainable investment themes is shown below. For more detail on the sustainable themes, see liontrust.co.uk/sustainable

Exposure to sustainable themes

Source: Liontrust / Factset, 31 December 2021

Exposure to positive sustainability investment trends

Sustainable investment themes: how much of business is exposed

This analysis shows what proportion of companies held in the fund is exposed to the Sustainable investment themes: 71.0% of the fund is invested in companies that are strongly exposed to our themes

(which means more than 50% of the business's revenues); a further 7.1% of the fund is invested in companies that are moderately exposed to our themes, which means between 25% and 50% of revenues.

Source: Liontrust / Factset, 31 December 2021. *Sales weighted exposure to themes from companies in the fund

Alignment with UN Sustainable Development Goals

This analysis shows how the Sustainable investment themes are linked to the United Nations Sustainable Development Goals (SDGs).

All of the Sustainable investment themes are linked to SDGs and the underlying Key Performance Indicator they relate to have been identified in the SDG text. A more detailed discussion on impact and how the Sustainable themes are aligned with the SDGs is

available in the SF Annual Review 2020 on pages 27-33: www.liontrust.co.uk/sustainable

The fund has most exposure to SDG 8: Decent work and economic growth (20.3%); SDG 9: Industry, innovation and infrastructure (20.2%) and SDG 3: Good health and well-being (12.2%).

The fund is exposed to 10 of the 17 UN SDGs.

Sustainable investment themes mapped to UN Sustainable Development Goals (% of fund exposure)

Assessment of how sustainable companies are: Sustainability Matrix Rating

We assess every company using our proprietary Sustainability Matrix Rating, which measures how sustainable the products and services are as well as how well they manage the material environmental, social and governance (ESG) matters related to their business.

The weighted average Sustainability Matrix rating for the fund is B2 (marked in red in the figure below). This shows the fund is invested in companies whose products and services are more sustainable and whose management of ESG aspects of their business is better than the market it invests in. There are no companies in the fund which are rated in the ineligible grey area of the Sustainability matrix.

Source: Liontrust / Factset, 31 December 2021

Climate change: portfolio data on carbon, solutions and fossil fuels

Carbon emissions of fund compared to conventional benchmark

This analysis shows the investments in the fund emit 76.7% less carbon emissions (tCO₂e) than the market it invests in. This independent analysis includes direct emissions forming scope 1 and scope 2 emissions only*.

Source: MSCI Carbon Analytics as at 31 December 2021. The MSCI World Index is the comparator benchmark for this fund. Carbon emissions (tCO₂e/\$million invested) data available for 95.5% of the fund and 99.0% of the benchmark. *Scope 1 emissions are direct greenhouse (GHG) emissions that occur from sources controlled or owned by an organisation (associated with fuel combustion in boilers, furnaces, vehicles and so on). Scope 2 emissions are indirect GHG emissions associated with the purchase of electricity, steam, heat, or cooling. Scope 3 (all indirect emissions, not included in scope 2, that occur in the value chain of the reporting company) is important but not currently available in a consistent data set with enough coverage to be included in this independent analysis.

Companies offering clean technology solutions

This analysis shows that the fund holds 32.7% of companies that MSCI has determined are providing clean technology solutions.

Source: MSCI Carbon Analytics as at 31 December 2021.

Weight of holdings owning fossil fuels

Weight of companies owning fossil fuel reserves

This analysis shows the fund has very low exposure to companies that own fossil fuel reserves: 0.5% exposure to any fossil fuel reserves; 0% exposure to thermal coal reserves; 0.5% exposure to natural gas reserves; and 0% exposure to oil reserves. There is

one company in the fund, SSE PLC, that owns any fossil fuels but this is a very small part of its business (less than 5% of sales) and its investments are focused on delivering ultra-low carbon electricity from renewables.

Source: MSCI Carbon Analytics as at 31 December 2021. The MSCI World Index is the comparator benchmark for this fund. Carbon emissions (tCO₂e/\$million invested) data available for 95.5% of the fund and 99.0% of the benchmark and our exposure in the chart above should be seen in that context.

All Fund holdings

Alphabetical list showing all holdings in the fund along with their sector, our Sustainability Matrix Rating and Sustainable Investment theme.

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
Adobe Inc.	Information Technology	B2	Improving the efficiency of energy use	Digital transformation is a secular driving force in our economy and Adobe was the true pioneer of the transformation to cloud, using the highly loyal customer base on Adobe creative to shift to a cloud-based, subscription-based model.
Adyen NV	Information Technology	B2	Enhancing digital security	Adyen makes transacting online safer and easier. The company has one platform and is focused purely on organic growth. Returns are best in class and the culture is fantastic.
Alphabet Inc. Class A	Communication Services	B3	Providing education	Alphabet is an unusual case, 82% of revenues come from advertising, which would normally be C rated. However, our view is that this powers its core Search business and YouTube, which most users do not pay for but receive the benefits of having the world's information indexed. YouTube is becoming an increasingly important tool for education with 77% of users claiming to have used it to learn a new skill in 2020.
American Tower Corporation	Real Estate	B2	Connecting people	American Tower (AMT) is a REIT that owns, operates and develops wireless communications and broadcast towers worldwide, with a portfolio of around 214,000 communications sites. AMT will benefit from continued growth in communications: 5G, small cells and IoT will increase demand for telecoms infrastructure, and network densification is key.
ANSYS, Inc.	Information Technology	B2	Improving the resource efficiency of industrial and agricultural processes	Simulation software is the process of modelling a real-world phenomenon with a set of mathematical formulae. Essentially, it is a computer programme that allows the user to observe an operation through simulation without physically performing that operation. The virtual testing and monitoring enables higher safety and quality standards in the design, development and maintenance of our products and Ansys is the global leader in complex multi-physics real-world simulations.
Aquila European Renewables Income Fund Plc	Energy	A3	Increasing electricity from renewable sources	Aquila European Renewables Income fund is a sustainable infrastructure fund, which invests in renewable energy assets (wind, solar and existing small hydro concessions) in Europe.

Source: Liontrust / Factset, 31 December 2021

All Fund holdings

Equity

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
ASML Holding NV	Information Technology	B1	Improving the efficiency of energy use	ASML remains at the forefront of improving semiconductor fabrication through EUV development and holistic lithography. Smaller process nodes means more chips per wafer in manufacture and smaller, cheaper, more reliable, more energy efficient and more powerful end products. These advances in semiconductor manufacturing underpin improvements in Logic Chips and the ever-greater processing power of our computers, which in turn drives almost every aspect of our technological, scientific and commercial breakthroughs.
Atrato Onsite Energy Plc	Financials	A3	Increasing electricity from renewable sources	Atrato Onsite Energy is a renewable energy infrastructure fund that installs solar modules on industrial use roofs in the UK. It contracts the sale of electricity from this to the willing occupier. The result is more lower carbon electricity generated and lower power price costs for customers.
Autodesk, Inc.	Information Technology	B1	Improving the resource efficiency of industrial and agricultural processes	Autodesk provides software for construction, manufacturing and entertainment industries. Its products effectively lead the digitisation of these industries, which in turn directly reduces resource wastage, wasted time and watered costs. The Building Information Management (BIM) secular trend in construction is being driven by Autodesk's market-leading products.
Avanza Bank Holding AB	Financials	B1	Saving for the future	Avanza is an investment platform helping people save for their retirement in a cost effective manner in Sweden. They are particularly proactive on sustainable investment and in promoting inclusion of women on their platform, with targets to increase female participation further.
Bright Horizons Family Solutions, Inc.	Consumer Discretionary	A2	Providing education	Bright Horizons provides high-quality educational services, chiefly for 0-4 year olds, that are paid for by the employees but subsidised as part of benefits. This gives the opportunity for full-time working households to continue their careers, while ensuring their children are in the best possible setting.
Cadence Design Systems, Inc.	Information Technology	B2	Improving the efficiency of energy use	Cadence provides EDA, technology that designs and optimises semiconductor chips. Its technology facilitates innovation behind many of our themes related to the digitalisation of the global economy.

Source: Liontrust / Factset, 31 December 2021

All Fund holdings

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
Canadian Solar Infrastructure Fund. Inc.	Infrastructure	A4	Increasing electricity from renewable sources	Canadian Solar Infrastructure fund is the leading Japanese solar infrastructure fund. It owns and operates large scale Solar projects, which were initiated post the Japanese earthquake in 2011, to replace nuclear capacity in Japan. It is providing clean and safe energy and displacing dangerous dirty sources of power, such as nuclear and oil.
Cellnex Telecom S.A.	Communication Services	B3	Connecting people	Cellnex is a leader in telco and broadcasting infrastructure in Europe and enables MNOs to use its infrastructure rather than have its own footprint of passive infrastructure, which can free up MNO balance sheets and increase investment in active investments which will further boost network capacity and density, necessary for the continued exponential growth in data and our reliance on the digital economy.
Charles Schwab Corporation	Financials	B3	Saving for the future	Schwab is ensuring investment products are available to a wide range of savers, and directly addressing the acute need to save for the future. Its products also address the "knowledge gap", and products such as "robo-advisors" ensure advice is not just for those with high net wealth.
Compass Group Plc	Consumer Discretionary	C1	Leading ESG management	Compass Group provides catering services globally, they serve 5.5bn meals a year, employ 600k people across 55k client locations. We are holding the company for the way it manages its key Environmental, Social and Governance issues, which we believe are best in class and leads to superior growth and margin progression over the long run.
CSL Limited	Health Care	A2	Providing affordable healthcare	CSL is the leading global plasma manufacturer. It collects donations from a network of more than 250 plasma centres and uses these in a 9-12 month process to extract and manufacture a range of innovative therapies. It is also the global number 2 flu vaccination player.
Daikin Industries	Industrials	B2	Improving the efficiency of energy use	Daikin is the global leader in energy-efficient air conditioners and Heat Pumps. Its products significantly cut carbon emissions, in a sector that is a key contributor to global emissions. Daikin's technologies cut emissions by around two-thirds versus traditional technologies.

Source: Liontrust / Factset, 31 December 2021

All Fund holdings

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
DocuSign, Inc.	Information Technology	A2	Delivering a circular materials economy	DocuSign is the global leader in e-signatures. It is digitalising the final component of the document creation process, saving key resources, such as paper and energy.
Downing Renewables & Infrastructure Trust Plc	Financials	A3	Increasing electricity from renewable sources	Downing Renewable and Infrastructure Trust is a fund that owns renewable electricity generation assets such as wind, solar, micro-hydro power, and plans to invest in Geothermal power. The assets are located in UK and Nordics (50% each is broad target). These types of fund play a crucial role in owning renewable assets which are displacing higher carbon alternatives off the electricity grid helping us move towards an ultra-low carbon economy. This frees up capital for the developers to recycle and increase renewable electricity further in the energy transition.
Ecolab Inc.	Materials	B1	Improving management of water	Ecolab is the global leader in improving the management of water across the hospitality and industrial sectors.
Equinix, Inc.	Real Estate	B2	Improving the efficiency of energy use	Equinix operates data centres and offers colocation and interconnection services globally. Data centres provide the backbone to how we store and process data and underpin the functioning of the digital economy, which can drive improvements in making the real economy cleaner, healthier and safer. However, it has been estimated data centres are set to account for 3.2% of total global carbon emissions, and a fifth of global electricity by 2025. Equinix is at the forefront of innovating and driving technologies that increase the efficiency of data centres and has a long-term goal of using 100% clean and renewable energy.
First Republic Bank	Financials	B1	Increasing financial resilience	First Republic Bank is an exceptionally well-managed business that funds loans from savings. It has a good record of ensuring the quality of loans is high and clearly understands its customers well, which means low loan losses. Its customer service is excellent and as a result, it has the highest Net Promoter Scores in their industry (twice that of US banking peers).

Source: Liontrust / Factset, 31 December 2021

All Fund holdings

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
Greencoat UK Wind Plc	Utilities	A2	Increasing electricity from renewable sources	Greencoat UK Wind PLC is a sustainable infrastructure fund that owns and operates renewable energy electricity generation assets. This fund plays a crucial role in owning renewable assets which are displacing higher carbon alternatives off the electricity grid helping us move towards an ultra-low carbon economy.
Home REIT Plc	Real Estate	A1	Building better cities	The company acquires and creates new high-quality homes for homeless people. There is a critical shortage of secure, long-term accommodation for this vulnerable group. The funding is there from central government and local authorities have an obligation to provide it. Home REIT fills the gap by using capital to offer 25-year leases to charities and housing associations at much lower cost than the comparative private or B&B provision.
Illumina, Inc.	Health Care	A2	Enabling innovation in healthcare	The company provide technologies that enable our understanding of the genome. This has great implications for our understanding and treatment of disease, as well as much wider applications such as agriculture.
Infineon Technologies AG	Information Technology	B2	Improving the efficiency of energy use	Infineon is a German company that produces efficient power management chips, which are used across the economy in electronics, particularly in computing and mobiles as well as autos and industrial automation. It is the largest player in power semi-conductors, which are key for electrification, so they are well positioned here.
Intertek Group Plc	Industrials	B2	Better monitoring of supply chains and quality control	Intertek provides services from auditing and inspection, training, advisory, quality assurance and certification to a broad range of global companies.
Intuit Inc.	Information Technology	B2	Increasing financial resilience	Intuit provides accounting software to individuals, small businesses and the self employed, helping them manager their money, reduce their debt and file taxes.
Intuitive Surgical, Inc.	Health Care	A2	Enabling innovation in healthcare	Intuitive is committed to advancing patient care in surgery and other acute medical interventions. The company is focused on innovating to enable physicians and healthcare providers to improve the quality of and access to minimally invasive care.
IQVIA Holdings Inc	Health Care	A3	Providing affordable healthcare	IQVIA connects healthcare organisations and patients with data in an effective way to ensure faster decision making on healthcare outcomes.

All Fund holdings

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
JLEN Environmental Assets Group Limited GBP	Financials	A2	Increasing electricity from renewable sources	John Laing Environmental Assets forms part of our sustainable infrastructure portfolio. This fund invests in renewable energy and waste treatment facilities, principally in the UK.
Keyence Corporation	Information Technology	B3	Improving the resource efficiency of industrial and agricultural processes	Keyence is the global leader in sensor and vision technology. Its products significantly reduce production errors and faults, reduce energy consumption and improve overall efficiency.
Knorr-Bremse AG	Industrials	A3	Making transportation more efficient or safer	Knorr-Bremse is a German industrial company specialising in making brakes and safety systems for trains and trucks. Its products enable trains and trucks to be safer due to these braking systems, which allow train systems to run at speed and increase the amount of passengers or freight moved on the line.
London Stock Exchange Group Plc	Financials	B2	Increasing financial resilience	LSE is a great example of a company that makes our financial system more resilient and more efficient. Over 80% of sales come from providing data analytics to market participants and a further 13% from its post-trade division, which makes trading and settlement more resilient and efficient.
Nasdaq, Inc.	Financials	B2	Increasing financial resilience	Nasdaq promotes a more resilient and transparent financial sector by providing an independent and transparent marketplace for financial transactions to take place. It also facilitates access to lower-cost financial products.
NVR, Inc.	Consumer Discretionary	B2	Building better cities	NVR builds high-quality homes that have better energy efficiency ratings than the average new homes built by competitors. The management team has built up a culture of focusing on efficiency and scale alongside excellent capital allocation. Similar to the UK, there is a large shortfall in the number of homes being built every year and so homebuilders play a crucial role in meeting that demand.

All Fund holdings

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
Palo Alto Networks, Inc.	Information Technology	A3	Enhancing digital security	Palo Alto provides cyber security solutions for over 85,000 organisations. Its strategy is to build on the leading firewall product and move to subscription-based firewall and security as a service. This is increasingly based on consumption of data, meaning the market for security solutions will grow as data increases and more of this data is shifted into the cloud.
PayPal Holdings, Inc.	Information Technology	B1	Enhancing digital security	PayPal makes transacting online safer and easier for merchants and consumers. The company's management of major ESG issues is best in class, and so we believe they are in an excellent position to take advantage of the shift towards digital payments.
PRS REIT Plc	Real Estate	B2	Building better cities	PRS REIT develops and provides new houses for private rental in major UK towns and cities. It offers quality accommodation to people that cannot afford, or do not want to own, property directly.
Prudential plc	Financials	B3	Insuring a sustainable economy	Prudential has finally restructured itself to be just the Asian life insurer we have long wanted to see. It is focused on providing Health and Protection products to the as yet largely underpenetrated region.
PTC Inc.	Information Technology	B3	Improving the resource efficiency of industrial and agricultural processes	PTC is an Industrial Design technology business for niche industrial end markets. It effectively supports the digitalisation of the manufacturing industry.
Puma SE	Consumer Discretionary	C2	Enabling healthier lifestyles	Puma is a sportswear (apparel and footwear) company based in Germany. Around a third of sales are derived from active sportswear, which enable people to take part sports, increase activity and tackle obesity. The remainder is more 'athleisure', which is not directly linked to sports.

Source: Liontrust / Factset, 31 December 2021

All Fund holdings

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
Renewables Infrastructure Group Limited GBP Red.Shs	Utilities	A2	Increasing electricity from renewable sources	The Renewable Infrastructure Group (TRIG) is a sustainable infrastructure fund that owns and operates renewable energy electricity generation assets. These assets are spread across 79 different projects, mainly comprising wind generation assets (both onshore and offshore) with 9% in solar and 1% in battery storage. 60% of these renewable assets are in GB with the remainder in Ireland, France Sweden and Germany. These renewable assets have a generating capacity of 1,900 MW. This fund plays a crucial role in owning renewable assets which are displacing higher carbon alternatives off the electricity grid helping us move towards an ultra-low carbon economy.
Ringkjøbing Landbobank A/S	Financials	B1	Increasing financial resilience	Ringkjøbing Landbobank is one of the best-run banks in the industry, serving individuals and SMEs. Customer satisfaction rates are best in class and loan losses are non-existent. They focus on profitable and niche areas such as renewable infrastructure lending or dental practices and offer a full-service banking model.
Roche Holding Ltd	Health Care	A1	Enabling innovation in healthcare	The company creates truly innovative therapies that help change the course of disease. In the short to medium term, this benefits western economies who pay for it while on patent, then in the medium to long term, it benefits more developing economies as patents roll off or are not enforced.
SDCL Energy Efficiency Income Trust Plc	Financials	A2	Improving the efficiency of energy use	Strong theme from energy efficiency reducing emissions, and bills while increasing security of supply, coupled with lack of power price exposure (instead taking credit risk of counterparties) makes this unique within the listed renewable/sustainable-infra space.
Splunk Inc.	Information Technology	A3	Enhancing digital security	Splunk develops and provides operational intelligence software used to monitor, report and analyse real-time machine-generated data, regardless of the source and format. Its software enables customers to search IT systems and locate and analyse complex operational IT data. The company offers on-site and remote services and provides educational programs for users and developers.

Source: Liontrust / Factset, 31 December 2021

All Fund holdings

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
Spotify Technology SA	Communication Services	B1	Encouraging sustainable leisure	Spotify is the world's dominant audio platform, with nearly 300 million monthly active users in over 70 countries around the world. Spotify has two options for users; (i) paid ad-free subscriptions (single and multi-user accounts) (ii) free ad-supported subscriptions. The Spotify platform initially offered music streaming, with nearly all the world's back catalogue of recorded music, but in the last three years, it has invested into offering podcasts on the same bundled audio platform.
Technogym S.p.A	Consumer Discretionary	A3	Enabling healthier lifestyles	Technogym is an Italian fitness equipment manufacturer that specialises in manufacturing premium fitness equipment, gym design, fitness software, content and financing. Technogym is a leader in the global fitness equipment market with a number one market share in Europe and number two globally.
ThermoFisher Scientific Inc.	Health Care	A3	Enabling innovation in healthcare	ThermoFisher Scientific is a key enabler of innovation within the healthcare and life science industries. It provides instruments, reagent and consumables, as well as software and services to those progressing science for academic, governmental and commercial purposes.
ThomasLloyd Energy Impact Trust Plc	Financials	A3	Increasing electricity from renewable sources	ThomasLloyd Energy Impact Trust is an investment trust that funds and installs renewable energy projects in Asia. These are predominantly solar projects in India (90% of generating capacity) and some in the Philippines. It funds these renewable projects, increasing renewable electricity generation in emerging markets as well as providing security of supply for electricity in remote areas.
Triple Point Energy Efficiency Infrastructure Company Plc	Financials	A3	Improving the efficiency of energy use	Triple Point Energy is a sustainable infrastructure fund investing in energy efficiency projects in low carbon heat, social housing retrofitting and distributed renewable generation. The vast majority of revenues are contracted with little sensitivity to UK power prices. This fund invests exclusively in the UK and is a key driver of reducing wasted energy, user energy bills and emissions.
US Solar Fund Plc	Utilities	A3	Increasing electricity from renewable sources	US Solar is a sustainable infrastructure fund invested in solar farms in the US. It generates income from selling the electricity from solar farms to utilities and corporates through long-term power price purchase agreements to reduce the volatility from power prices. They pay a dividend out from these cashflows to investors.

All Fund holdings

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
VeriSign, Inc.	Information Technology	B3	Enhancing digital security	VeriSign operates as a provider of domain name registry services and internet infrastructure. The company enables the security, stability, and resiliency of key internet infrastructure and services. VeriSign is a simple business, but it performs a critically important business for the global economy in operating two of the most important global internet root servers. This provides registration services and authoritative resolution for the .com and .net top-level domains.
Visa Inc. Class A	Information Technology	B1	Enhancing digital security	Visa connects the world's financial institutions enabling efficient and safe payment transactions.
Waste Connections, Inc.	Industrials	C3	Delivering a circular materials economy	Waste Connections collects, treats and recycles predominantly municipal waste in smaller cities and rural areas of Canada and US.

Fixed Income

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
Aroundtown Sa	Financials	C3	Building better cities	Aroundtown is the third-largest listed real estate company in Europe, with a well diversified property portfolio predominantly focused on commercial property including offices, hotels and logistics space, while also having some residential exposure through its sizeable holding in Grand City Properties. It invests in existing mid-life-cycle assets, which have often been neglected, adding value through operational and redevelopment activities, these include sustainability initiatives to improve the environmental footprint of its portfolio.
Assicurazioni Generali S.p.a.	Financials	C2	Saving for the future	Assicurazioni Generali offers life and non-life insurance and reinsurance throughout the world. The company offers life, health, accident, automobile, marine, aviation, transport, fire, general liability, and credit insurance and reinsurance. It is contributing to a sustainable economy through the reduction of risk and the mitigation of financial impact for the policyholder, thereby producing a safety net for people and business in times of catastrophe.

All Fund holdings

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
AT&T Inc.	Telecommunication Services	B3	Connecting people	AT&T engages in the provision of telecommunications, media and technology services, primarily to consumers and businesses in the US, while its Latin America arm provides entertainment and wireless as well. It also operates Warner Media, which produces and distributes films, television and gaming. The company is currently in the process of refocussing its primarily on communications services, which play a pivotal role in the transition to digital infrastructure, promoting digital inclusion and reducing the digital divide across underserved segments of the population.
Aviva Plc	Financials	B1	Insuring a sustainable economy	Aviva is an international insurance company that provides all classes of general and life assurance, including fire, motor, marine, aviation, and transport insurance. The company also supplies a variety of financial services, including unit trusts, stockbroking, long-term savings, and fund management.
AXA Sa	Financials	B1	Insuring a sustainable economy	AXA is an insurance company focusing on the key areas of health, property and casualty insurance. It is reducing its exposure to financial markets in favour of purer insurance products and its stated purpose is 'to act for human progress by protecting what matters'.
Banco Santander, S.a.	Financials	B3	Increasing financial resilience	Banco Santander attracts deposits and offers retail, commercial and private banking, and asset management services, offering consumer credit, mortgage loans, lease financing, factoring, mutual funds, pension funds, insurance, commercial credit and investment banking services. The group's financial resilience is supported by its geographical diversification, along with flexibility to allocate capital throughout its subsidiaries.
BNP Paribas S.a.	Financials	B2	Increasing financial resilience	BNP Paribas attracts deposits and offers commercial, retail, investment, and private and corporate banking services. The Bank also provides asset management and investment advisory services to institutions and individuals in Europe, the United States, Asia, and the emerging markets. This is a well-diversified financial institution by product, with over 60% of revenues generated from higher-rated revenue streams.

All Fund holdings

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
Canary Wharf Group Investment Holdings Plc	Financials	C2	Building better cities	Canary Wharf Group is the owner and operator of London's largest REIT portfolio, which predominantly comprises office space, owning around 45% of the Canary Wharf Estate as well as most of the development potential. The company manages its key ESG exposures well compared to peers and plays a key role in modernising and improving the environmental footprint of London's office market.
Cellnex Finance Co. Sa	Financials	B3	Connecting people	Cellnex is a leader in telco and broadcasting infrastructure in Europe and enables MNOs to use its infrastructure rather than have its own footprint of passive infrastructure, which can free up MNO balance sheets and increase investment in active investments. 5G will further boost network capacity and density, necessary for the continued exponential growth in data and our reliance on the digital economy.
Deutsche Telekom Ag	Telecommunication Services	B3	Connecting people	DT is the German incumbent telecommunications operator, providing services in Germany, the United States and Europe through its fixed and mobile networks for consumers and businesses. The company plays a pivotal role in the transition to digital infrastructure, with the leading fiberoptic network in nearly all of its markets, which forms a critical part of a sustainable economy.
HSBC Holdings Plc	Financials	C1	Increasing financial resilience	HSBC is a global bank that provides a variety of international banking and financial services, including retail and corporate banking, trade, trusteeship, securities, custody, capital markets, treasury, private and investment banking, and insurance. Its diverse business model and high levels of capital and liquidity make this one of most financially resilient banks in the UK.
Iberdrola International Bv	Utilities	C2	Increasing electricity from renewable sources	Iberdrola is a leading global utility, engaging in the generation, distribution, trading, and marketing of electricity. A further investment of euro75bn over the next five years will see a doubling of Iberdrola's renewable energy capacity, accelerating the move towards a low carbon economy.

All Fund holdings

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
Infrastrutture Wireless Italiane Spa	Telecommunication Services	B3	Connecting people	INWIT is Italy's leading towers operator, providing passive infrastructure transmission equipment for telecommunications operators. It invests in new technologies to improve network coverage and density, in order to meet the greater capacity requirements from rising demand for mobile data services and ensure stable and reliable connections. The company plays a crucial role in accelerating the transition towards digital infrastructure, which forms a critical part of a sustainable economy.
Intercontinental Hotels Group Plc	Consumer Discretionary	C1	Leading ESG management	Intercontinental Hotels Group is one of the world's leading hotels companies. The company operates a diverse portfolio of hotel brands from high end luxury to affordable functional. IHG is committed to create a safe, inclusive environment for guests, while taking positive actions to help hotel owners in managing their impact on the environment.
Kerry Group Financial Services Unlimited Co.	Financials	B2	Delivering healthier foods	Kerry is one of the largest and most technologically advanced ingredients and flavours technology companies. The company is an integral part of food manufacturing value chain, covering a broad range of expertise including flavour, texture and nutrition in a complete solution. The company is able to reformulate recipes to improve the nutritional content (reducing salt, sugar and fat) while maintaining taste and texture.
Logicor Financing Sarl	Financials	C3	Portfolio construction/ diversification	Logicor operates one of the largest portfolios of logistics real estate in Europe, offering 13.6 million square metres of lettable logistics space across 17 countries. Logistics real estate landlords play an increasingly pivotal role in global supply chains, particularly given the recent acceleration in the shift to e-commerce, which requires three times more warehouse and logistics space than traditional brick-and-mortar business models.
Midland Bank Plc	Financials	C1	Increasing financial resilience	Midland Bank is now owned by HSBC, a global bank that provides a variety of international banking and financial services, including retail and corporate banking, trade, trusteeship, securities, custody, capital markets, treasury, private and investment banking, and insurance. Its diverse business model and high levels of capital and liquidity make this one of most financially resilient banks in the UK.

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
Motability Operations Group Plc	Financials	B3	Enabling healthier lifestyles	Motability Operations Group provides transit services, offering finance for the acquisition of vehicles under hire purchase agreement for disabled people.
MPT Operating Partnership, L.p.	Financials	B4	Building better cities	Medical Properties Trust is the second-largest owner of hospital beds in the US, owning and managing a portfolio of hospitals, rehabilitation, surgical and other medical facilities, providing over 44,000 licensed beds. It provides pivotal infrastructure for the provision of healthcare, particularly in the context of aging population demographics. On average, people aged 65-74 are spending four times the number of days in hospitals as the under-65 population, while every single day in the US alone, 10,000 people turn 65. It follows that those aged 75-84 and 85-plus use hospitals 6.4 times and 8.7 times the rate of under 65s.
Natwest Group Plc	Financials	B2	Increasing financial resilience	NatWest is a UK-focused bank that operates retail and commercial operations, providing consumer loans, asset and invoice finances, commercial and residential mortgages, credit cards, and financial planning services, as well as life insurance. NatWest's corporate lending is focused on the areas we view as being most beneficial to sustained economic growth, namely SME lending, leasing and factoring and traditional retail banking.
Orsted A/s	Utilities	B1	Increasing electricity from renewable sources	Ørsted engages in the provision of renewable energy solutions and is the world's largest developer and operator of offshore wind. Ørsted has firmly embraced the energy transition, transforming its business over the last decade to become the global leader in offshore wind.
PGH (cayman)	Financials	B3	Insuring a sustainable economy	Phoenix Group Holdings operates as a holding company. The company, through its subsidiaries, provides life insurance and pension funds services and is contributing to a sustainable economy by de-risking clients' pension portfolio and assisting them saving for their future.
SNAM S.p.a.	Utilities	C1	Improving the efficiency of energy use	SNAM is one of the world's leading energy infrastructure operators, heating millions of homes and contributing to energy security. It is investing heavily in supporting the energy transition in areas such as biomethane, energy efficiency, sustainable mobility and hydrogen.

Additional ESG metrics

We have committed to disclose additional ESG data for investors in the SF Funds. The following data relating to social, governance and human rights metrics has been requested by investors or sustainability labels. We have engagement and voting policies designed to improve the social, governance, environmental and human rights aspects for the companies in which the fund invests.

Data availability is improving. For example, in the case of staff turnover, where data availability was as low as 20-25% when we first started disclosing this in 2019, it has now nearly doubled. Our engagement priority is to encourage companies to participate in the Workforce Disclosure Initiative, which aims to target companies to report more information on how they manage staff and we believe is contributing to this increased disclosure on social metrics.

For human rights, we use data on the United Nations Global Compact as a proxy. The UN Global Compact is a set of principles to minimise unintended negative impacts in terms of harm to the environment and society and includes a significant amount relating to labour rights and human rights.

Additional ESG metrics

Social: staff turnover

	Social: staff turnover	Data coverage	
		% weight	Number of companies
Liontrust GF SF Multi-Asset Global Fund	3.8%	43.7%	42.9%

	Pass	Watch List	Fail
Liontrust GF SF Multi-Asset Global Fund	95%	5%	0%
Benchmark: asset weighted conventional	86%	13%	1%
Fund relative to benchmark	9%	-8%	-1%

Source: Liontrust / Factset, 31 December 2021

Environmental indicator

This fund is 77% less carbon intensive than the benchmark, as measured by the tCO₂e/\$m invested (scope 1+2). Data coverage 99%, source: MSCI Carbon Analytics. Fund positioning on climate change is detailed on pages 7-8 of this report.

Governance indicator

This fund has less joint CEO and Chairman roles than the benchmark (18.4% of fund versus 31.8% for the benchmark). Data coverage 98%, source: MSCI ESG Manager. More governance indicators are listed on pages 26-27 of this report.

Social indicator

This fund has a better MSCI Social Quality scorecard than the benchmark (5.5 vs 5.1), source: MSCI ESG Manager. There is a lack of available data for social metrics currently but we are engaging with companies to partake in the Workplace Disclosure Initiative (WDI), which should enable us to disclose more meaningful indicators for the social aspects of the fund.

Human rights indicator

For human rights, we use data on the United Nations Global Compact as a proxy. The UN Global Compact is a set of principles to minimise unintended negative impacts in terms of harm to the environment and society and includes a significant amount relating to labour rights and human rights.

While the fund has less signatories to the UN Global Compact (principally due to the smaller companies in the fund compared to the benchmark), the status of companies in the fund is more favourable, with a much lower proportion under 'watch' or 'fail' status compared to the benchmark (5% watch/ 0% fail for fund versus 13% watch and 1% fail for the benchmark) as determined by MSCI ESG Manager (data coverage 94.5%).

Key features

	GF SF Multi-Asset Global
Investment Objective & Policy ¹ :	<p>The Fund aims to achieve capital growth over the long term (five years or more) by investing globally in sustainable securities.</p> <p>The Fund will only invest in equity and debt securities issued by global companies that provide or produce sustainable products and services, as well as equity and debt securities of issuers that have a progressive approach to the management of environmental, social and governance issues.</p> <p>The Fund may also invest in cash and Money Market Instruments.</p> <p>Allocations to equities, bonds and cash will vary over time depending on market circumstances. Asset allocation limits will, in normal circumstances, remain in line with the following ranges: Equity securities – 40-60%, Debt securities – 20-50%, Cash – 0-20%.</p> <p>While the Fund will invest predominantly in developed markets, it may also invest up to 20% in emerging market securities.</p> <p>At times the Investment Adviser may decide to hold a more concentrated portfolio, and it is possible that a substantial portion of the Fund could be invested in cash or cash equivalents.</p> <p>The Fund is permitted to use derivatives for the purposes of efficient portfolio management, investment and hedging purposes.</p>
Recommended Investment Horizon:	5 years or more
SRRI ² :	4
Active / Passive Investment Style:	Active
Benchmark:	The Fund is actively managed in reference to its benchmark comprising 50% MSCI World / 35% Markit iBoxx EUR Overall Index / 15% ESTER by virtue of the fact that it uses the composite benchmark for performance comparison purposes. The benchmark is not used to define the portfolio composition of the Fund and the Fund may be wholly invested in securities which are not constituents of the benchmark.
Sustainability Profile	The Fund is a financial product subject to Article 9 of the Sustainable Finance Disclosure Regulation (SFDR).

Notes: ¹ As specified in the KIID of the fund; ²SRRI = Synthetic Risk and Reward Indicator. Please refer to the KIID for further detail on how this is calculated.

Key risks

Past performance is not a guide to future performance. The value of an investment and the income generated from it can fall as well as rise and is not guaranteed. You may get back less than you originally invested.
