Exposure to positive sustainability investment trends

Consistent with the available opportunities in investment grade corporate bonds and our approach that seeks to invest in resilient companies, our fixed income funds typically have a high allocation to the Greater safety and resilience mega trend. For more detail on the sustainable themes, see liontrust.co.uk/sustainable

Within this trend, the two sub themes with the greatest exposure are *Increasing financial resilience* and *Insuring a sustainable economy*. The fund's exposure to Banks and Insurance generally sits within these themes and is a significant component. Typically, the exposure within the *Increasing financial resilience* theme is to banks that are well capitalised and have a focus on retail and SME lending coupled with

resilient and prudent lending practices. We believe that high quality lending and banking activities is important to a resilient economy. Typically, the exposure within the *Insuring a sustainable economy* theme is to insurance companies. Insurance facilitates economic growth by giving people the confidence to invest in themselves, their lives or their businesses. The leading insurance companies expend time and resources researching issues such as climate change in order to make them more efficient when it comes to pricing risk. Through this research they become better underwriters with a greater ability to advise their clients on potential risks, while also fully integrating their analysis in order to make better investments. We believe that these leading companies again create more resilient, sustainable economies.

Exposure to sustainable themes

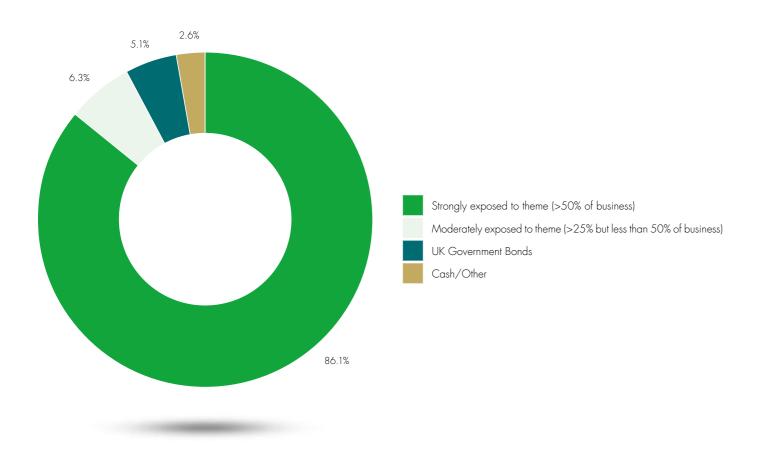

Data as at 31 December 2021. Chart is thematic exposure to corporate bonds only, Government bonds and cash excluded

Exposure to positive sustainability investment trends

Sustainable investment themes: how much of business is exposed

This analysis shows what proportion of companies held in the fund is exposed to the Sustainable investment themes: 86.1% of the fund is invested in companies that are strongly exposed to our themes (which

means more than 50% of the business's revenues); a further 6.3% of the fund is invested in companies that are moderately exposed to our themes, which means between 25% and 50% of revenues.

Source: Liontrust / Facstet as at 31 December 2021. Data is representative of corporate bonds only and excludes government bonds and cash

Alignment with UN Sustainable Development Goals

All of the Sustainable investment themes are linked to SDGs and the underlying Key Performance Indicator they relate to have been identified in the SDG text.

A more detailed discussion on impact and how the Sustainable investment themes are aligned with the SDGs is available in the SF Annual Review 2020 on pages 27-33: www.liontrust.co.uk/sustainable

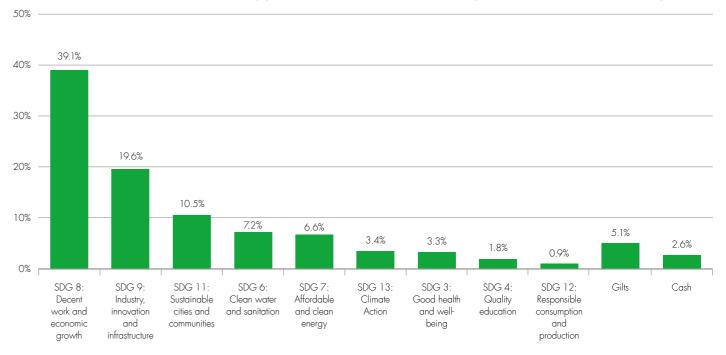

The fund has most exposure to SDG 8: Decent work and economic growth (39.1%); SDG 9: Industry, innovation and infrastructure (19.6%); SDG 11: Sustainable cities and communities (10.5%) and SDG 6: Clean water and sanitation (7.2%).

While our methodology is to assign what we believe to be the most prevalent SDG or the one on which the company has the most impact, we believe that the companies we have exposure to can have an impact on multiple SDGs.

For example, many holdings in the Banking industry come under SDG 8: Decent work and economic growth as we believe that through the banks' lending practices they facilitate economic growth. However, given several of the banks we own have exposure to retail (mortgage), they could also be classified or have positive impact on SDG 11: Sustainable cities and communities.

The fund has exposure to nine of the 17 UN SDGs.

Sustainable investment themes mapped to UN Sustainable Development Goals (% of fund exposure)

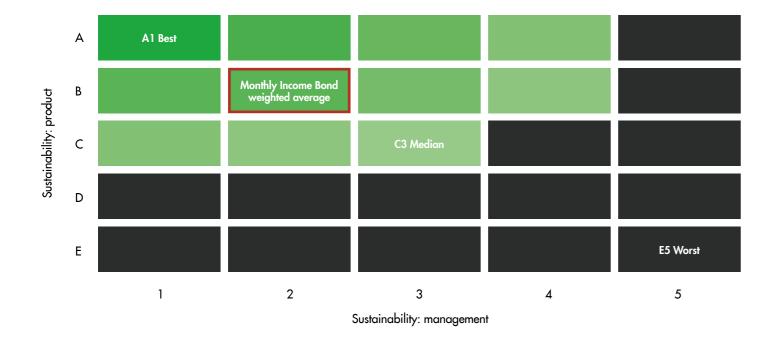

Source: Liontrust / Facstet as at 31 December 2021. Data is representative of corporate bonds only and excludes government bonds and cash

Assessment of how sustainable companies are: Sustainability Matrix Rating

We assess every company using our proprietary Sustainability Matrix Rating, which measures how sustainable its products and services are as well as how well they manage the material environmental, social and governance (ESG) matters related to their business.

The weighted average Sustainability Matrix rating for the fund is B2 (marked in red in the figure below). This shows the fund is invested in companies whose products and services are more sustainable and whose management of ESG aspects of their business is better than the market it invests in. There are no companies in the fund which are rated in the ineligible grey area of the Sustainability matrix.

Climate change: portfolio data on carbon, solutions and fossil fuels

Carbon emissions of fund compared to conventional benchmark

We can see from the chart below that the investments in the fund emit 55% less carbon (tCO2e) than the market it invests in. When looking at the carbon intensity of the investments, the fund has a carbon intensity (tCO2e / \$M sales) that is 62.2% lower than the benchmark. This independent analysis includes direct emissions forming scope 1 and scope 2 emissions only*.

Liontrust Monthly Income Bond Fund

Benchmark: iBoxx Sterling Corporates 5-15 Year Index

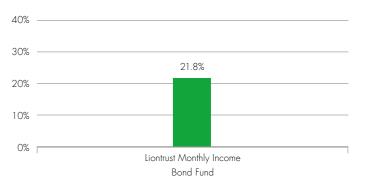

Source: MSCI Carbon Analytics and Liontrust 31 December 2021. The iBoxx Sterling Corporates 5-15 Year Index is the target benchmark for this fund. Carbon emissions data available for 88.6% of the fund and 95.7% of the benchmark. *Scope 1 emissions are direct greenhouse [GHG] emissions that occur from sources controlled or owned by an organisation (associated with fuel combustion in boilers, furnaces, vehicles and so on). Scope 2 emissions are indirect GHG emissions associated with the purchase of electricity, steam, heat, or cooling. Scope 3 (all indirect emissions, not included in scope 2, that occur in the value chain of the reporting company) is important but not currently available in a consistent data set with enough coverage to be included in this independent analysis.

Companies offering clean technology solutions

This analysis shows that the fund holds 21.8% of companies that MSCI has determined are providing clean technology solutions.

Owing to the nature of the fixed income asset class, many investments are to more developed stable companies. Therefore, is it difficult to obtain material exposure to companies overly exposed to cleantech solutions. Usually our exposure to cleantech will be as a result of investment within a larger more developed utility.

Alphabetical list showing all holdings in the fund along with their sector, our Sustainability Matrix Rating and Sustainable investment theme.

| Company name | Sector | Sustainability Matrix | Sustainable investment theme | What this company does and how it contributes to a more sustainable economy |
|-------------------------------|--------------------|--------------------------|---------------------------------------|--|
| 3i Group Plc | Financial Services | C1 | Increasing financial resilience | 3i is a private equity company that invests predominantly in retail, infrastructure, healthcare, technology and industrial. It has strong responsible investment policies and firm exclusion on no-go areas. |
| Annington Funding Plc | Real Estate | A3 | Building better cities | Annington is one of the UK's largest private residential landlords, with more than 40,000 homes across the country. The company is hoping to address the UK's housing crisis through the provision of affordable housing at a significant discount to market rents, while also refurbishing and redeveloping around 500 properties per annum for sale or rent at competitive prices. |
| Assicurazioni Generali Spa | Insurance | В3 | Insuring a sustainable economy | Assicurazioni Generali offers life and non-life insurance and reinsurance throughout the world. The company offers life, health, accident, automobile, marine, aviation, transport, fire, general liability, and credit insurance and reinsurance. It is contributing to a sustainable economy through the reduction of risk and the mitigation of financial impact for the policyholder, thereby producing a safety net for people and business in times of catastrophe. |
| AT&T Inc | Telecommunications | В3 | Connecting people | AT&T engages in the provision of telecommunications, media and technology services, primarily to consumers and businesses in the US, while its Latin America arm provides entertainment and wireless as well. It also operates Warner Media, which produces and distributes films, television and gaming. The company is currently in the process of refocussing its primarily on communications services, which play a pivotal role in the transition to digital infrastructure, promoting digital inclusion and reducing the digital divide across underserved segments of the population. |
| Aviva Plc | Insurance | B1 | Insuring a sustainable economy | Aviva is an international insurance company that provides all classes of general and life assurance, including fire, motor, marine, aviation, and transport insurance. The company also supplies a variety of financial services, including unit trusts, stockbroking, long-term savings, and fund management. |

All Fund holdings

| Company name | Sector | Sustainability Matrix | Sustainable investment theme | What this company does and how it contributes to a more sustainable economy |
|-----------------------------|-------------|--------------------------|---------------------------------------|---|
| AXA SA Paris | Insurance | B1 | Insuring a sustainable economy | AXA is an insurance company focusing on the key areas of health, property and casualty insurance. It is reducing its exposure to financial markets in favour of purer insurance products and its stated purpose is 'to act for human progress by protecting what matters'. |
| Banco Santander SA | Banks | В3 | Increasing financial resilience | Banco Santander attracts deposits and offers retail, commercial and private banking, and asset management services, offering consumer credit, mortgage loans, lease financing, factoring, mutual funds, pension funds, insurance, commercial credit and investment banking services. The group's financial resilience is supported by its geographical diversification, along with flexibility to allocate capital throughout its subsidiaries. |
| Barclays Bank Plc | Banks | C3 | Increasing financial resilience | Barclays is a global financial services provider engaged in retail banking, credit cards, wholesale banking, investment banking, wealth management, and investment management services. Notwithstanding its investment banking operation, it is supported by strong credit ratings and international diversification that primarily focuses on retail banking and SME lending that is supportive of economic growth. |
| BNP Paribas | Banks | B2 | Increasing financial resilience | BNP Paribas attracts deposits and offers commercial, retail, investment, and private and corporate banking services. The Bank also provides asset management and investment advisory services to institutions and individuals in Europe, the United States, Asia, and the emerging markets. This is a well-diversified financial institution by product, with over 60% of revenues generated from higher-rated revenue streams. |
| Canary Wharf Finance Plc | Real Estate | C2 | Building better cities | Canary Wharf Group is the owner and operator of London's largest REIT portfolio, which predominantly comprises office space, owning around 45% of the Canary Wharf Estate as well as most of the development potential. The company manages its key ESG exposures well compared to peers and plays a key role in modernising and improving the environmental footprint of London's office market. |

| Company name | Sector | Sustainability Matrix | Sustainable investment theme | What this company does and how it contributes to a more sustainable economy |
|------------------------------|-------------------------------|--------------------------|---------------------------------------|---|
| Cellnex Telecom Sau | Telecommunications | В3 | Connecting people | Cellnex is a leader in telco and broadcasting infrastructure in Europe and enables MNOs to use its infrastructure rather than have its own footprint of passive infrastructure, which can free up MNO balance sheets and increase investment in active investments. 5G will further boost network capacity and density, necessary for the continued exponential growth in data and our reliance on the digital economy. |
| Center Parcs | Whole Business Securitized | B1 | Encouraging Sustainable leisure | Center Parcs (UK) Group is a leading short break holiday business in the UK and Ireland, operating through six holidays villages. The concept of Center Parcs is to bring families/friends together in a relaxed holiday environment at its UK villages. This has a positive impact due to the reduction in carbon footprint of holidaying domestically as opposed to abroad. |
| Clarion Housing Group Ltd | Housing Associations | Al | Building better cities | The mission of Clarion Housing Group is to provide good-quality, affordable homes and neighbourhoods to people failed by the market. It is a developer as well as a landlord, building thousands of affordable homes every year and invest in residents and their communities through Clarion Futures and their charitable foundation. |
| Coventry Bldg Society | Banks | В1 | Building better cities | The company is exclusively UK based, with a business model that focuses on high-quality, low LTV (<55%) mortgages to owner-occupied and buy to let customers in the prime residential market. Coventry is an extremely highly capitalised entity that benefits from a not-for-profit mutual ownership that consequently offers significantly higher deposit rates that is consistent with the savings for the future theme. |
| Deutsche Telekom AG | Telecommunications | В3 | Connecting people | DT is the German incumbent telecommunications operator, providing services in Germany, the United States and Europe through its fixed and mobile networks for consumers and businesses. The company plays a pivotal role in the transition to digital infrastructure, with the leading fiberoptic network in nearly all of its markets, which forms a critical part of a sustainable economy. |
| GlaxoSmithKline Corp | Health Care | A2 | Providing affordable healthcare | GlaxoSmithKline is a large UK pharmaceutical conglomerate. It manufactures and markets branded pharmaceutical and vaccine therapeutics. It also has a Consumer Healthcare business, which is readying for a spin off in 2022. |

All Fund holdings

| Company name | Sector | Sustainability Matrix | Sustainable investment theme | What this company does and how it contributes to a more sustainable economy |
|---------------------------------|--------------------|--------------------------|--|---|
| HSBC Holdings Plc | Banks | Cl | Increasing financial resilience | HSBC is a global bank that provides a variety of international banking and financial services, including retail and corporate banking, trade, trusteeship, securities, custody, capital markets, treasury, private and investment banking, and insurance. Its diverse business model and high levels of capital and liquidity make this one of most financially resilient banks in the UK. |
| Iberdrola | Utilities | C2 | Increasing electricity from renewable sources | Iberdrola is a leading global utility, engaging in the generation, distribution, trading, and marketing of electricity. A further investment of euro75bn over the next five years will see a doubling of Iberdrola's renewable energy capacity, accelerating the move towards a low carbon economy. |
| Legal & General Grp Plc | Insurance | B2 | Saving for the future | Legal and General manages capital and associated risks in order to provide customers with pension income and long-term savings. It benefits from the rise in defined contribution pensions and the de-risking of workplace institutional pensions. They are a beneficiary of the Saving for the future theme, helping individuals to provide for their retirement in an efficient and cost-effective way. |
| Lloyds Banking Group Plc | Banks | B1 | Increasing financial resilience | Lloyds Banking Group, through subsidiaries and associated companies, offers a range of banking and financial services in the UK, including mortgages, pensions, asset management, insurance services, corporate banking, and treasury services. As well as being the leading lender to SME/start-ups in the UK, which is a key driver of long term economic growth, Lloyds also is one of the largest mortgage providers, thus enabling home ownership. |
| M&G | Financial Services | C3 | Insuring a sustainable economy | Prudential has finally restructured itself to be just the Asian life insurer we have long wanted to see. It is focused on providing Health and Protection products to the as yet largely underpenetrated region. |
| Medical Properties Trust Inc | Health Care | B4 | Building better cities | Medical Properties Trust is the second-largest owner of hospital beds in the US, owning and managing a portfolio of hospitals, rehabilitation, surgical and other medical facilities, providing over 44,000 licensed beds. It provides pivotal infrastructure for the provision of healthcare, particularly in the context of aging population demographics. |

| Company name | Sector | Sustainability Matrix | Sustainable investment theme | What this company does and how it contributes to a more sustainable economy |
|-------------------------------------|--------------------|--------------------------|--|--|
| Motability Operations Group Plc | Financial Services | B3 | Enabling healthier lifestyles | Motability Operations Group provides transit services, offering finance for the acquisition of vehicles under hire purchase agreement for disabled people. |
| National Express Group Plc | Travel & Leisure | Al | Making transportation more efficient or safer | The company operates bus, coach and rail services, with an exceptional record on safety and progressive on environmental improvements. It helps to make cities less congested and air cleaner. |
| National Grid Plc | Utilities | B2 | Improving the efficiency of energy use | National Grid engages in the transmission and distribution of electricity and gas to millions of customers and communities. As operator of the UK electricity grid, it plays an important role in investing to upgrade the grid to be fit for the energy transition towards an ultra-low carbon economy by enabling more renewables as well as upgrading infrastructure for electric vehicle charging points and heat pumps. |
| National Westminster Bank Plc | Banks | B2 | Increasing financial resilience | NatWest is a UK-focused bank that operates retail and commercial operations, providing consumer loans, asset and invoice finances, commercial and residential mortgages, credit cards, and financial planning services, as well as life insurance. NatWest's corporate lending is focused on the areas we view as being most beneficial to sustained economic growth, namely SME lending, leasing and factoring and traditional retail banking. |
| Nationwide Building Society | Banks | B1 | Building better cities | Nationwide Building Society is a UK-based mutual that provides financial services, offering saving accounts, investment and financial advice, loans, credit cards, retirement, mortgage, and insurance services. Almost all of Nationwide's loan book (94%) relates to mortgages, which we view as a positive to society. Risk management has been robust over time, with extremely low levels of loan losses and a commitment to working with clients that experience financial difficulties. |

| Company name | Sector | Sustainability Matrix | Sustainable investment theme | What this company does and how it contributes to a more sustainable economy |
|--------------------------------|-------------------------------|--------------------------|--|--|
| Orange SA | Telecommunications | B2 | Connecting people | Orange is the French incumbent telecommunications provider, operating mobile and fixed network services, but also has a wider global footprint including Africa, the Middle East and other European countries. It invests heavily in R&D, aiming to expand its fiber and mobile networks, accelerating the transition towards digital infrastructure. Digital infrastructure is a critical part of a sustainable economy, promoting digital inclusion and reducing the digital divide across underserved segments of the population. |
| Pension Insurance Corp Plc | Insurance | B2 | Saving for the future | Pension Insurance Corp provides risk management solutions and insurance products. The firm offers pension insurance buyouts, buy-ins, and longevity insurance solutions and it is contributing to a sustainable economy by derisking clients' pension portfolio and assisting them in saving for their future. |
| Phoenix Group Holdings Plc | Insurance | В3 | Insuring a sustainable economy | Phoenix Group Holdings operates as a holding company. The company, through its subsidiaries, provides life insurance and pension funds services and is contributing to a sustainable economy by de-risking clients' pension portfolio and assisting them saving for their future. |
| Places For People Homes Ltd | Housing Associations | A2 | Building better cities | Places for People provides housing facilities. The Company owns and manages over 209,000 properties, with an average discount to market rent of 40-50%. |
| Rabobank Nederland | Banks | B1 | Increasing financial resilience | Cooperatieve Rabobank operates as a bank, offering personal, wholesale, international, and retail banking services. The organisation has a stated mission of making a significant contribution to welfare and prosperity in the Netherlands, as well as aiming to make a substantial contribution to feeding the world sustainably. Moreover, the majority of their corporate lending is to SME, consistent with aim of supporting economic growth in the Netherlands. |
| RAC Group Holdings Ltd | Whole Business Securitized | В3 | Making transportation more efficient or safer | RAC is a market-leading breakdown assistance service, providing vehicle repair and recovery, legal cover and claims management services. The company provides roadside recovery for all UK drivers. RAC continually invests in its vehicle fleet and 90% is now compliant with the Euro 6 emission standard. New lighting, building management systems, recycling and water systems have also been introduced to reduce emissions. |

| Company name | Sector | Sustainability Matrix | Sustainable investment theme | What this company does and how it contributes to a more sustainable economy |
|---|-------------------------|--------------------------|--|---|
| Rothesay Life Ltd | Insurance | B2 | Saving for the future | Rothesay Life operates as a holding company. The company, through its subsidiaries, provides life insurance and pension funds services. contributing to a sustainable economy by de-risking clients' pension portfolio and assisting them in saving for their future. |
| Royal London Mutual Insurance Society Ltd | Insurance | В3 | Saving for the future | Royal London Mutual Insurance Society offers life assurance, existing policies details, funeral planning, pensions, wealth management, home, and car insurance. It is contributing to a sustainable economy through the reduction of risk and the mitigation of financial impact for the policy holder, producing a safety net for people and business in times of catastrophe. |
| Scottish & Southern Energy Plc | Utilities | B2 | Increasing electricity from renewable sources | SSE engages in the generation, transmission, distribution, and supply of electricity. It operates through the following segments: Networks, Retail, and Wholesale. |
| Severn Trent Plc | Utilities | Al | Improving management of water | Severn Trent engages in the provision of clean water and waste water treatment services and develops renewable energy solutions. It aims to provide clean and safe drinking water to its customers and is committed to invest £6.6bn over the next AMP, on new and existing pipes, treatment works and reservoirs. |
| South Eastern Power Networks Plc | Utilities | B2 | Improving the efficiency of energy use | UK Power Networks is the UK's largest electricity distribution network (DNO), delivering power to 8.3 million homes and businesses via its network in London, the east and south east of England. The business invests significant capital in maintaining and improving its network, to ensure reliability and delivery of electricity in a safe and efficient manner. |
| Southern Housing Group Ltd | Housing Associations | A4 | Building better cities | Southern Housing Group operates as a non-profit housing authority, providing housing facilities with a housing portfolio of c.30,000 properties. Its primary offering is affordable homes at significant discounts to the market to those need them most. |

Other third party ESG measures

We are often asked to provide data on how our Sustainable Future funds are ranked by third party ESG data providers.

When the portfolio is independently analysed by MSCI, we can see the ESG scoring is strong and better than the benchmark, achieving a rating of AAA versus the iBoxx Sterling Corporates 5-15 Year Index's average of AA. When we decompose the portfolio score into its constituent E, S and G parts, we can see that the fund outperforms on all fronts.

ESG risk exposure

| ESG quality scorecard | | | | | | |
|--------------------------|-----------|-----------|--------|--|--|--|
| | Portfolio | Benchmark | Active | | | |
| ESG Quality Score (0–10) | 9.1 | 9.2 | -0.9% | | | |
| Environmental Score | 7.2 | 7.2 | 0.3% | | | |
| Social Score | 5.4 | 5.0 | 6.3% | | | |
| Governance Score | 6.0 | 5.4 | 10.0% | | | |

MSCI rating distribution

Below is the rating breakout. We can see that the fund has a significantly higher weight towards higher-rated companies and is underweight the lower-rated companies.

Additional ESG metrics

We have committed to disclose additional ESG data for investors in the SF Funds. The following data relating to social, governance and human rights metrics has been requested by investors or sustainability labels. We have engagement and voting polices designed to improve the social, governance, environmental and human rights aspects for the companies in which the fund invests.

Data availability is improving. For example, in the case of staff turnover, where data availability was as low as 20-25% when we first started disclosing this in 2019, it has now nearly doubled. Our engagement priority is to encourage companies to participate in the Workforce Disclosure Initiative, which aims to target companies to report more information on how they manage staff and we believe is contributing to this increased disclosure on social metrics.

For human rights, we use data on the United Nations Global Compact as a proxy. The UN Global Compact is a set of principles to minimise unintended negative impacts in terms of harm to the environment and society and includes a significant amount relating to labour rights and human rights.

We have committed to disclose additional data related to the sustainability aspects of the fund, which we will disclose as part of our reporting cycle every six months.

Additional ESG metrics

Social: staff turnover

| | | Data coverage | |
