Weight of holdings owning fossil fuels and potential emissions	8–9
Fund holdings	10–22
Other third party ESG measures	23–24
Additional ESG metrics	25–27

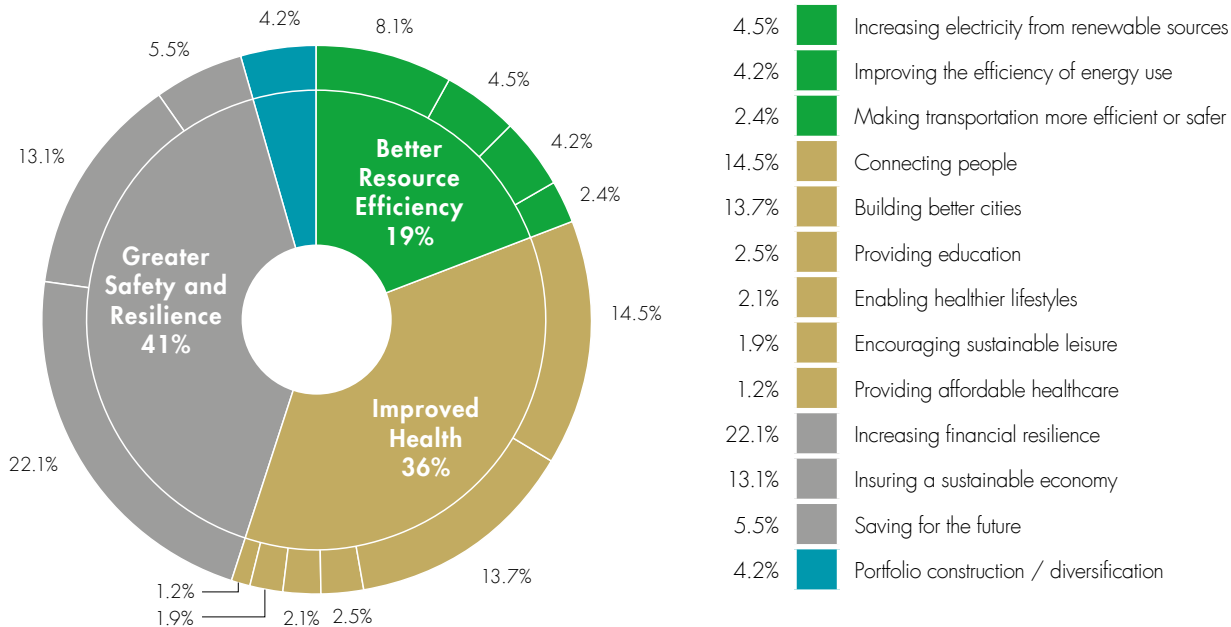

Exposure to positive sustainability investment trends

Consistent with the available opportunities in investment grade corporate bonds and our approach that seeks to invest in resilient companies, our fixed income funds typically have a high allocation to the Greater safety and resilience mega trend. For more detail on the sustainable themes, see liontrust.co.uk/sustainable

Within this trend, the two sub themes with the greatest exposure are *Increasing financial resilience* and *Insuring a sustainable economy*. The fund's exposure to both Banks and Insurance generally sits within these themes and is a significant component. Typically, the exposure within the *Increasing financial resilience* theme is to banks that are well capitalised and have a focus on retail and small and medium-sized enterprises (SME) lending coupled with resilient and

prudent lending practices. We believe that high quality lending and banking activities is important to a resilient economy. Typically, the exposure within the *Insuring a sustainable economy* theme is to insurance companies. Insurance facilitates economic growth by giving people the confidence to invest in themselves, their lives or their businesses. The leading insurance companies expend time and resources researching the issues such as climate change in order to make them more efficient when it comes to pricing risk. Through this research they become better underwriters with a greater ability to advise their clients on potential risks, while also fully integrating their analysis in order to make better investments. We believe that these leading companies again create more resilient, sustainable economies.

Exposure to sustainable themes

Data as at 30 June 2022. Chart is thematic exposure to corporate bonds only, Government bonds and cash excluded

Exposure to positive sustainability investment trends

Sustainable investment themes: how much of business is exposed

This analysis shows what proportion of companies held in the fund is exposed to the sustainable investment themes: 88.2% of the fund is invested in companies that are strongly exposed to our themes

(which means more than 50% of the business's revenues); 7.0% of the fund is invested in companies that are moderately exposed to our themes, which means between 25% and 50% of revenues.

Source: Liontrust / Facstet as at 30 June 2022

Alignment with UN Sustainable Development Goals (SDGs)

All of the Sustainable investment themes are linked to SDGs and the underlying Key Performance Indicator they relate to have been identified in the SDG text.

A more detailed discussion on impact and how the Sustainable investment themes are aligned with the SDGs is available in the SF Annual Review 2021 on pages 27-33 (www.liontrust.co.uk/fund-managers/sustainable-investment/sustainable-documents).

The fund has most exposure to SDG 8: Decent work and economic growth (36.5%); SDG 9: Industry, innovation and infrastructure (17.8%); and SDG 11: Sustainable cities and communities (12.1%).

Whilst our methodology is to assign what we believe to be the most prevalent SDG or the SDG that the company has the most impact on, we believe that the companies we have exposure to can have an impact on multiple SDGs.

For example, many holdings in the Banking industry come under SDG 8: Decent work and economic growth as we believe that through the banks lending practices they facilitate economic growth. However, given several of the banks we own have exposure to retail (mortgage), they could therefore be classified or have positive impact on SDG 11: Sustainable cities and communities.

The fund has exposure to nine of the 17 UN SDGs.

Sustainable investment themes mapped to UN Sustainable Development Goals (% of fund exposure)

www.un.org/sustainabledevelopment

Assessment of how sustainable companies are: Sustainability Matrix Rating

We assess every company using our proprietary Sustainability Matrix Rating, which measures how sustainable its products and services are as well as how well they manage the material environmental, social and governance (ESG) matters related to their business.

The weighted average Sustainability Matrix rating for the fund is B2 (marked in red in the figure below). This shows the fund is invested in companies whose products and services are more sustainable and whose management of ESG aspects of their business is better than the market it invests in. There are no companies in the fund which are rated in the ineligible grey area of the Sustainability matrix.

Source: Liontrust / Factset, 30 June 2022

Climate change: portfolio data on carbon, solutions and fossil fuels

Carbon emissions of fund compared to conventional benchmark

We can see from the chart below that the investments in the fund emit 63.7% less carbon (tCO₂e) than the market it invests in. This independent analysis includes direct emissions forming scope 1 and scope 2 emissions only*.

Source: MSCI Carbon Analytics and Liontrust 30 June 2022. The iBoxx Sterling Corporates Index is one of two comparator benchmarks for this fund. Carbon emissions data available for 87.5% of the fund and 96.0% of the benchmark. *Scope 1 emissions are direct greenhouse (GHG) emissions that occur from sources controlled or owned by an organisation (associated with fuel combustion in boilers, furnaces, vehicles and so on). Scope 2 emissions are indirect GHG emissions associated with the purchase of electricity, steam, heat, or cooling. Scope 3 (all indirect emissions, not included in scope 2, that occur in the value chain of the reporting company) is important but not currently available in a consistent data set with enough coverage to be included in this independent analysis.

Companies offering clean technology solutions

This analysis shows that the fund holds 22% of companies that MSCI has determined are providing clean technology solutions.

Owing to the nature of the fixed income asset class, many investments are to more developed stable companies. Therefore, it is difficult to obtain material exposure to companies overly exposed to cleantech. Usually our exposure to cleantech solutions will be as a result of investment within a larger more developed utility.

	Carbon Footprint (tCO ₂ e / \$m invested)	Carbon Intensity (tCO ₂ e/\$m sales)	Weighted Average Carbon Intensity (tCO ₂ e/\$m sales)	Carbon Emissions Data Availability (Market value)
Liontrust SF Corporate Bond Fund	36.4	32.1	87.5	87.5%
Benchmark	100.4	95.1	111.3	96.0%
Fund relative to benchmark	-63.7%	-66.2%	-21.4%	-8.9%

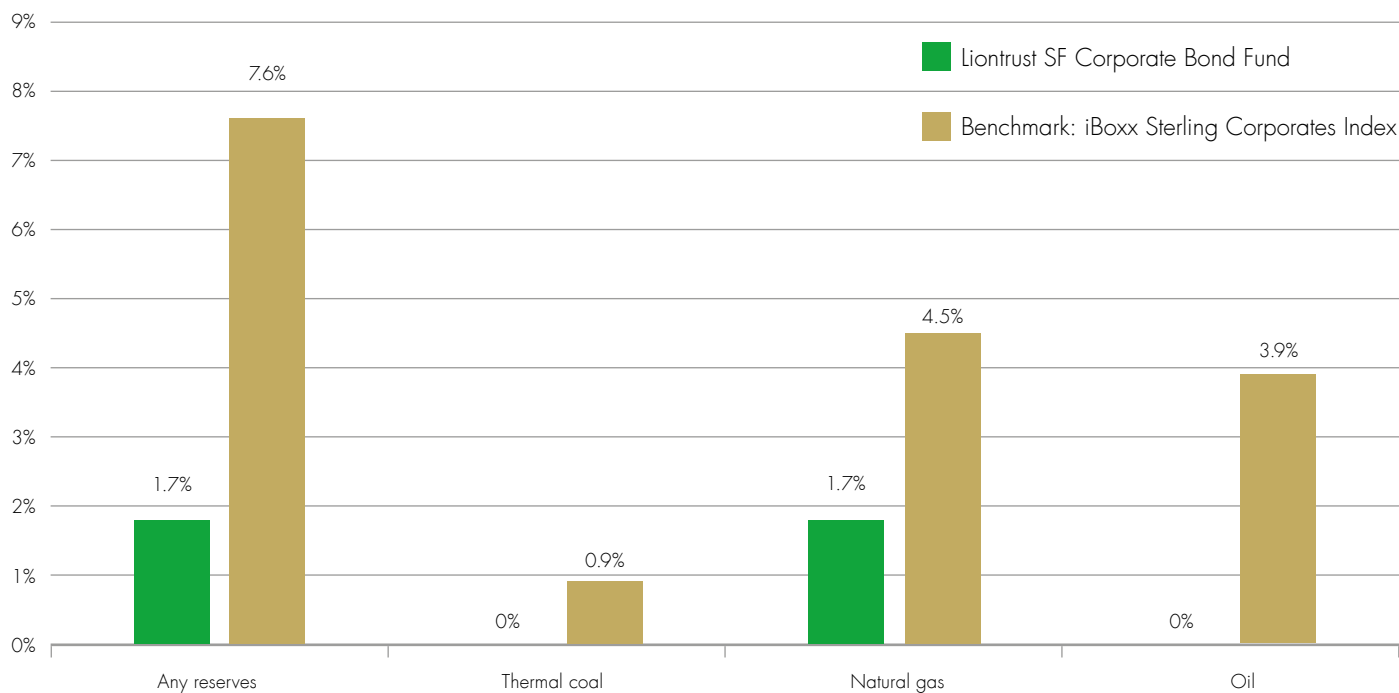

Source: MSCI Carbon Analytics as at 30 June 2022. At the issuer level, Carbon Intensity is the ratio of annual scope 1 and 2 carbon emissions to annual revenue.

Weight of holdings owning fossil fuels

Weight of companies owning fossil fuel reserves

This analysis shows the fund holds one company, SSE Plc, that has some natural gas reserves. The fund holds no companies with thermal coal or oil reserves. SSE is a big investor in renewable energy, and also has a very small legacy oil and gas business.

The latter is well below the threshold we deem significant enough (5% of group sales) to exclude a company because it extracts or produces fossil fuels (natural gas, coal or oil).

Source: MSCI Carbon Analytics and Liontrust 30 June 2022. The iBoxx Sterling Corporates Index is one of two comparator benchmarks for this fund. Carbon emissions data is available for 87.5% of the fund and 96.0% of the benchmark and our exposure in the chart above should be seen in that context.

The chart below puts things in context: SSE's reserves are materially less than 3% of its business. It is also in the process of selling down the part of the business with exposure to the fossil fuel reserves.

Potential emissions from fossil fuel reserves

Tons CO₂e

Source: MSCI Carbon Analytics and Liontrust 30 June 2022. The iBoxx Sterling Corporates Index is one of two comparator benchmarks for this fund.

All Fund holdings

Alphabetical list showing all holdings in the fund along with their sector, our Sustainability Matrix Rating and Sustainable investment theme.

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
3i Group Plc	Financials	C1	Increasing Financial Resilience	3i is a private equity company that invests predominantly in retail, infrastructure, healthcare, technology and industrial. They have strong responsible investment policies and firm exclusion on no-go areas.
Anglian Water (Osprey) Financing Plc	Financials	A2	Improving Management Of Water	Anglian Water is the 4th largest of the 10 water and sewerage companies in England & Wales by regulatory capital value. It provides water and wastewater services to around 6.3m customers in the south east of England. Anglian water invests significant amounts of capital expenditure to maintain and improve its network infrastructure, reducing the risk of leakage from the network, which is vitally important given the impact of climate change.
Annington Funding Plc	Financials	A3	Building Better Cities	Annington is one of the UK's largest private residential landlords, with more than 40,000 homes across the country. The company is holding to address the UK's housing crisis through the provision of affordable housing at a significant discount to market rents, whilst also refurbishing and redeveloping around 500 properties per annum for sale or rent at competitive prices to help make home buying a more realistic option for a larger proportion of the population. Having access to shelter is one of the most basic human needs alongside food and clothing, with companies that provide high quality affordable housing therefore part of a sustainable society.
Aroundtown SA	Financials	C3	Portfolio Construction/ Diversification	Aroundtown is the third largest listed real estate company in Europe, with a well diversified property portfolio predominantly focussed on commercial property including offices, hotels and logistics space, whilst also having some residential exposure through its sizeable holding in Grand City Properties. It invests in existing mid-life-cycle assets which have often been neglected, adding value through operational and redevelopment activities, these include sustainability initiatives to improve the environmental footprint of its portfolio. Whilst its residential offering provides access to shelter, one of the most basic human needs alongside food and clothing, with companies that provide high quality affordable housing therefore part of a sustainable society.

All Fund holdings

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
AT&T Inc.	Communication Services	B3	Connecting People	AT&T engages in the provision of telecommunications, media and technology services, primarily to consumers and businesses in the US, whilst its Latin America arm provides entertainment and wireless as well. It also operates Warner Media which produces and distributes films, television and gaming. The company is currently in the process of refocussing its primarily on communications services, which play a pivotal role in the transition to digital infrastructure, promoting digital inclusion and reducing the digital divide across underserved segments of the population, improving quality of life for people in developed and emerging countries, enabling other sectors of the economy to function effectively (e.g. healthcare, education etc.) and helping customers reduce their emissions and stay connected.
Aviva Plc	Financials	B1	Insuring A Sustainable Economy	Aviva PLC is an international insurance company that provides all classes of general and life assurance, including fire, motor, marine, aviation, and transport insurance. The Company also supplies a variety of financial services, including unit trusts, stockbroking, long-term savings, and fund management. Contributing to a sustainable economy through the reduction of risk and the mitigation of financial impact for the policy holder, thereby producing a safety net for people and business in times of catastrophe. Also contributing to a sustainable economy through the adoption of more responsible investment policies and assisting people save for their future.
AXA SA	Financials	B1	Insuring A Sustainable Economy	AXA is an insurance company focusing on the key areas of health, property and casualty insurance. Its main operations are in Europe. It is reducing its exposure to financial markets in favour of purer insurance products. Its stated purpose is 'to act for human progress by protecting what matters'.
Banco Santander, S.A.	Financials	B3	Increasing Financial Resilience	Banco Santander S.A. attracts deposits and offers retail, commercial and private banking, and asset management services, offering consumer credit, mortgage loans, lease financing, factoring, mutual funds, pension funds, insurance, commercial credit and investment banking services. The group's financial resilience is supported by its geographical diversification (Spain / UK / US / LATAM), along with flexibility to allocate capital throughout its subsidiaries. It is also aligned with our building better cities theme as circa 40% of group revenues are generated from residential mortgages.

Source: Liontrust / Factset, 30 June 2022

All Fund holdings

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
Banque Nationale de Paris SA	Financials	B2	Increasing Financial Resilience	BNP Paribas SA attracts deposits and offers commercial, retail, investment, and private and corporate banking services. The Bank also provides asset management and investment advisory services to institutions and individuals in Europe, the United States, Asia, and the emerging markets. Well diversified financial institution by product, with over 60% of revenues being generated from higher rated revenue streams, i.e. retail banking, SME lending and insurance. ESG is fully integrated throughout all of their business units as they believe that this will result in better lending and hence higher returns over the long term.
Blackstone Property Partners Europe Holdings SARL	Financials	C3	Portfolio Construction/ Diversification	Blackstone Property Partners Europe is an open-ended private equity fund focussed on "core plus" real estate investments, with its €13.3 million portfolio predominantly focussed on logistics assets, as well as the office and residential segments across 14 countries. Logistics real estate landlords play an increasingly pivotal role in global supply chains, particularly given the recent acceleration in the shift to e-commerce which requires 3 times more warehouse and logistics space than traditional brick-and-mortar business models, hence improving the sustainability credentials of these properties is becoming increasingly important. A 2021 study revealed that online shopping and home delivery from urban & core fulfilment centres holds substantial environmental advantages over traditional brick-and-mortar retail including: 36% fewer overall GHG emissions, 50% fewer transport-related emissions, and a 10% reduction in carbon footprint per package.
bLEND Funding PLC	Financials	A3	Building Better Cities	The Housing Finance Corporation (THFC). Throughout its history THFC has demonstrated its commitment to the social purpose of housing associations by innovating new products to achieve the best possible terms of funding, allowing its 160+ HA borrowers to grow and meet the demand for affordable housing. As a not-for-profit, the Group's surpluses are retained and reinvested to ensure THFC can continue to provide competitively priced funding for HAs long into the future. BLEND Funding Plc and Affordable Housing Finance Plc are both wholly own subsidiaries of THFC and are issuing entities in their own right.

BNP Paribas S.A.	Financials	B2	Increasing Financial Resilience	BNP Paribas SA attracts deposits and offers commercial, retail, investment, and private and corporate banking services. The Bank also provides asset management and investment advisory services to institutions and individuals in Europe, the United States, Asia, and the emerging markets. Well diversified financial institution by product, with over 60% of revenues being generated from higher rated revenue streams, i.e. retail banking, SME lending and insurance. ESG is fully integrated throughout all of their business units as they believe that this will result in better lending and hence higher returns over the long term.
Bunzl Finance Plc	Financials	C3	Portfolio Construction/ Diversification	BUNZL provides outsourcing and distribution/logistics solutions, essentially acting as a "one-stop-shop" supplier for non-food consumables, sourcing and procuring products, consolidating/storing in their warehouses before delivering to customers. Road logistics providers are broadly neutral to sustainable development, given their negative environmental externalities, which are balanced against global economic and societal models demanding transport/delivery of goods throughout the world, with road transport carrying over 70% by volume and more than 90% by value of global goods, supporting global economic development.
Cadent Finance Plc	Utilities	C2	Improving The Efficiency Of Energy Use	Cadent Finance Plc engages in provision of natural gas distribution services. Cadent Gas Ltd (formally National Grid Gas Distribution having fully divested from the business in 2019) is the largest regulated gas distributor in the UK, owning four of the eight regulated gas distribution networks (North West England, West Midlands, East of England and North London). Cadent are responsible for the safe and efficient transportation of gas to the customer through pipelines and equipment. They own and operate >131,000km of lower-pressure gas mains with a RAV of £10.2bn, serving almost 50% of the UK's gas customers, 11m homes and businesses.
Canary Wharf Group Investment Holdings plc	Financials	C2	Building Better Cities	Canary Wharf Group is the owner and operator of London's largest REIT portfolio, which is predominantly comprised of office space, owning around 45% of the Canary Wharf Estate as well as most of the development potential. They are the largest sustainable developer in the UK, having developed more than 11 million square feet of sustainable certified buildings. The company manages its key ESG exposures very well compared to peers, and plays a key role in modernising and improving the environmental footprint of London's office market.

All Fund holdings

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
Cellnex Finance Co. SA	Financials	B3	Connecting People	Cellnex is a leader in telco and broadcasting infrastructure in Europe and enables MNOs to use its infrastructure rather than have its own footprint of passive infrastructure, which can free up MNO balance sheets and increase investment in active investments. 5G will further boost network capacity and density, necessary for the continued exponential growth in data and our reliance on the digital economy.
Clarion Funding PLC	Financials	A1	Building Better Cities	The mission of Clarion Housing Group is to provide good quality, affordable homes and neighbourhoods to people failed by the market. With 125,000 properties and more than 350,000 residents, they are the largest housing association in the country. They are a developer as well as a landlord - building thousands of affordable homes every year and invest in residents and their communities through Clarion Futures and their charitable foundation.
Cooperatieve Rabobank UA	Financials	B1	Increasing Financial Resilience	Cooperatieve Rabobank U.A. operates as a bank, offering personal, wholesale, international, and retail banking services. Cooperatieve Rabobank has historical ties to the food and agriculture sectors, accounting for circa 50% of corporate lending. The organisation has a stated mission of making a significant contribution to welfare and prosperity in the Netherlands as well as aiming to make a substantial contribution to feeding the world sustainably. Moreover, the majority of their corporate lending is to SME, consistent with aim of supporting economic growth in the Netherlands.
CPUK Finance Ltd.	Financials	B1	Encouraging Sustainable Leisure	Center Parcs (UK) Group Ltd is a leading short break holiday business in the UK and Ireland, operating through six holidays villages (Sherwood Forest in Nottinghamshire; Elveden Forest in Suffolk; Longleat Forest in Wiltshire; Whinfell Forest in Cumbria; Woburn Forest in Bedfordshire; and Longford Forest in County Longford, Ireland). The concept of Center Parcs is to bring families / friends together in a relaxed holiday environment at their UK villages. This has a positive impact due to the reduction in carbon footprint of holidaying domestically as opposed to abroad. CP has successfully reduced its CO2 emission target in 2020 and expects to reduce their emissions by a further 30% through their anaerobic digestion power plant and increasing their electric vehicle fleet.

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
Deutsche Telekom International Finance BV	Financials	B3	Connecting People	DT is the German incumbent telecommunications operator, providing services in Germany, the United States and Europe through its fixed and mobile networks for both consumers and businesses. The company plays a pivotal role in the transition to digital infrastructure, with the leading fiber optic network in nearly all of its markets, which forms a critical part of a sustainable economy through promoting digital inclusion and reducing the digital divide across underserved segments of the population, improving quality of life for people in developed and emerging countries, enabling other sectors of the economy to function effectively (e.g. healthcare, education etc.) and helping customers reduce their emissions and stay connected.
Direct Line Insurance Group Plc	Financials	B2	Insuring A Sustainable Economy	Direct Line Insurance Group plc provides personal and commercial insurance and services. The Company offers a range of insurance products including automobile, home, travel, pet, property, and accident insurance. Direct Line Insurance serves private customers and business clients online and by phone throughout the United Kingdom, Germany, and Italy. Contributing to a sustainable economy through the reduction of risk and the mitigation of financial impact for the policy holder, thereby producing a safety net for people and business in times of catastrophe. Also contributing to a sustainable economy through the adoption of more responsible investment policies.
Dwr Cymru (Financing) Ltd.	Financials	A1	Improving Management Of Water	Welsh Water is the 6th largest water and sewerage company in England & Wales, providing high quality drinking water and environmental services to 3.1m customers and 110,000 business customers. Welsh Water invests significant amounts of capital expenditure to maintain and improve its network infrastructure, reducing the risk of leakage from the network, which is vitally important given the impact of climate change. Their 2020-25 business plan involves incurring £2.5bn of capital investment in its network. They collect , treat and safely return wastewater to rivers and seas, protecting public health and the environment.
DWR CYMRU (Financing) UK Plc	Financials	A1	Improving Management Of Water	Welsh Water is the 6th largest water and sewerage company in England & Wales, providing high quality drinking water and environmental services to 3.1m customers and 110,000 business customers. Welsh Water invests significant amounts of capital expenditure to maintain and improve its network infrastructure, reducing the risk of leakage from the network, which is vitally important given the impact of climate change. Their 2020-25 business plan involves incurring £2.5bn of capital investment in its network. Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
Greater Gabbard OFTO Plc	Financials	A2	Increasing Electricity From Renewable Sources	Greater Gabbard's principal activity is to provide electricity transmission services that connect the offshore windfarm to the UK's onshore National Grid through, with the windfarm's 140 turbines powering around 500,000 homes each year. The company is a key contributor to a more sustainable economy, given its pivotal role in increasing the proportion of electricity generated from renewable sources.
GSK Consumer Healthcare	Health Care	B2	Providing Affordable Healthcare	GlaxoSmithKline is a large UK pharmaceutical conglomerate. It manufactures and markets branded pharmaceutical and vaccine therapeutics. It also has a Consumer Healthcare business, which is readying for a spin off in 2022.
GSK Consumer Healthcare Capital US LLC	Health Care	B2	Providing Affordable Healthcare	GlaxoSmithKline is a large UK pharmaceutical conglomerate. It manufactures and markets branded pharmaceutical and vaccine therapeutics. It also has a Consumer Healthcare business, which is readying for a spin off in 2022.
HSBC Holdings Plc	Financials	C1	Increasing Financial Resilience	HSBC is a global bank that provides a variety of international banking and financial services, including retail and corporate banking, trade, trusteeship, securities, custody, capital markets, treasury, private and investment banking, and insurance. Its diverse business model and high levels of capital and liquidity make this one of most financially resilient banks in the UK. In addition to supported global economic growth through SME lending, HSBC is committed to supporting the transition to a lower carbon economy through market leading levels of sustainable finance/lending.
Infrastrutture Wireless Italiane SpA	Communication Services	B3	Connecting People	INWIT is Italy's leading towers operator, providing passive infrastructure transmission equipment for telecommunications operators. It invests in new technologies to improve network coverage and density, in order to meet the greater capacity requirements from rising demand for mobile data services and ensure stable and reliable connections. The company plays a crucial role in accelerating the transition towards digital infrastructure, which forms a critical part of a sustainable economy through promoting digital inclusion and reducing the digital divide across underserved segments of the population, improving quality of life for people in developed and emerging countries, enabling other sectors of the economy to function effectively (e.g. healthcare, education etc.) and helping customers reduce their emissions and stay connected.
Investec Plc	Financials	B3	Increasing Financial Resilience	Investec plc is an international specialist bank and asset manager, provides corporate and investment banking, private banking, securities trading, asset management, property trading and management and trade finance services. Investec has significant exposures to the segments of financial services that we deem to be positive, namely SME/mortgage lending and asset & wealth management. Moreover, Investec are considered market leaders in their approach to integrating ESG, both through their exclusionary policies but also through its strong commitment to lend to green projects.

All Fund holdings

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
Legal & General Group Plc	Financials	B2	Saving For The Future	Legal and General manages capital and associated risks in order to provide customers with pension income and long term savings. It benefits from the rise in defined contribution pensions and the de-risking of workplace institutional pensions. They are a beneficiary of the Saving for the Future theme, helping individuals to provide for their retirement in an efficient and cost effective way. As a major investor it is encouraging to see their commitment to align their assets with Paris Objectives on decarbonisation. In addition we welcome their direct investment in social housing, EV charging infrastructure and renewable energy projects. It is sensitive to underlying economic conditions, but we believe it is undervalued and has strong long term prospects.
Liberty Living Finance Plc	Financials	A2	Providing Education	Unite is the UK's largest owner, manager and developer of affordable, safe and secure student accommodation, providing beds for over 76,000 students with a develop pipeline to 2023 aiming to add an additional 4,000 beds to its portfolio. Through the provision of affordable accommodation they are enabling the provision of higher education, which in turn drives greater levels of socioeconomic mobility as well as fostering research & development and innovation. Furthermore the company also supports numerous initiatives to support underprivileged students to attain higher education via free accommodation scholarships.
Lloyds Banking Group Plc	Financials	B1	Increasing Financial Resilience	Lloyds Banking Group plc, through subsidiaries and associated companies, offers a range of banking and financial services in the UK, including mortgages, pensions, asset management, insurance services, corporate banking, and treasury services. As well as being the leading lender to SME/ start-ups in the UK that is a key driver of long term economic growth, Lloyds also is one of the largest mortgage providers in the UK thus enabling home ownership. It has developed a strong commitment to carbon reduction, both within the bank and its loan book, targeting to cut emissions within its loan book by 50% by 2030.
London & Quadrant Housing Trust Ltd.	Financials	A3	Building Better Cities	London & Quadrant Housing Trust provides housing facilities. The Company offers affordable homes, moving home, rent, supported housing, advice, repairs, and maintenance services. London & Quadrant Housing Trust serves customers in the United Kingdom.

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
Midland Bank Plc	Financials	C1	Increasing Financial Resilience	HSBC is a global bank that provides a variety of international banking and financial services, including retail and corporate banking, trade, trusteeship, securities, custody, capital markets, treasury, private and investment banking, and insurance. It's diverse business model and high levels of capital and liquidity make this one of most financially resilient banks in the UK. In addition to supported global economic growth through SME lending, HSBC is committed to supporting the transition to a lower carbon economy through market leading levels of sustainable finance/lending.
Motability Operations Group Plc	Financials	B3	Enabling Healthier Lifestyles	Motability Operations Group PLC provides transit services. The Company provides finance for the acquisition of vehicles under hire purchase agreement for disabled people.
MPT Operating Partnership, L.P.	Financials	B4	Building Better Cities	Medical Properties Trust is the second-largest owner of hospital beds in the US, owning and managing a portfolio of hospitals, rehabilitation, surgical and other medical facilities, providing over 46,000 licensed beds. It provides pivotal infrastructure for the provision of healthcare, particularly in the context of aging population demographics. On average, people ages 65-74 spending four times the number of days in hospitals as the under-65 population, whilst every single day in the U.S. alone, 10,000 people turn 65. It follows that those ages 75-84 and 85-plus use hospitals 6.4 times and 8.7 times the rate of under 65s.
National Express Group Plc	Industrials	A1	Making Transportation More Efficient Or Safer	The company operates bus, coach and rail services, with an exceptional record on safety and progressive on environmental improvements. It helps to make cities less congested and air cleaner.
National Grid Gas Plc	Utilities	B2	Improving The Efficiency Of Energy Use	National Grid engages in the transmission and distribution of electricity and gas to millions of customers and communities. As operator of the UK electricity grid, it plays an important role in investing to upgrade the grid to be fit for the energy transition towards an ultra-low carbon economy by enabling more renewables as well as upgrading infrastructure for electric vehicle charging points and heat pumps.
NatWest Group Plc	Financials	B2	Increasing Financial Resilience	Natwest is a UK focused bank that operates both retail and commercial operations, providing consumer loans, asset and invoice finances, commercial and residential mortgages, credit cards, and financial planning services, as well as life insurance. Natwest's corporate lending is focused on the areas that we view as being most beneficial to sustained economic growth, namely SME lending, leasing and factoring and traditional retail banking. They aim to to reduce carbon within their corporate loan book by at least 50% by 2030.

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
Telefonica Europe BV	Financials	B3	Connecting People	Telefonica is the Spanish incumbent telecommunications operator, however has a broader global footprint with over 345 million customers worldwide, across Spain, Hispanoamerica, Germany, Brazil and the UK. It's presence in emerging markets provides crucial digital infrastructure in countries where reliable physical infrastructure is absent, enabling economic growth and reducing the digital divide. The company plays a pivotal role in the transition to digital infrastructure, with the leading fibre optic network in nearly all of its markets, which forms a critical part of a sustainable economy through promoting digital inclusion and reducing the digital divide across underserved segments of the population, improving quality of life for people in developed and emerging countries, enabling other sectors of the economy to function effectively (e.g. healthcare, education etc.) and helping customers reduce their emissions and stay connected.
Thames Water Utilities Finance Plc	Financials	A2	Improving Management Of Water	Thames Water is the largest water and sewerage companies in England and Wales by both RCV and number of customers served. It provides drinking water to around 9m customers and sewerage services to around 15m customers. It engages in research on water and wastewater treatment is focused on providing sustainable and practical solutions to achieve water quality. It also develops technology to manage and maintain its water distribution and sewerage networks. Thames Water invests significant amounts of capital expenditure to maintain and improve its network infrastructure, reducing the risk of leakage from the network, which is vitally important given the impact of climate change.
Travis Perkins Plc	Consumer Discretionary	C2	Building Better Cities	Travis Perkins is the UK's largest building products supplier. 846 branches across Travis P, Benchmark, Keyline, CCF, and BSS; It also owns Toolstation (Argos of building equipment) focused on smaller and DIY customers (540 branches and expanding fast). It has recently demerged Wickes and will dispose of its plumbing and heating in a strategy of returning to its core offering. Strong on its responsible sourcing policies 97% of timber certified as responsibly sourced and CDP B rated - we expect further progress on climate targets to be announced this year, which could lead to an upgrade to a 1. Our investment thesis is based on the strong long term demand for refurbishing the thermally inefficient building stock in the UK. This will lead to higher demand for building products (insulation and all that goes with it) as the UK decarbonises its built environment.

Other third party ESG measures

We are often asked to provide data on how our Sustainable Future funds are ranked by third party ESG data providers.

When the portfolio is independently analysed by MSCI, we can see the ESG scoring matches the iBoxx Sterling Corporates benchmark with an AA rating but when we decompose the portfolio score into its constituent E, S and G scores, the fund outperforms on all fronts.

ESG risk exposure

ESG quality scorecard

	Portfolio	Benchmark	Active
ESG Quality Score (0–10)	9.5	9.2	3.3%
Environmental Score	7.3	7.3	0.4%
Social Score	5.3	5.0	6.2%
Governance Score	6.6	6.1	8.9%

MSCI rating distribution

Below is the rating breakout of the fund. We can see that the fund has a significantly higher weight towards higher-rated companies and is underweight the lower-rated companies.

Source: Liontrust / Factset, 30 June 2022. The iBoxx Sterling Corporates Index is one of two comparator benchmarks for this fund.

Other third party ESG measures

As can be seen from the data below, the fund scores very well across a broad range of criteria:

Environmental risk

	Portfolio	Benchmark	Active
Carbon risk (T CO2E/\$M SALES)	88	111	-21.3%
Fossil fuel reserves (%)	1.7%	7.6%	-5.9%
High impact fossil fuel reserves (%)	0.0%	3.1%	-3.1%
Exposure to high water risk (%)	1.6%	3.9%	2.3%

Reputational risk

Very severe controversy exposure

	Portfolio	Benchmark	Active
Overall reputation risk	0.0%	2.8%	-2.8%
Environmental (%)	0.0%	0.6%	-0.6%
Customer (%)	0.0%	0.0%	0.0%
Human rights (%)	0.0%	0.5%	-0.5%
Labor (%)	0.0%	0.0%	0.0%
Governance (%)	0.0%	1.6%	-1.6%

Reputational risk represents the percentage of a portfolio's market value coming from holdings involved in very severe controversial events. It is based on MSCI ESG Controversies. Portfolio level Reputational risk is categorised as Very Low (0%), Low (>0% to <1%), Moderate (1% to <5%), High (5% to <10%), and Very High (>=10%).

Governance risk

	Portfolio	Benchmark	Active
Governance leaders (%)	56.0%	50.6%	5.4%
Governance laggards (%)	1.7%	7.3%	-5.7%
Board flag (%)	5.8%	9.5%	-3.7%
Lack of independent board (%)	3.1%	3.0%	0.1%
No female directors (%)	1.0%	1.6%	-0.6%
Female rep. 30% of directors (%)	76.3%	76.3%	-0.1%
Accounting flag (%)	5.5%	16.7%	-11.2%
Pay flag (%)	0.0%	1.7%	-1.7%
Ownership and control flag (%)	0.0%	9.7%	-9.7%

Governance risk: global percentile

Laggards: 5.6% less than the benchmark
 Leaders: 5.4% greater than the benchmark

Source: Liontrust / Factset, 30 June 2022. The iBoxx Sterling Corporates Index is one of two comparator benchmarks for this fund.

Additional ESG metrics

We have committed to disclose additional ESG data for investors in the SF Funds. The following data relating to social, governance and human rights metrics has been requested by investors or sustainability labels. We have engagement and voting policies designed to improve the social, governance, environmental and human rights aspects for the companies in which the fund invests.

Data availability is improving. For example, in the case of staff turnover, where data availability was as low as 20-25% when we first started disclosing this in 2019, it has now nearly doubled. Our engagement priority is to encourage companies to participate in the Workforce Disclosure Initiative, which aims to target companies to report more information on how they manage staff and we believe is contributing to this increased disclosure on social metrics.

For human rights, we use data on the United Nations Global Compact as a proxy. The UN Global Compact is a set of principles to minimise unintended negative impacts in terms of harm to the environment and society and includes a significant amount relating to labour rights and human rights.

We have committed to disclose additional data related to the sustainability aspects of the fund, which we will disclose as part of our reporting cycle every six months.
