Liontrust Multi Asset Monthly High Income Fund is a sub-fund of the Liontrust Multi-Asset Investments ICVC II and categorised as a UCITS scheme. This document is based upon the S Acc class (ISIN: GB00BCZW5S72). This Fund is managed by Liontrust Fund Partners LLP, a subsidiary of Liontrust Asset Management PLC.

## Objective

- The Fund seeks to generate a monthly income.

## Policy

- The Fund is an actively managed fund of funds.
- The Fund invests at least 70% of its assets in other funds (underlying funds) including funds which are traded on stock exchanges (investment trusts and exchange traded funds), other closed-ended funds and funds which are managed by the ACD or its associates.
- The underlying funds will primarily (meaning at least 70%) invest in debt instruments (bonds) issued by companies, governments and other institutions, and debt instruments which can easily be converted into cash (money market instruments).
- The Fund may also invest directly or indirectly (through underlying funds) in a range of asset classes and financial instruments such as shares, bonds including money market instruments, freely transferable rights to buy other investments at a future date (warrants), financial contracts that derive their values from those of other investment instruments or indices (derivatives) and deposits.
- The Fund may also obtain indirect exposure to property through investment in Real Estate Investment Trusts (REITs) and shares in property investment companies.
- When investing directly in debt instruments, the Fund will favour investment grade securities (that is, securities with a credit rating of at least BBB- as rated by Standard and Poors, or Baa3 as rated by Moody's), but the Fund may also invest in non-investment grade securities.
- When required to manage liquidity, or the Fund's risk, the Fund may hold its assets in cash or deposits and money market instruments.
- The Fund may use derivatives to help achieve the investment objective (investment purposes) as well as to reduce risk or to manage the Fund more efficiently (often referred to as "efficient portfolio management").

## Recommendation

- This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

## How to buy

- You may buy or sell shares on a daily basis (but not weekends or Bank Holidays). Orders must be received by 12:00 noon for execution at 8:00am valuation on the following day. Further details can be found at [www.liontrust.co.uk](http://www.liontrust.co.uk).

## Investment process

- The purpose of the portfolio construction is to take a fairly abstract concept in the form of a TAA and to express it in an investable form for each strategy that the Multi-Asset team manages. The portfolio construction takes account of the output from the TAA as well as the input from the manager selection process. The portfolio construction consists of four steps: factor selection, active and passive, set targets, and risk checks.
- Manager selection consist of universe filtering, quantitative and qualitative research, operational due diligence, and security set up.
- The implementation seeks to ensure the Multi-Asset team implements in a manner that treats customers fairly, finds an optimal balance between trading and portfolio turnover, and ensures the implemented holdings reflect the Liontrust Multi-Asset team's views generated through the investment process. While the Liontrust Multi-Asset team takes its fiduciary duty to investors extremely seriously, they also ensure there are effective checks and balances internally.

## Risk and reward profile

- This Synthetic Risk and Reward Indicator (SRRRI) is based on historical data and may not be relied upon to gauge the future risk profile of the Fund.
- The SRRRI shown is not guaranteed to remain the same and may shift over time.
- The lowest category (1) does not mean 'risk free'.
- The Fund's risk and reward category has been calculated using the methodology set by the European Commission. It is based upon the rate by which the Fund or a representative fund or index's value has moved up and down in the past.
- The Fund is an actively managed fund of funds and invests in other funds (underlying funds) including funds which are traded on stock exchanges (investment trusts and exchange traded funds), other closed-ended funds and funds which are managed by Liontrust or its associates. The underlying funds invest in investment grade bonds issued by companies, governments and other institutions, and which can easily be converted into cash (money market instruments). The Fund may also invest in non-investment grade securities.
- The fund's investment objectives include a target of delivering income to investors. There may be times when those funds that pay out higher levels of dividend underperform the market as a whole, or produce more volatile returns. The level of income is not guaranteed.
- The Fund is categorised 4 primarily for its balanced exposure to higher and lower risk assets.
- The SRRRI may not fully take into account the following risks:
  - Credit Risk: There is a risk that an investment will fail to make required payments and this may reduce the income paid to the fund, or its capital value;
  - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss;
  - Liquidity Risk: If underlying funds suspend or defer the payment of redemption proceeds, the Fund's ability to meet redemption requests may also be affected;
  - Interest Rate Risk: Fluctuations in interest rates may affect the value of the Fund and your investment;
  - Derivatives Risk: Some of the underlying funds may invest in derivatives, which can, in some circumstances, create wider fluctuations in their prices over time;
  - Emerging Markets: The Fund may invest in less economically developed markets (emerging markets) which can involve greater risks than well developed economies;
  - Currency Risk: The Fund invests in overseas markets and the value of the Fund may fall or rise as a result of changes in exchange rates.
- For full details of the Fund's risks, please see the prospectus which may be obtained from Liontrust (address overleaf) or online at [www.liontrust.co.uk](http://www.liontrust.co.uk).
