### What is this Product?

This document is based upon the A1 EUR Accumulating share class (ISIN: IE00BYWSTD52), which is the representative PRIIPs KID class for all share classes of this Fund. For more information on all other share classes, please visit [www.liontrust.eu](http://www.liontrust.eu).

#### Type

The Class is a share class of the Fund which is a sub-fund of the Company, an open ended umbrella type investment company with variable capital incorporated with limited liability under the laws of Ireland, registered number 459084, authorised in Ireland as an investment company pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 as amended. The Company has appointed The Bank of New York Mellon SA/NV, Dublin Branch, to act as the depositary of the Company's assets pursuant to the Depositary Agreement. The most up-to-date Net Asset Value per Share of each Fund is published daily following calculation on the following internet website: [www.liontrust.eu](http://www.liontrust.eu) and shall be kept up to date. The Prospectus for the Company and the periodic reports are prepared for the entire Company. Subject to conditions set down in the Prospectus, investors may switch their shares of a class of a particular Fund into shares of another class of the same Fund or of another Fund, subject to the switching terms outlined under "SUBSCRIPTIONS, REDEMPTIONS AND SWITCHING" in the Prospectus and the Supplement for the relevant Fund.

#### Term

This investment has no fixed maturity date.

#### Objectives

The Fund aims to maximise total returns (a combination of income and capital growth) over the long term (five years or more) through investment in sustainable securities, primarily consisting of European investment grade fixed income securities. The Fund may also invest in other eligible asset classes to ascribed levels; credit instruments, collective investment schemes, alternative investment funds, money market instruments and derivatives as detailed within the prospectus. All investments will be expected to conform to our social and environmental criteria. Overseas investments may carry a higher currency risk. They are valued by reference to their local currency which may move up or down when compared to the currency of the Fund. Bonds are affected by changes in interest rates and their value and the income they generate can rise or fall as a result; The creditworthiness of a bond issuer may also affect that bond's value. Bonds that produce a higher level of income usually also carry greater risk as such bond issuers (high yield) may have difficulty in paying their debts. The value of a bond would be significantly affected if the issuer either refused to pay or was unable to pay. The Fund can invest in derivatives. Derivatives are used to protect against currency, credit or interest rate moves or for investment purposes. There is a risk that losses could be made on derivative positions or that the counterparties could fail to complete on transactions. The Fund uses derivative instruments that may result in higher cash levels. Cash may be deposited with several credit counterparties (e.g. international banks) or in short-dated bonds. A credit risk arises should one or more of these counterparties be unable to return the deposited cash. The Fund's volatility limits are calculated using the Value at Risk (VaR) methodology. In high interest rate environments the Fund's implied volatility limits may rise resulting in a higher risk indicator score. The higher score does not necessarily mean the Fund is more risky and is potentially a result of overall market conditions. There is no guarantee that a total return will be generated over any time period.

#### Dealing Frequency:

Shares in the Fund can be bought and sold, either in whole or in part, every business day. An application must be submitted to the administrator, BNY MELLON FUND SERVICES (IRELAND) LIMITED, by 11.59am (Dublin time) on the business day of the purchase or sale. Further details on the conditions associated with the redemption of shares is included under the section "How long should I hold it and can I take money out early?". Details on the conditions associated with the Compulsory Redemptions can be found in the Prospectus under the heading "Mandatory Redemptions"

#### Intended retail investor

The Fund is considered to be suitable for investors seeking long-term capital growth over a medium to long term investment horizon (at least 5 years) and who understand and are prepared to accept the risks and a medium to medium/high level of volatility, particularly given the Fund's equity investment.

### What are the risks and what could I get in return?

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level and poor market conditions are unlikely to impact our capacity to pay you.

The risk indicator assumes you keep the product for a minimum of 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

**Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

Please note that even the lowest risk class can lose you money and that extreme adverse market circumstances can mean you suffer severe losses in all cases. The summary risk indicator only reflects the market risk and credit risk of the product. Other risks materially relevant to the product which are not taken into account in the summary risk indicator are: leverage, derivatives, liquidity, Index, market cap, hedging, counterparty, currency, portfolio concentration and emerging markets risk, where applicable.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

For full details of the Company's risks, please see the prospectus which may be obtained from Liontrust (address overleaf) or online at [www.liontrust.eu](http://www.liontrust.eu).

## Performance Scenarios

The figures shown include all the costs of the product itself, but will not include all the costs you pay to your adviser or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

**What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Liontrust GF Sustainable Future European Corporate Bond A1 EUR Accumulating share class over the last 5 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

An unfavourable scenario occurred for the investment in 2023

A moderate scenario occurred for the investment in 2021

A favourable scenario occurred for the investment in 2024

## What happens if Bridge Fund Management Limited plc is unable to pay out?

For the protection of investors the Fund's assets are held by an independent depository, so the Fund's ability to pay out would not be affected by the insolvency of Bridge Fund Management Limited. If the Fund is terminated or wound up, the assets will be liquidated, and you will receive an appropriate share of any proceeds but you may lose part or all of your investment. There is no compensation scheme protecting you from this scenario.

For further information on the depository and the sub-fund structure, please refer to the Liontrust Global Funds plc Prospectus which can be found at: <https://www.liontrust.co.uk>.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10 000 is invested.

	If you exit after 1 year	If you exit after 5 years (recommended holding period)
Total Costs	95 EUR	466 EUR
Annual cost impact (*)	0.95 %	0.95 %

\*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be -0.06% before costs and -0.93% after costs.

Incidental costs taken under specific conditions		
Performance Fees	There is no performance fee for this product	0.00 EUR

## How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The Fund has daily liquidity. The recommended holding period of the Fund assumes the Fund being the sole or majority holding of the investor. The recommended holding period is primarily based on the historic volatility of the underlying investments and is not directly applicable if used in a portfolio based on the investor's risk profile. The fund is not intended for short term speculation purposes. In order to divest/redeem from the Fund you can send a completed signed redemption form by 11:59am (Dublin time) on a daily basis (but not weekends or Bank Holidays).
