

LIONTRUST GF US EQUITY FUND (the Fund)

a sub-fund of

LIONTRUST GLOBAL FUNDAMENTAL PLC

An open ended umbrella fund with segregated liability between sub-funds

**Supplement to the Prospectus dated 7 June 2022
for Liontrust Global Fundamental plc**

This Supplement contains specific information in relation to Liontrust GF US Equity Fund (the **Fund**), a fund of Liontrust Global Fundamental plc (the **Company**), an umbrella type open-ended investment company with variable capital. The Company is an umbrella fund with segregated liability between sub-funds. The Company has four other sub-funds in existence as at the date of this Supplement, namely the Liontrust GF International Equity Fund, the Liontrust GF Tortoise Fund, the Liontrust GF UK Equity Fund and the Liontrust GF UK Income Fund (in termination).

The information contained in this Supplement forms part of and should be read in conjunction with the full information contained in the Prospectus dated 7 June 2022.

The Directors of the Company, whose names appear under the **Directors of the Company** section of the Prospectus, accept responsibility for the information contained in the Prospectus and this Supplement. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure that such is the case) such information is in accordance with the facts and does not omit anything likely to affect the import of such information. The Directors accept responsibility accordingly.

Words and expressions defined in the Prospectus shall, unless the context otherwise requires, have the same meaning when used in this Supplement.

Dated: 7 June 2022

1. INVESTMENT OBJECTIVE AND POLICIES

Investment Objective

The investment objective of the Liontrust GF US Equity Fund is to aim to produce capital growth over the long term through investment in a diversified portfolio of primarily US equities.

Investment Policies

The investment objective of the Fund will be achieved primarily through investment in a diversified portfolio of equity securities of companies incorporated in the U.S. and/or listed or traded on at least one Market in the U.S listed in Appendix I to the Prospectus. The Investment Manager will construct the Fund's portfolio taking into consideration macroeconomic factors (such as interest rates, GDP, monetary and fiscal trends), the outlook for different economic sectors and market capitalisations, and stock-specific factors (such as valuation, market position, investment potential, management quality and financial strength). There is no policy to restrict investment to any particular economic sector or industry.

At least 80% of the Fund will be invested in U.S. equities, with the balance in other international equities (which for the avoidance of doubt could include emerging markets equities), cash or near cash.

The Fund may invest up to 10% of its Net Asset Value in other collective investment schemes. For the avoidance of doubt, such other collective investment schemes include money market funds invested in for cash management purposes.

The Fund is not expected to generate significant amounts of income.

The Fund will continuously invest more than 50% of the value of its (gross) assets in equity securities which constitute "equity participations" within the meaning of section 2, para 8 of the German Investment Tax Act (Investmentsteuergesetz) (or a corresponding provision of any successive legislation).

There can be no guarantee that the investment objective of the Fund will be achieved.

Cash Management

The Fund may hold and invest up to 20% of its Net Asset Value in liquid assets such as cash, bank deposits, money market funds having a minimum credit rating from a recognised rating agency of A1-P1 (or equivalent) and money market instruments including but not limited to short-term fixed income instruments including treasury bills issued or guaranteed by any government which are rated and may offer fixed or variable interest rates.

The situations in which liquid assets set out above may be held may include: (i) where the Investment Manager considers that there are not sufficient suitable investment opportunities; (ii) to protect the value of the Fund and maintain liquidity at times in falling or volatile markets; (iii) to facilitate the Fund's ability to meet redemption requests; and (iv) where the Fund has received subscriptions that are awaiting investment. Subject to the ongoing need to provide adequate liquidity to meet the foreseeable level of redemptions at all times, there is no minimum level of liquidity that the Fund may hold at any one time.

Use of Financial Derivative Instruments (FDIs)

The Fund may not invest in FDIs.

Securities Lending and Repurchase/Reverse Repurchase Arrangements

This Fund may not enter into securities lending and repurchase/reverse repurchase arrangements.

2. INVESTMENT RESTRICTIONS

The general investment restrictions as set out in the section of the Prospectus entitled **Investment Restrictions** shall apply to the Fund. In addition the Fund will not invest more than 10% of its Net Asset Value

in other collective investment schemes.

3. **BORROWING AND LEVERAGE**

There will be no borrowing for investment purposes. In accordance with the general provisions set out in the Prospectus under the heading Borrowing and Leverage Powers, the Fund may borrow up to 10% of its total Net Asset Value for temporary purposes. The Fund's assets may be used as collateral or charged as security to secure borrowings.

4. **LISTING**

Please note that no Shares in the Fund are listed on Euronext Dublin or any other exchange.

5. **RISK FACTORS**

The general risk factors set out in the **Risk Factors** section of the Prospectus apply to the Fund.

AN INVESTMENT IN THE SHARES OF THE FUND IS SPECULATIVE AND INVOLVES A DEGREE OF RISK. ACCORDINGLY, PROSPECTIVE INVESTORS SHOULD CONSIDER THE FOLLOWING RISK FACTORS. THESE RISK FACTORS MAY NOT BE A COMPLETE LIST OF ALL RISK FACTORS ASSOCIATED WITH AN INVESTMENT IN THE FUND.

In addition, the following risk factors apply to the Fund.

General

There is no guarantee that the investment objective of the Fund, or its risk monitoring and diversification goals, will be achieved and results may vary substantially over time. Shareholders should recognise that investing in the Fund involves special considerations not typically associated with investing in other securities and that the asset allocation is not structured as a complete investment programme. Investments may be made in assets domiciled in jurisdictions outside the U.S. which do not have a regulatory regime which provides an equivalent level of shareholder protection to that provided under Irish or English law.

Nature of Investments

An investment in the Fund will require a long-term commitment, with no certainty of return. The Fund intends to make investments which the Investment Manager perceives as having the potential for substantial return, but which may also involve substantial risks. There can be no assurance that the Fund will be able to realise its investments in a timely manner. Since the Fund may only make a limited number of investments and since such investments may involve a high degree of risk, poor performance by such investments could severely affect the total return to investors.

Concentration Risk

While the Investment Manager will regularly monitor the concentration of the Fund's exposure to related risk, concentration in any one industry, region or country or with respect to any given counterparty or Investment Manager may arise from time to time. To the extent there is a downturn or other problem in any area where the Fund has concentration, this could reduce the return the Fund receives on its investments and, consequently, could have an adverse impact on the Fund's financial conditions and its ability to pay distributions.

Liquidity Risk

Certain securities may be difficult or impossible to sell at the time and the price that the seller would like. The seller may have to lower the price to effect a secondary market sale, sell other securities instead or forego an investment opportunity, any of which could have a negative effect on fund management or performance.

Market risk

The investments of the Fund are subject to normal market fluctuations and the risk inherent in investment in equity securities and similar instruments and there can be no assurances that appreciation will occur. Some of the recognised exchanges on which the Fund may invest may prove to be illiquid or highly volatile from time to time and this may affect the price at which the Fund may liquidate positions to meet repurchase requests or other funding requirements. Potential investors should also note that the securities of small capitalisation companies are less liquid and this may result in fluctuations in the price of the Shares of the Fund.

Potential Conflicts of Interest

In addition, investors should note that the annual Management Fees are based on the Net Asset Value of the Fund and the Investment Manager may value assets of the Fund in certain circumstances so there is the potential of conflict of interest and its fees will rise with an increase in the Net Asset Value of the Fund.

Foreign exchange/currency risk

Although Shares may be denominated in the base currency of the Fund, the Fund may invest its assets in securities denominated in a wide range of currencies. The Net Asset Value of the Fund as expressed in the base currency of the Fund will fluctuate in accordance with the changes in the foreign exchange rate between the base currency of the Fund and other currencies in which certain of the Fund's investments are denominated. The Fund may therefore be exposed to a foreign exchange/currency risk.

The Investment Manager will not enter into hedging transactions to protect against fluctuations in the relative values of the Fund's portfolio positions as a result of changes in currency exchange rates and market interest rates.

Equity risk

Equities as a class have historically outperformed other types of investments over the long term. Individual stock prices, however, tend to go up and down more dramatically over the short term. These price movements may result from factors affecting individual companies or industries, or the securities market as a whole.

Political Legal and/or Regulatory Risks

The value of the assets of the Company may be adversely affected by uncertainties, such as international political and economic developments, changes in market conditions, government policies or in legal, regulatory or taxation requirements.

Brexit

On 31 January 2020, the United Kingdom (UK) formally exited the European Union (EU) (Brexit). The Brexit withdrawal agreement allowed for a transitional period which subsequently ended on 31 December 2020. Ireland remains to be a member of the EU. The Company remains an EU regulated UCITS that can avail of passporting rights under the UCITS Regulations to market and sell shares in the Funds in the EU, subject to complying with the terms of the UCITS Regulations.

The Company submitted a notification under the UK's Temporary Permissions Regime to ensure that the Company continues to be recognised in the UK after the end of the transition period. UCITS funds are entitled to have non-EU investment managers. Accordingly, Liontrust Investment Partners LLP is in a position to continue to act as investment manager to the Company post-Brexit.

Due to the ongoing regulatory uncertainty as regards the terms of the UK's future relationship with the EU, the precise impact on the Company is difficult to determine. The Company may be negatively impacted by changes in law and tax treatment resulting from the UK's departure from the EU. No assurance can be given that such matters will not adversely affect the Company and/or the Investment Manager's ability to achieve the Company's investment objectives.

Settlement and Counterparty Risk

Settlement risk occurs when a transaction is not completed as duly agreed between the parties. This may be

due to an error or omission in the necessary settlement, clearing or registration processes or due to the lack of creditworthiness of one of the parties to the transaction.

Counterparty risk occurs when a party to a contract fails to honour and defaults on its obligations thereunder. Funds which are party to these risks can incur considerable losses.

Availability of Suitable Investment Opportunities

The Fund will compete with other potential investors to acquire assets. Certain of the Fund's competitors may have greater financial and other resources and may have better access to suitable investment opportunities. There can be no assurance that the Fund will be able to locate and complete investments which satisfy the Fund's rate of return objectives or that the Fund will be able to invest fully its committed capital. If no suitable investments can be made then cash will be held by the Fund and this will reduce returns to shareholders. Whether or not suitable investment opportunities are available to the Fund, Shareholders will bear the cost of management fees and other Fund expenses.

In the event that the Fund is terminated or the Company is wound up, and to the extent that the assets may be realised, any such realisation may not be at full market value and will be subject to deductions for any expenses for the termination of the Fund or the liquidation of the Company.

Limited Number of Investments

The Fund anticipates that it will be diversified. However, in the event of a material demand for redemptions, the Fund could be forced to sell liquid positions resulting in an over-weighting in a small number of illiquid investments. In such circumstances, the aggregate return of the Fund may be substantially and adversely affected by the unfavourable performance of a single investment. The Fund's restriction of redemptions of Shares in excess of ten per cent of the total Net Asset Value of the Fund on any one Dealing Day will mitigate this risk to an extent should these circumstances arise.

Unidentified Portfolio

Because not all of the specific investments of the Fund have been identified, the Shareholders must rely on the ability of the Investment Manager to make appropriate investments for the Fund and to manage and dispose of such investments. While the Fund intends to make only carefully selected investments that meet the investment criteria of the Fund, the Investment Manager has complete discretion with respect to the selection of such investments.

No Market for Shares; Restrictions on Transferability; Limited Redemption Rights

There will be no secondary market for Shares of the Fund and transfers of Shares are only permitted to those persons who satisfy the criteria for permitted shareholders. Consequently, investors may be able to dispose of their Shares only by requiring the Fund to redeem their Shares at the next Dealing Day.

Exchange Rate Risk

Share Classes may be designated in a currency other than the Base Currency of the Fund. In such circumstances adverse exchange rate fluctuations between the Base Currency of the Fund and the currency in which the relevant Class of Shares is designated may result in a decrease in return and/or a loss of capital for Shareholders.

Payment of Charges and Expenses to Capital

The charges and expenses of the Fund may be charged to the capital of the Fund in circumstances where there is insufficient income being received by the Fund. In such circumstances, the capital value of a Shareholder's investment may be lowered and income may be achieved by forgoing the potential for future capital growth.

Net Asset Value & Valuation of Assets

The valuation of the Fund's assets obtained for the purpose of calculating Net Asset Value may not be reflected in the prices at which such assets are sold. For details of the valuation of assets, please see the section in the Prospectus headed **Valuation of Assets**.

BEFORE DETERMINING TO INVEST IN THE FUND, PROSPECTIVE INVESTORS SHOULD EVALUATE WHETHER THEY ACCEPT THE AFORESAID RISKS WHICH THEY WILL ASSUME BY BUYING SHARES OF THE FUND. THE FOREGOING LIST OF RISK FACTORS DOES NOT PURPORT TO BE A COMPLETE EXPLANATION OF THE RISKS INVOLVED IN THIS OFFERING.

PROSPECTIVE INVESTORS SHOULD READ THE ENTIRE PROSPECTUS AND THIS SUPPLEMENT AND FULLY EVALUATE ALL OTHER INFORMATION THAT THEY DEEM TO BE NECESSARY BEFORE DETERMINING TO INVEST IN THE FUND. AN INVESTMENT IN THE FUND MAY NOT BE APPROPRIATE FOR ALL INVESTORS.

6. DIVIDEND POLICY

No dividends are payable in respect of Class A Dollar Shares, Class B Sterling Shares, Class B Dollar Shares, Class P Dollar Shares, Class Z Sterling Shares, Class Z Dollar Shares and Class Z Euro Shares of the Fund. The net income attributable to such Shares will be retained within the Fund and the Net Asset Value per Share shall be increased by the amount of net income earned.

The Fund has been approved by HM Revenue and Customs as a ‘reporting fund’ for UK taxation purposes. The Fund shall endeavour to satisfy the conditions in order to maintain reporting fund status unless the Directors determine otherwise. Although the Directors will endeavour to ensure that appropriate conditions for reporting fund status to apply are met, there can be no guarantee that they will be obtained or so met, or that once obtained or met, they will continue to be obtained or met for future accounting periods. Where an ‘offshore fund’ (such as the Fund) has been certified as a reporting fund for each accounting period during which a shareholder has held his interest in the offshore fund, any gain arising will be calculated and taxed as a capital gain, rather than as an offshore income gain, and such shareholder may be eligible for applicable capital gains exemptions and/or reliefs.

If the Directors propose to change the dividend policy of the Fund full details will be provided in an updated Supplement and all Shareholders will be notified in advance.

7. INVESTMENT MANAGER

Liontrust Investment Partners LLP has been appointed as Investment Manager to provide discretionary investment management services to the Fund. Liontrust Investment Partners LLP is authorised and regulated by the UK Financial Conduct Authority. The Investment Manager is a UK domiciled asset manager. As of 31 December 2021, Liontrust Investment Partners LLP had approximately GBP 37.2 billion of assets under management and advice and has an extensive track record across all its investment strategies.

8. KEY INFORMATION FOR BUYING AND SELLING

Share Classes

The following are the share classes of the Fund currently in existence:-

| Share Class | Currency | Minimum Shareholding** | Minimum Initial Investment Amount** | Minimum Additional Investment Amount** | Minimum Redemption Amount** |
|-------------------------|----------|------------------------|-------------------------------------|--|-----------------------------|
| Class A Dollar Shares | Dollar | \$16,000 | \$16,000 | \$8,000 | \$8,000 |
| Class B Sterling Shares | Sterling | £100,000 | £100,000 | £5,000 | £5,000 |
| Class B Dollar Shares | Dollar | \$160,000 | \$160,000 | \$8,000 | \$8,000 |
| Class P Dollar Shares | Dollar | \$160,000 | \$160,000 | \$8,000 | \$8,000 |
| Class Z Sterling Shares | Sterling | £100,000 | £100,000 | £5,000 | £5,000 |
| Class Z Dollar Shares | Dollar | \$160,000 | \$160,000 | \$8,000 | \$8,000 |
| Class Z Euro Shares | Euro | €160,000 | €160,000 | €8,000 | €8,000 |

** The Directors reserve the right to differentiate between Shareholders and to waive or reduce the Minimum Shareholding, Minimum Initial Investment Amount, Minimum Additional Investment Amount and Minimum Redemption Amount for any such Shareholders or to refuse an application for any such Shares in their absolute discretion.

Class B Sterling Shares and Class B Dollar Shares are only available for subscription by investors with the prior agreement of the Investment Manager (at the discretion of the Investment Manager on a case by case basis).

The Base Currency of the Fund is U.S. Dollars. The currency exposure of the Class B Sterling Shares, Class Z Sterling Shares and Class Z Euro Shares will not be hedged against the Base Currency. A currency conversion will take place on subscription, redemption and exchange of Class B Sterling Shares, Class Z Sterling Shares and Class Z Euro Shares, the cost of which will be borne by the Shareholder. Accordingly, the value of the Class B Sterling Shares, Class Z Sterling Shares and Class Z Euro Shares will be subject to exchange rate risk in relation to the Base Currency.

Accounting Date

The Accounting Period ends on 31 December in each year.

Base Currency

U.S. Dollar

Business Day

Any day (apart from Saturdays, Sundays and public holidays) on which banks and regulated stock exchanges and markets are ordinarily open for business in Dublin, London and New York.

Dealing Day

Every Business Day.

Dealing Deadline

In case of subscriptions and redemptions, 4.00pm (Irish time) on the relevant Dealing Day.

Minimum Fund Size

The minimum size of the Fund will be £5 million, or such other amount as may be determined by the Directors at their discretion.

Preliminary Charge

For all classes of Shares in the Fund there is no preliminary charge.

Redemption Charge

For all Classes of Shares in the Fund there is no redemption charge.

Anti-Dilution Adjustment

To preserve the value of the underlying assets and to cover dealing costs, when there are net subscriptions or redemptions, an Anti-Dilution Adjustment may be applied on behalf of the Company, which the Investment Manager considers represents an appropriate figure. Any such adjustment shall be retained for the benefit of the Fund.

Settlement Date

In the case of subscriptions, cleared funds and all supporting documentation must be received by no later than 12.00 noon (Irish time) four Business Days after the relevant Dealing Day (or such other time as the Directors may agree) provided that the Subscription Form is received by the Dealing Deadline. In the case of redemptions, settlement will be made not later than close of business on the fourth Business Day after the relevant Dealing Day provided the original Subscription Form, where required, (together with the supporting documentation in relation to money laundering prevention checks and any documentation deemed necessary for regulatory or taxation purposes) has been received and the anti-money laundering procedures have been completed.

Valuation Point

The property of the Fund is valued daily at 5.00pm EST in New York on the relevant Dealing Day.

9. HOW TO SUBSCRIBE FOR /BUY SHARES

Application for Shares should be made on the Subscription Form and be submitted in accordance with the provisions set out in the Prospectus to be received by the Administrator by the Dealing Deadline on the relevant Dealing Day. Subsequent applications for Shares will only be accepted by electronic means where specifically agreed to in advance by the Company or its delegate.

The Minimum Shareholding must be maintained by each Shareholder in the Fund (subject to the discretion of the Directors) following any partial repurchase, exchange or transfer of Shares.

Payment in respect of the issue of Shares must be made by the relevant Settlement Date by electronic transfer in cleared funds in the currency of the relevant Share Class.

The subscription price for Shares is based on the Net Asset Value per Share of that Class referable to the relevant Dealing Day. The Net Asset Value per Share will be determined by means of the method of valuation of assets and liabilities described in the section of the Prospectus entitled **Calculation of Net Asset Value /Valuation of Assets**.

This section should be read in conjunction with the section in the Prospectus entitled **Subscription for Shares**.

10. HOW TO REDEEM/SELL SHARES

Requests for the sale of Shares should be submitted to the Administrator in accordance with the provisions set out in the Prospectus by the Dealing Deadline on the relevant Dealing Day. Requests received on or prior to a Dealing Deadline will be dealt with on the relevant Dealing Day. A redemption request once given will not be capable of revocation without the consent of the Administrator on the instruction of the Directors.

The amount due on the redemption of Shares of any class in the Fund will be paid by the Settlement Date by electronic transfer to an account in the name of the Shareholder. Redemption proceeds may not be processed by the Administrator if the original Subscription Form, where required, (together with the supporting documentation in relation to money laundering prevention checks and any documentation deemed necessary for regulatory or taxation purposes) has not been received and/or the anti-money laundering procedures have not been completed.

Subject to the discretion of the Directors, no Shareholder shall be entitled to realise part only of his holding of Shares of any class in the Fund if such realisation would result in his holding of Shares of such class after such realisation being below the Minimum Shareholding. In addition, the Company may decline to effect a redemption request which is below the Minimum Redemption Amount.

In the event that a Shareholder requires payment of redemption proceeds to an account other than that specified in the Subscription Form, the Shareholder must provide an original request in writing, executed by an authorised signatory of the Shareholder, to the Administrator on or prior to the receipt of the redemption request form. The Administrator will not make payment of redemption proceeds to third parties, save for in exceptional circumstances and in accordance with the requirements of the Central Bank.

The redemption price per Share is based on the Net Asset Value per Share in the relevant Class referable to the relevant Dealing Day. The Net Asset Value will be determined in accordance with the method of valuation of assets and liabilities described in the section of the Prospectus entitled **Calculation of Net Asset Value/Valuation of Assets**.

The Articles contain special provisions where a redemption request received from a Shareholder would result in more than 5 per cent of the Net Asset Value of Shares in issue being redeemed on any Dealing Day which provisions are summarised under the section in the Prospectus entitled **Redemption of Shares**. The Fund is entitled to limit the number of Shares redeemed on any Dealing Day to 10% of the total Net Asset Value of Shares in issue on that Dealing Day or such other amount as they may in their absolute discretion determine

subject to the terms of the Prospectus. The redemptions effected on that Dealing Day will be effected pro rata in the manner described under the section in the Prospectus entitled **Redemption of Shares**.

This section should be read in conjunction with the section in the Prospectus entitled **Redemption of Shares**.

11. CHARGES AND EXPENSES

Fees of the Manager, the Investment Manager, the Depositary, any sub-custodian, the Administrator and the Distributors.

(a) Manager

The Manager shall be paid a fee for its services out of the assets of the Fund, calculated and accrued on each Dealing Day and payable monthly in arrears, of an amount up to 0.05% of the NAV of the Fund (plus VAT, if any) per annum, subject to a monthly minimum fee of up to €1,500 (plus VAT, if any).

The Manager's fee for the first 12 months of its appointment will be fixed in respect of the Company and the Funds of up to €95,000 (plus VAT, if any) to be prorated across the Funds of the Company.

The Manager is also entitled to receive out of the assets of the Fund reasonable and properly vouched expenses.

(a) Investment Management Fees

The Investment Manager will be entitled to receive out of the assets of the Fund an annual Management Fee (the **Annual Fee**) at the following rates:

| Share Class | Fee amount |
|------------------|---|
| Class A Dollar | 1.5% of the Net Asset Value of the Class |
| Class P Dollar | 0.45% of the Net Asset Value of the Class |
| Class Z Sterling | 0.75% of the Net Asset Value of the Class |
| Class Z Dollar | 0.75% of the Net Asset Value of the Class |
| Class Z Euro | 0.75% of the Net Asset Value of the Class |

The annual Management Fee will accrue daily and be payable to the Investment Manager monthly in arrears.

No annual Management fee is payable in respect of Class B Sterling Shares and Class B Dollar Shares in the Fund.

From time to time the Investment Manager may, at their sole discretion, discharge certain fees and expenses of the Fund.

Performance Fee

The Investment Manager will also be entitled to receive a Performance Fee (the **Performance Fee**) out of the assets of the Fund in respect of the Class P Dollar Shares (the **Performance Fee Share Class**). No Performance Fee will be payable in respect of the Class A Dollar, Class B Sterling and Dollar Shares, Class Z Sterling, Dollar and Euro Shares. The Performance Fee will be calculated and accrued in the Net Asset Value per Share on each Valuation Point and will be payable either annually in respect of each Performance Period (as defined below); or in respect of any of the Performance Fee Share Class redeemed during a Performance Period, the Performance Fee in respect of that Performance Period will be calculated and paid as though the date of redemption were the end of the relevant Performance Period.

The Performance Fee is payable at the rate of 20% of the **Net New Appreciation**. The Performance Fee payable per Share for the Performance Fee Share Class for a Performance Period is the aggregate of the Performance Fee accruals during the Performance Period. At each Valuation Point the Performance Fee accrual per Share shall be the Performance Fee accrued for the Performance Fee Share Class at that

Valuation Point, divided by the number of Shares in issue in the Performance Fee Share Class.

In order for a Performance Fee to be payable in respect of a Performance Period, there must be Net New Appreciation.

Adjusted Net Asset Value per Share means the Net Asset Value per Share of the relevant Performance Fee Share Class on the relevant Crystallisation Day without deduction of any accrued Performance Fee and after adding back net income (if any) distributed to Shareholders since payment of the last Performance Fee.

Benchmark means, for the purpose only of calculating the Performance Fee on the Performance Fee Share Class, the S&P 500 Index.

The use of the Benchmark is consistent with the Investment Policy of the Fund.

Please refer to the KIID of the Fund for information on the past performance of the Fund against the Benchmark.

Benchmark Value in this context means (except for the first Performance Period) the daily Net Asset Value of the Performance Fee Share Class, starting with the Valuation Point following the last Crystallisation Day as at which a Performance Fee was last paid, adjusted cumulatively throughout the Performance Period at each Valuation Point as follows:

- (i) when additional subscriptions are made, the Benchmark Value will be increased by an amount equal to such subscriptions;
- (ii) when redemptions are made, the Benchmark Value will be reduced proportionately by being multiplied by the fraction, the numerator of which is the Net Asset Value of the Performance Fee Share Class immediately after, and the denominator of which is the Net Asset Value of the Performance Fee Share Class immediately prior to, any such redemption (the Net Asset Value of the Performance Fee Share Class in each case to be calculated prior to deduction for any accrued Performance Fee); and
- (iii) the resultant figure will be adjusted upwards or downwards (as applicable) by the percentage change in the Benchmark since the last Valuation Point as at which a Performance Fee was paid.

For the first Performance Period the Benchmark Value means the initial Net Asset Value of the Performance Fee Share Class immediately following the close of the Initial Offer Period for the Performance Fee Share Class, similarly adjusted as set out above.

Crystallisation Day means the last Business Day of the relevant Performance Period for the Performance Fee Share Class.

Net New Appreciation means the amount by which the Net Asset Value of the Performance Fee Share Class at a Valuation Point (after adding back any income distributed to shareholders since the payment of a Performance Fee was last paid, but without deduction of any accrued Performance Fee) exceeds the Benchmark Value.

The **Performance Period** for Class P US Dollar will be from 1 January to 31 December each year (or the immediately preceding Business Day if the date in question is not a Business Day), except that, if at the end of a Performance Period there is no Net New Appreciation, the following Performance Period or Periods shall commence on the 1 January immediately following the Crystallisation Day in the Performance Period for which a Performance Fee was last paid until there is subsequent Net New Appreciation.

The first Performance Period for Class P Dollar Shares shall be the period commencing on the Business Day immediately following the close of the Initial Offer Period for Class P Dollar Shares and ending on 31 December 2016.

The Performance Fee will normally be payable to the Investment Manager in arrears within 14 days of the end of each relevant Performance Period. However, in the case of Shares in the Performance Fee Share Class redeemed during a Performance Period, the accrued Performance Fee in respect of those Shares will be payable within 14 days after the date of redemption as though the date of redemption was the end of the

relevant Performance Period for such Shares. The Performance Fee does not crystallise and is not paid more than once per annum.

Where Performance Fees are payable, these will be based on net realised and net unrealised gains and losses as at each Crystallisation Day. As a result, Performance Fees may be paid on unrealised gains which may subsequently never be realised.

If the Investment Manager receives a Performance Fee with respect to the performance of the Fund during a Performance Period, and the Fund suffers losses in a subsequent period, the Investment Manager is under no obligation to, and will not, refund such Performance Fees.

The Performance Fee is subject to a relative “high water mark” provision, such that if a Performance Fee does not arise during any Performance Period, the following Performance Period or Periods shall be adjusted as defined above under “Performance Period” and no Performance Fee shall be payable until there is Net New Appreciation.

Underperformance of the Benchmark must be clawed back before a Performance Fee becomes payable in a subsequent Performance Period.

A Performance Fee may be paid in times of negative performance, for example, where the Fund has outperformed the Benchmark in respect of a Performance Period but has had a negative performance overall.

Worked Examples

To illustrate the effect that the Performance Fee might have on the Net Asset Value per Share of the Performance Fee Share Class, examples of four scenarios are shown below.

These examples are hypothetical and are provided for illustrative purposes only. They are not intended and should not be interpreted as an indication of future performance or Performance Fees which may be payable to the Investment Manager. They are provided so that investors may better understand the methodology of the Performance Fee calculation.

In addition, and as outlined above, the Performance Fee accrues on each Dealing Day and is included within the daily published Net Asset Value per Share.

The scenarios below provide examples of how the Performance Fee applies in Performance Periods of outperformance (including outperformance of a falling Benchmark) and underperformance compared to the Benchmark Value. Years A to D are successive calendar years.

Performance Period 1 – Year A 1 January to 31 December

Performance Period 1 starts on 1 January in Year A, and the opening Net Asset Value per Share of the Performance Fee Share Class is \$1.0000 and the opening value of the Benchmark is 1,000.

Between 1 January and 31 December in Year A, the Benchmark rises by 1% to 1,010 giving a Benchmark Value per Share of \$1.0100. In the same period, the Adjusted Net Asset Value per Share of the Performance Fee Share Class goes up by 3% to \$1.0300 per Share. A Performance Fee will be payable because the Performance Fee Share Class has outperformed the Benchmark Value over the Performance Period.

The Net New Appreciation of the Performance Fee Share Class is the performance of the Net Asset Value per Share of the Performance Fee Share Class less the performance of the Benchmark. This is +2% (i.e. 3% less 1% = +2%). The Performance Fee per Share is calculated by multiplying the Net New Appreciation by the Performance Fee rate (20%) (i.e. \$0.0040 per Share).

The total Performance Fee payable to the Investment Manager is calculated by multiplying the Performance Fee per Share (\$0.0040) by the weighted average number of Shares in the Performance Fee Share Class in issue over the Performance Period.

On 31 December in Year A (the last day of Performance Period 1), the Adjusted Net Asset Value per Share of the Performance Fee Share Class is \$1.0300 and the Net Asset Value per Share is \$1.0260 (\$1.0300 less \$0.0040). The Net Asset Value per Share of the Performance Fee Share Class will be the opening Adjusted Net Asset Value per Share for Performance Period 2 (Year B).

Performance Period 2 – Year B 1 January to 31 December

Performance Period 2 starts on 1 January in Year B, and the opening Adjusted Net Asset Value per Share of the Performance Fee Share Class is \$1.026. This is the same as the Net Asset Value per Share for that day. The Benchmark has an opening value of 1,010.

Between 1 January and 31 December in Year B, the Benchmark rises by 1% to 1,020.1, giving a Benchmark Value per Share of \$1.0363. In the same period the Adjusted Net Asset Value per Share of the Performance Fee Share Class goes up by 0.8% from \$1.0260 to \$1.0342. No Performance Fee will be payable since the Performance Fee Share Class has underperformed the Benchmark Value by 0.2% (0.8% less 1.0%).

On 31 December in Year B the Adjusted Net Asset Value per Share of the Performance Fee Share Class is \$1.0342, which is the same as the Net Asset Value per Share for that day. Since no Performance Fee crystallises, the Performance Period does not end and is extended to the next Crystallisation Day (i.e. 31st December in Year C) (or, if later, the next Crystallisation Day on which the Net New Appreciation of the Performance Fee Share Class is above the Benchmark Value).

Performance Period 3 – Year B 1 January to Year C 31 December

Since no Performance Fee crystallised on 31 December in Year B, Performance Period 3 starts (as did Performance Period 2) on 1 January in Year B, and retains the opening Net Asset Value per Share and opening Benchmark Value at that date. Therefore for the purposes of the Performance Fee calculation, the opening Net Asset Value per Share and the opening Benchmark Value are \$1.0260 and 1,010 respectively.

Between 1 January and 31 December in Year C, the Benchmark rises by 1% to 1,030.3 giving a Benchmark Value per Share of \$1.0466, resulting in a cumulative increase since the last previous Crystallisation Day of a Performance Fee for the Performance Fee Share Class became payable of +2.01%. In the same period the Adjusted Net Asset Value per Share of the Performance Fee Share Class goes up by 2% from \$1.0342 to \$1.0549, resulting in a cumulative Adjusted Net Asset Value per Share performance since the last previous Crystallisation Day of a Performance Fee for the Performance Fee Share Class became payable of +2.82% (\$1.0260 to \$1.0549). A Performance Fee will be payable because the Performance Fee Share Class has outperformed the Benchmark Value over the Performance Period.

The Net New Appreciation of the Performance Fee Share Class is the performance of the Net Asset Value per Share of the Performance Fee Share Class less the performance of the Benchmark. This is +0.81% (i.e. 2.82% less 2.01%). The Performance Fee per Share is calculated by multiplying the Net New Appreciation of \$0.0083 (i.e. \$1.0260 x 0.81) = by the Performance Fee rate (20%) (i.e. \$0.0017 per Share).

The total Performance Fee payable to the Investment Manager is calculated by multiplying the Performance Fee per Share (\$0.017) by the weighted average number of Shares in the Performance Fee Share Class in issue over the Performance Period.

On 31st December in Year C (the last day of Performance Period 3) the Adjusted Net Asset Value per Share of the Performance Fee Share Class is \$1.0549 and the Net Asset Value per Share is \$1.0532 (i.e. \$1.0549 less \$0.0017). This Net Asset Value per Share of the Performance Fee Share Class will be the opening Adjusted Net Asset Value per Share for Performance Period 4.

Performance Period 4 – Year D 1 January to 31st December

Performance Period 4 starts on 1 January in Year D, and the opening Adjusted Net Asset Value per Share of the Performance Fee Share Class is \$1.0532. This is the same as the Net Asset Value per Share for that day. The Benchmark has a opening value of 1030.3.

Between 1 January and 31 December in Year D, the Benchmark falls by 2% to 1,009.69 giving a Benchmark Value per Share of \$1.0321. In the same period the Adjusted Net Asset Value per Share of the Performance Fee Share Class falls by 1% to \$1.0427. A Performance Fee will be payable because the Performance Fee Share Class has outperformed the Benchmark Value over the Performance Period.

The Net New Appreciation of the Performance Fee Share Class is the performance of the Net Asset Value per Share of the Performance Fee Share Class less the performance of the Benchmark. This is +1 (i.e. -2% less -1%). The Performance Fee per Share is calculated by multiplying the Net New Appreciation of \$0.0104 (i.e. \$1.0427 x 1%) by the Performance Fee rate (20%) (i.e. \$0.0021 per Share).

The total Performance Fee payable to the Investment Manager is calculated by multiplying the Performance Fee per share (\$0.0021) by the weighted average number of Shares in the Performance Fee Share Class in issue over the Performance Period.

On 31 December in Year D (the last day of Performance Period 4) the Adjusted Net Asset Value per Share of the Performance Fee Share Class is \$1.0427 and the Net Asset Value per Share is \$1.0406 (i.e. \$1.0427 less \$0.0021). This will be the opening Adjusted Net Asset Value per Share of the Performance Fee Share Class for the next Performance Period.

If the determination of the Net Asset Value per Share of the relevant Class is suspended on any Dealing Day, the calculation of the Performance Fees on that date will be based upon the next available determination of that Net Asset Value per Share and the amount of any Performance Fees accrued will be adjusted accordingly.

If the Investment Management Agreement is terminated during a Performance Period, the Performance Fee in respect of the current Performance Period will be calculated and paid as though the date of termination were the end of the relevant Performance Period. Upon termination of the Fund the Investment Manager will receive the Performance Fee for the Performance Period in which the termination occurs.

The calculation of the Performance Fee will be verified by the Depositary and is not open to the possibility of manipulation.

(b) Administration and Depositary Fees

The Depositary and Administrator are entitled to receive from the Fund a combined depositary and administration fee in the amount set out below. This combined depositary and administration fee will be paid by the Company to the Depositary and Administrator for and on behalf of the Fund. The Company will reimburse the Depositary and Administrator out of the assets of the Fund for reasonable out-of-pocket expenses incurred by the Depositary and Administrator.

The Company will also reimburse the fees (which will be at normal commercial rates) and reasonable out-of-pocket expenses of any sub-custodian appointed by the Depositary, and will be liable for transaction charges (at normal commercial rates). The fees and expenses of the Depositary and Administrator accrue on each Dealing Day and are payable monthly in arrears.

The combined administration and depositary fee will not exceed 0.15% per annum of the Net Asset Value of the Fund subject to a combined annual minimum fee of £3,000 per month or such other fee as may be agreed in writing between the parties. Such amount excludes any VAT that may apply.

(c) Distributors Fees

The fees of the Distributors will be paid out of the Investment Manager's own fee.

(d) Other Fees and Expenses

The initial expenses involved in the formation of the Fund and in connection with the issue of the Shares, the preparation and printing of this Supplement, obtaining authorisation from any authority, filing fees, the fees of all professionals relating to it and qualifying the Fund for marketing in various jurisdictions will be borne by the Investment Manager.

Any other fees and expenses payable out of the assets of the Fund are set out in the Prospectus under the heading **Fees and Expenses**.

12. **PROFILE OF A TYPICAL INVESTOR**

The Fund is suitable for experienced investors wishing to attain defined investment objectives. The investor must have experience with volatile products and must be able to accept significant temporary losses. Therefore, the Fund is suitable for investors who can afford to set aside the capital for at least five years and is designed for the investment objective of building up capital. The Fund is eligible to be held under the stocks and shares component of an Individual Savings Account.

13. **BENCHMARKS REGULATION**

As required under the Benchmark Regulation, the Company has produced and maintains a robust contingency plan setting out the actions that it would take in the event that the Benchmark materially changes or ceases to be provided.
