Liontrust Balanced Fund

Liontrust Asset Management PLC

Liontrust Asset Management PLC (Company) is a specialist fund management company with £27.8 billion in assets under management as at 31 December 2023 and that takes pride in having a distinct culture and approach to managing money. What makes Liontrust distinct?

- The Company launched in 1995 and was listed on the London Stock Exchange in 1999.
- We are an independent business with no corporate parent, our head office is on the Strand in London and we have offices in Edinburgh and Luxembourg.
- We believe in the benefits of active fund management over the long term and all our fund managers are truly active.
- We focus only on those areas of investment in which we have particular expertise. We have seven fund management teams investing in Global Equities, Global Fixed Income, Sustainable Investment and Multi-Asset portfolios and funds.
- Our fund managers are independent thinkers and have the courage of their convictions in making investment decisions.
- Our fund managers have the freedom to manage their portfolios according to their own investment processes and market views without being distracted by other day-to-day aspects of running a fund management company.
- Each fund management team applies distinct and rigorous investment processes to the management of funds and portfolios that ensure the way we manage money is predictable and repeatable.
- Staying true to their documented investment processes helps to create an in-built risk control for our fund managers, especially in more challenging environments, by preventing them from investing in companies and funds for the wrong reasons.
- We aim to treat investors, clients, members, employees, suppliers and other stakeholders fairly and with respect. We are committed to the Principles of Treating Customers Fairly (TCF) and they are central to how we conduct business across all our functions.

Liontrust Asset Management PLC is the parent company of Liontrust Investment Partners LLP, Liontrust Fund Partners LLP and Liontrust Portfolio Management Limited which are authorised and regulated by the Financial Conduct Authority. Liontrust Asset Management PLC is also the parent company of Liontrust International (Luxembourg) S.A. which is regulated by the Commission de Surveillance du Secteur Financier in Luxembourg. All members of the Liontrust Group sell only Liontrust Group products.

The ongoing war in Ukraine and the resultant geopolitical tensions including sanctions imposed on Russia and retaliatory action taken by Russia against foreign investors, continue to impact global financial markets (including stock, currency and commodities markets). Economic sanctions and the fallout from the conflict are affecting companies operating in a wide variety of sectors worldwide, including energy, financial services and defence, amongst others. As a result, the performance of the Sub-funds may be negatively impacted even if they have no direct exposure to the regions involved in the conflict.

Manager's Investment Report

Investment Objective

The investment objective of the Fund is to generate long term (five years or more) capital growth with the potential for income.

Investment Policy

The Fund invests, directly or indirectly, in a mix of asset classes across the world including equity, fixed income and alternatives. There is no predetermined exposure to any asset class or region.

The Fund may also invest in other eligible asset classes such as collective investment schemes (which may include Liontrust managed funds), other transferable securities, cash or near cash, deposits and money market instruments.

Derivatives and forward transactions may be used by the Manager for efficient portfolio management.

It is the intention to be nearfully invested at all times, however, the Fund has the facility to take tactical positions in cash or near cash, and to use efficient portfolio management, should the Manager feel it appropriate.

The portfolio will be managed to ensure that the Fund is at all times eligible to qualify for, and to be included in, an Individual Savings Account.

Investment Strategy

The Fund invests in securities selected using a combination of top down and bottom up analysis while managing risk through asset allocation.

The Team

Headed by James de Uphaugh, the Global Fundamental team has a strong track record of active management of equities for institutional investors, intermediaries and their clients since 2002. The team's offering initially focused on UK equities but expanded in 2007 to include a global long/short equity fund and again in 2014 to include US, Global and International equities strategies. The appointment of James de Uphaugh as lead manager of the Edinburgh Investment Trust in 2020 demonstrates the reputation and investment acumen of the Global Fundamental team. Following the acquisition of Majedie Asset Management in 2022, the team brought their funds and expertise to Liontrust.

The Liontrust Global Equity team became part of the Liontrust Global Fundamental team on 8 February 2023.

The Process

At the core of the team's investment approach is deep, fundamental research driven by original thinking to find share price inflection points that can drive long-term performance.

The team is able to invest across sectors and markets and pays particular attention to environmental, social and governance (ESG) risks and opportunities as part of the investment process.

Digital technology underpins the research platform, and the team is structured to foster a robust and honest environment rich in dialogue and debate.

Manager's Investment Report (continued)

Performance of the Fund

In the year to 31 December 2023 an investment in the Fund returned 20.4% (C Accumulation) compared with a 8.1% return from the IA Mixed Investment 40-85% sector, the comparator benchmark.

From the Fund's launch on 31 December 1998 to 31 December 2023, an investment in the Fund rose by 1,001%, compared to a rise of 219% in the IA Mixed Investment 40-85% sector, the comparator benchmark.

Source: Financial Express, bid to bid basis, total return (net of fees, income reinvested) figures show performance up to 31 December 2023. Please note that total return has been calculated at midday whereas the financial statements are at close of business.

Past performance is not a guide to future performance. The value of an investment and the income generated from it can fall as well as rise and is not guaranteed. You may get back less than you originally invested.

Manager's Investment Report (continued)

Risk and Reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the risk and reward indicator.

- The Synthetic Risk and Reward Indicator (SRRI) is based upon historical data and may not be relied upon to gauge the future risk profile of the Fund.
- The SRRI shown is not guaranteed to remain the same and may shift over time.
- The lowest category (1) does not mean 'risk free'.
- The Fund's risk and reward category has been calculated using the methodology adopted by the Financial Conduct Authority. It is based upon the rate by which the Fund or a representative fund or Index's value has moved up and down in the past.
- The Fund is categorised 5 primarily for its exposure to global equities and bonds.
- The SRRI may not fully take into account the following risks:
 - that a company may fail thus reducing its value within the Fund;
 - overseas investments may carry a higher currency risk. They are valued by reference to their local currency which may move up or down when compared to the currency of the Fund;
 - Bonds are affected by changes in interest rates and their value and the income they generate can rise or fall as a result;
 - the creditworthiness of a bond issuer may also affect that bond's value. Bonds that produce a higher level of income usually also carry greater risk as such bond issuers may have difficulty in paying their debts. The value of a bond would be significantly affected if the issuer either refused to pay or was unable to pay.
- This Fund may have a concentrated portfolio, i.e. hold a limited number of investments or have significant sector or factor exposures. If one of these investments or sector/factor falls in value this can have a greater impact on the Fund's value than if it held a larger number of investments across a more diversified portfolio.
- The Fund may, under certain circumstances, invest in derivatives, but it is not intended that their use will materially affect volatility. Derivatives are used to protect against currencies, credit and interest rate moves or for investment purposes. There is a risk that losses could be made on derivative positions or that the counterparties could fail to complete on transactions. The use of derivatives may create leverage or gearing resulting in potentially greater volatility or fluctuations in the net asset value of the Fund. A relatively small movement in the value of a derivative's underlying investment may have a larger impact, positive or negative, on the value of a fund than if the underlying investment was held instead. The use of derivative contracts may help us to control Fund volatility in both up and down markets by hedging against the general market.
- The Fund may encounter liquidity constraints from time to time. The spread between the price you buy and sell shares will reflect the less liquid nature of the underlying holdings.
- The Fund will invest in smaller companies and may invest a small proportion (less than 10%) of the Fund in unlisted securities. There

Manager's Investment Report (continued)

Risk and Reward profile (continued)

may be liquidity constraints in these securities from time to time, i.e. in certain circumstances, the Fund may not be able to sell a position for full value or at all in the short term. This may affect performance and could cause the Fund to defer or suspend redemptions of its shares.

- Outside of normal conditions, the Fund may hold higher levels of cash which may be deposited with several credit counterparties (e.g. international banks). A credit risk arises should one or more of these counterparties be unable to return the deposited cash.
- Counterparty risk: any derivative contract, including FX hedging, may be at risk if the counterparty fails.
- Environmental Social Governance (ESG) Risk: there may be limitations to the availability, completeness or accuracy of ESG information from third-party providers, or inconsistencies in the consideration of ESG factors across different third party data providers, given the evolving nature of ESG.

For full details of the Fund's risks, please see the prospectus which may be obtained from Liontrust (at the address on page 1) or online at www.liontrust.co.uk.

Manager's Investment Report (continued)

Fund Review

The Liontrust Balanced Fund returned 20.4% over the year, versus its average peer in the IA Mixed Investment 40-85% Sector, which returned 8.1%*.

Global equities mostly rose in H1 2023, led by the US, despite the fallout from its regional banking crisis. The rally was dominated by the US technology giants, thanks to sharply rising interest in the Artificial Intelligence (AI) theme. There were market jitters in May over the periodic political standoff regarding the US debt ceiling, but these subsided by the end of the month when the House of Representatives passed the required bill.

Global equities ended three successive quarters of gains in Q3, peaking in July before declining overall during the quarter. Investors were worried by central bank warnings that interest rates would have to stay 'higher for longer' to tackle stubborn inflation, which prompted investors to recalibrate their expectations for the trajectory of future interest rates. Global government bonds saw a sell off and turmoil in the bond market had a negative impact on equity markets. These concerns continued into early Q4, with the S&P 500 officially correcting in October and yields on US treasuries reaching a 16-year high. Conflict in the Middle East added to the uncertainty.

But by November, the overall picture had changed to one of ebbing inflation and the tone of markets switched to risk-on into the end of the year. Investors became more confident that leading central banks would cut interest rates significantly in 2024. US treasury yields fell and this drove inflows to equities, providing stronger support for rate-sensitive stocks such as consumer discretionary, small and mid-cap and higher beta stocks.

In Asia, there had been hopes earlier in 2023 that a resurgent China re-opening post-lockdown would stimulate the world economy. However, the recovery faltered, and concerns about the strength of China's post-Covid recovery weighed on markets in Asia. Concerns over the country's real estate sector, which accounts for 25% of its economy, were particularly acute. Our exposure to China is limited to the discretionary growth sector, which we believe will do well even if one half of the Chinese economy flags.

Japan's balancing act between continuing to lift its economy out of decades-long deflation with ultra-loose monetary policy while preventing rising inflation from becoming a major problem took a turn in Q4 when it ended its seven-year policy of capping long-term interest rates at 1%. Japanese equities rallied significantly in 2023, having benefited from relatively cheap valuations, a weakening currency, robust economic growth and loose monetary policy.

The Liontrust Global Equity team, which managed the Fund at the beginning of 2023, became part of the Liontrust Global Fundamental team on 8 February 2023, when it was announced that Robin Geffen, Head of the Global Equity team, would be leaving Liontrust in due course. Tom Record replaced him as lead manager of the Fund with Tom Morris and Hong Yi Chen as co-managers. From 21 March 2023, the fund was managed using the team's 'Global Change' investment process. Tom Morris left Liontrust in July 2023 and was replaced on the fund by Tom Hosking. Tom Record stepped down on 31 October 2023 ahead of leaving Liontrust, he was succeeded as head of the team by Tom Hosking who now manages the fund with Hong Yi Chen.

Analysis of portfolio return

The Fund's investment process was switched to 'Global Change' on 21 March 2023 after its management was taken over by the Liontrust Global Fundamental team. This will have impacted the attribution of returns.

However, in terms of performance drivers over the whole year, government bonds and exposure to the industrials and financials sectors contributed the most to returns, while our holdings in health care and materials detracted the most.

From a stock perspective, our holdings in five of the 'Magnificent Seven' US mega caps, including **NVIDIA**, **Alphabet**, **Microsoft**, **Amazon** and **Apple** delivered the strongest contributions to returns. The US' technology giants led the US stock market higher in 2023 on surging interest in the artificial intelligence (AI) theme. In Q4, they were also helped by growing market confidence that interest rates would fall significantly in 2024.

Manager's Investment Report (continued)

Fund Review (continued)

The most significant detractors from relative returns were our holdings in **Pfizer** and **Wuxi Biologics**. Note that Pfizer was sold in full when the new fund management team was first permitted to move the Fund to the 'Global Change' investment process on 21 March 2023. Pfizer saw demand for its Covid drugs decline more quickly than market expectations. Wuxi's sector has been under pressure from weaker biotech funding in a higher interest rate environment. In addition, there has been a temporary delay in the approval process for three of its major late-stage drugs.

Transactions

When the Global Fundamental team took over management of the Fund, there were wholesale changes to the portfolio that would have accounted for the largest transactions per se. However, over the course of 2023, there were significant transactions based on investment decisions.

These included new positions in **Church and Dwight**, the household and personal goods company; **NVIDIA**, the US mega cap that makes GPUs for powering AI datacentres; and **Novozymes**, the global leader in the niche markets of microbes and enzymes.

Church and Dwight had suffered falling margins due to higher cost inflation and we believed that margins could recover as inflation moderated. It is also a very defensive business and looked attractive given the uncertain economic environment in 2023. We believed NVIDIA would benefit from massive investments in AI. We initiated the position in Novozymes after it reported good results where it was encouraging to see volume growth picking up. Its bioenergy division continues to grow strongly on the back of new innovative products. Structurally, Novozymes is in a good position to benefit from the long-term change from chemical solutions to biological ones.

We also added to our position in **Alphabet**, the parent company of Google, as we thought advertising revenues would rebound and pessimism regarding the AI threat to its business was overblown.

We sold out of **Softbank**, the Japanese multinational investment holding company, and **KPN**, the Dutch telco. We had lower conviction in Softbank after several catalysts played out without reducing the discount to net asset value. While lower rates should be a tailwind for Softbank, further deterioration in the market for IPOs remains a risk. We became increasingly weary of KPN's management after it walked back from the guidance it gave at Q4 2022 results. It has been a defensive position for the Fund, but the investment thesis has played out with EBITDA (earnings before interest, taxation, depreciation and amortisation) margins better now than before as the Dutch market has rationalised.

We reduced our holding in Fiserv, the payments company, because we wanted to diversify out of payments exposure, and added to **Global Payments**, which has a similar business.

Outlook

We are cautious about the global economy. The US has held up well post Covid, helped by the unwinding of the excessive savings that were built up. The pent-up demand resulting from the pandemic supply chain problems has also been supportive, with companies such as aircraft and car manufacturers ramping up production to meet the backlog of demand. This has now been largely converted, so the positive impact is dissipating. We continue to monitor the macro indicators and if the balance tips in one direction or the other we could change the direction of our portfolio. The fact that the European and UK economies are materially weaker than that of the US adds to our caution.

Monetary policies remain a key focus for investors. We anticipate that inflation will continue falling provided the oil price does not spike up, giving leading central banks the scope to cut rates in 2024. The beneficiaries of this will be rate-sensitive stocks, including consumer discretionary and higher growth companies.

We are seeing opportunities in a broad range of stocks. We expect our idiosyncratic stock-specific opportunities (and risks) to be a bigger determinant of returns than any big positioning in the portfolio to growth or cyclical, for example. We continue to move the portfolio away from late cyclical and have been gently increasing our exposure to consumer and early cyclical stocks.

Manager's Investment Report (continued)

Outlook (continued)

There are still uncertainties, but investors with a long-term view can capitalise on these, selecting those stocks for which the risk-rewards are favourable. We own companies that should provide scarce growth in an economic headwind, that will benefit from lower rates or that are exploiting changes untied to the economic cycle and therefore should be relatively agnostic regarding economic growth.

**Source: Financial Express, bid to bid basis, total return (net of fees, income reinvested) figures show performance up to 31 December 2023. Please note that total return has been calculated at midday whereas the financial statements are at close of business.*

Authorised Status

The Fund is an authorised unit trust scheme ("the Scheme") under Section 243 of the Financial Services and Markets Act 2000 (authorisation orders) and the Financial Conduct Authority's Collective Investment Schemes Sourcebook and is categorised as a UCITS scheme.

Statement of the Manager's Responsibilities

The Collective Investment Schemes sourcebook published by the FCA, ("the COLL Rules") require the Manager to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund and of the net revenue and net capital gains or losses on the property of the Fund for the year.

In preparing the financial statements the Manager is responsible for:

- selecting suitable accounting policies and then apply them consistently;
- making judgements and estimates that are reasonable and prudent;
- following UK accounting standards, including FRS 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland*;
- complying with the disclosure requirements of the Statement of Recommended Practice for UK Authorised Funds issued by the Investment Management Association in May 2014;
- keeping proper accounting records which enable it to demonstrate that the financial statements as prepared comply with the above requirements;
- assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern;
- using the going concern basis of accounting unless they either intend to liquidate the Fund or to cease operations or have no realistic alternative but to do so;
- such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; and
- taking reasonable steps for the prevention and detection of fraud and irregularities.

The Manager is responsible for the management of the Fund in accordance with its Trust Deed, the Prospectus and the COLL Rules.

The Manager is responsible for the maintenance and integrity of the corporate and financial information included on the Fund's website. Legislation in the UK governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Statement of the Trustee's Responsibilities in Respect of the Scheme and Report of the Trustee to the Unitholders of the Liontrust Balanced Fund (the 'Fund') for the Year Ended 31 December 2023

The Trustee in its capacity as Trustee of Liontrust Balanced Fund must ensure that the Fund is managed in accordance with the Financial Conduct Authority's Collective Investment Schemes Sourcebook, the Financial Services and Markets Act 2000, as amended, (together "the Regulations"), the Trust Deed and Prospectus (together "the Scheme documents") as detailed below.

The Trustee must in the context of its role act honestly, fairly, professionally, independently and in the interests of the Fund and its investors.

The Trustee is responsible for the safekeeping all of custodial assets and maintaining a record of all other assets of the Fund in accordance with the Regulations.

The Trustee must ensure that:

- the Fund's cash flows are properly monitored and that cash of the Fund is booked in cash accounts in accordance with the Regulations;
- the sale, issue, repurchase and cancellation of units are carried out in accordance with the Regulations;
- the value of units of the Fund are calculated in accordance with the Regulations;
- any consideration relating to transactions in the Fund's assets is remitted to the Fund within the usual time limits;
- the Fund's income is applied in accordance with the Regulations; and
- the instructions of the Authorised Fund Manager ("the AFM"), which is the UCITS Management Company, are carried out (unless they conflict with the Regulations).

The Trustee also has a duty to take reasonable care to ensure that the Fund is managed in accordance with the Regulations and the Scheme documents of the Fund in relation to the investment and borrowing powers applicable to the Fund.

Having carried out such procedures as we considered necessary to discharge our responsibilities as Trustee of the Fund, it is our opinion, based on the information available to us and the explanations provided, that, in all material respects the Fund, acting through the AFM:

- (i) has carried out the issue, sale, redemption and cancellation, and calculation of the price of the Fund's units and the application of the Fund's income in accordance with the Regulations and the Scheme documents of the Fund; and
- (ii) has observed the investment and borrowing powers and restrictions applicable to the Fund in accordance with the Regulations and the Scheme documents of the Fund.

Antony Morrison

Partner, Head of Finance

Liontrust Fund Partners LLP
25 April 2024

Independent Auditor's Report to the Unitholders of Liontrust Balanced Fund (the "Fund")

Report on the audit of the financial statements

Opinion

We have audited the financial statements of the Fund for the year ended 31 December 2023 which comprise the Statement of Total Return, the Statement of Change in Net Assets Attributable to Unitholders, the Balance Sheet, the Related Notes and Distribution Tables for the Fund and the accounting policies set out on pages 32 to 34.

In our opinion, the financial statements:

- give a true and fair view, in accordance with UK accounting standards, including FRS 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland*, of the financial position of the Fund as at 31 December 2023 and of the net revenue and the net capital gains on the property of the Fund for the year then ended; and
- have been properly prepared in accordance with the Trust Deed, the Statement of Recommended Practice relating to Authorised Funds, and the COLL Rules.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities are described below. We have fulfilled our ethical responsibilities under, and are independent of the Fund in accordance with, UK ethical requirements including the FRC Ethical Standard.

We have received all the information and explanations which we consider necessary for the purposes of our audit and we believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion.

Going Concern

The Manager has prepared the financial statements on the going concern basis as they do not intend to liquidate the Fund or to cease their operations, and as they have concluded that the Fund's financial position means that this is realistic. They have also concluded that there are no material uncertainties that could have cast significant doubt over their ability to continue as a going concern for at least a year from the date of approval of the financial statements ("the going concern period").

In our evaluation of the Manager's conclusions, we considered the inherent risks to the Fund's business model and analysed how those risks might affect the Fund's financial resources or ability to continue operations over the going concern period.

Our conclusions based on this work:

- we consider that the Manager's use of the going concern basis of accounting in the preparation of the financial statements is appropriate; and
- we have not identified, and concur with the Manager's assessment that there is not, a material uncertainty related to events or conditions that, individually or collectively, may cast significant doubt on the Fund's ability to continue as a going concern for the going concern period.

However, as we cannot predict all future events or conditions and as subsequent events may result in outcomes that are inconsistent with judgements that were reasonable at the time they were made, the absence of reference to a material uncertainty in this auditor's report is not a guarantee that the Fund will continue in operation.

Independent Auditor's Report to the Unitholders of Liontrust Balanced Fund (the "Fund") (continued)

Report on the audit of the financial statements (continued)

Fraud and breaches of laws and regulations – ability to detect

Identifying and responding to risks of material misstatement due to fraud

To identify risks of material misstatement due to fraud ("fraud risks") we assessed events or conditions that could indicate an incentive or pressure to commit fraud or provide an opportunity to commit fraud. Our risk assessment procedures included:

- Enquiring of directors as to the Fund's high-level policies and procedures to prevent and detect fraud, as well as whether they have knowledge of any actual, suspected or alleged fraud;
- Assessing the segregation of duties in place between the Manager, the Trustee, the Administrator and the Investment Adviser; and
- Reading board minutes.

As required by auditing standards, we perform procedures to address the risk of management override of controls, in particular the risk that management may be in a position to make inappropriate accounting entries. On this audit we do not believe there is a fraud risk related to revenue recognition because the revenue is principally non-judgemental and based on publicly available information, with limited opportunity for manipulation. We did not identify any additional fraud risks.

We evaluated the design and implementation of the controls over journal entries and other adjustments and made inquiries of the Administrator about inappropriate or unusual activity relating to the processing of journal entries and other adjustments. We identified and selected a sample of journal entries made at the end of the reporting period and tested those substantively including all material post-closing entries. Based on the results of our risk assessment procedures and understanding of the process, including the segregation of duties between the Directors and the Administrator, no further high-risk journal entries or other adjustments were identified.

Identifying and responding to risks of material misstatement due to non-compliance with laws and regulations

We identified areas of laws and regulations that could reasonably be expected to have a material effect on the financial statements from our general commercial and sector experience and through discussion with the Manager and the Administrator (as required by auditing standards) and discussed with the Directors the policies and procedures regarding compliance with laws and regulations.

The potential effect of these laws and regulations on the financial statements varies considerably.

Firstly, the Fund is subject to laws and regulations that directly affect the financial statements including financial reporting legislation (including related authorised fund legislation maintained by the Financial Conduct Authority) and taxation legislation and we assessed the extent of compliance with these laws and regulations as part of our procedures on the related financial statement items.

Secondly, the Fund is subject to many other laws and regulations where the consequences of non-compliance could have a material effect on amounts or disclosures in the financial statements, for instance through the imposition of fines or litigation. We identified the following areas as those most likely to have such an effect: money laundering, data protection and bribery and corruption legislation recognising the Fund's activities. Auditing standards limit the required audit procedures to identify non-compliance with these laws and regulations to enquiry of the Directors and the Administrator and inspection of regulatory and legal correspondence, if any. Therefore, if a breach of operational regulations is not disclosed to us or evident from relevant correspondence, an audit will not detect that breach.

Context of the ability of the audit to detect fraud or breaches of law or regulation

Owing to the inherent limitations of an audit, there is an unavoidable risk that we may not have detected some material misstatements in the financial statements, even though we have properly planned and performed our audit in accordance with auditing standards. For example, the further removed non-compliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely the inherently limited procedures required by auditing standards would identify it.

In addition, as with any audit, there remained a higher risk of non-detection of fraud, as these may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. Our audit procedures are designed to detect material misstatement. We are not responsible for preventing non-compliance or fraud and cannot be expected to detect non-compliance with all laws and regulations.

Independent Auditor's Report to the Unitholders of Liontrust Balanced Fund (the "Fund") (continued)

Report on the audit of the financial statements (continued)

Other information

The Manager is responsible for the other information presented in the Annual Report together with the financial statements. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except as explicitly stated below, any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work:

- we have not identified material misstatements in the other information; and
- in our opinion the information given in the Manager's Report is consistent with the financial statements.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where under the COLL Rules we are required to report to you if, in our opinion:

- proper accounting records for the Fund have not been kept; or
- the financial statements are not in agreement with the accounting records.

Manager's responsibilities

As explained more fully in their statement set out on page 10, the Manager is responsible for: the preparation of financial statements that give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Fund or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

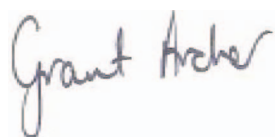

A fuller description of our responsibilities is provided on the FRC's website at www.frc.org.uk/auditorsresponsibilities.

Independent Auditor's Report to the Unitholders of Liontrust Balanced Fund (the "Fund") (continued)

Report on the audit of the financial statements (continued)

The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the Fund's unitholders, as a body, in accordance with Rule 4.5.12 of the Collective Investment Schemes sourcebook ('the COLL Rules') issued by the Financial Conduct Authority under section 247 of the Financial Services and Markets Act 2000. Our audit work has been undertaken so that we might state to the Fund's unitholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Fund and the Fund's unitholders, as a body, for our audit work, for this report, or for the opinions we have formed.

Comparative Tables

for the year ended 31 December 2023

A Accumulation	31 December 2023	31 December 2022	31 December 2021
Accounting year ended	per unit (p)	per unit (p)	per unit (p)
Change in net assets per unit			
Opening net asset value per unit	842.41	1,093.85	951.86
Return before operating charges	177.08	(236.13)	158.44
Operating charges	(15.30)	(15.31)	(16.45)
Return after operating charges	161.78	(251.44)	141.99
Distributions	(5.34)	(8.70)	—
Retained distributions on accumulation units	5.34	8.70	—
Closing net asset value per unit	1,004.19	842.41	1,093.85
After direct transaction costs of*	(0.95)	(0.04)	(0.35)
Performance			
Return after charges	19.20%	(22.99%)	14.92%
Other information			
Closing net asset value (£'000)	55,297	67,616	192,000
Closing number of units	5,506,662	8,026,428	17,552,639
Operating charges**	1.64%	1.64%	1.63%
Direct transaction costs*	0.10%	0.00%	0.03%
Prices			
Highest unit price	1,007.31	1,099.44	1,126.45
Lowest unit price	842.51	832.67	908.93

* Direct transaction costs comprise commission and taxes, principally applicable to equity investment purchases and sales. Unitholders should note that additionally there are other transaction costs such as a dilution adjustment and underlying costs with regard to Collective Investment Scheme holdings which will also have reduced the Fund and unit class returns before operating charges.

** The Operating Charges figure represents the annual operating expenses of the Fund expressed as a percentage of average net assets for the year - it does not include initial charges or performance fees. The Operating Charges figure includes the Manager's charge and all charges which are deducted directly from the Fund. The Operating Charges figure is expressed as an annual percentage rate.

Notes to the Financial Statements

for the year ended 31 December 2023

1 Accounting policies

a) Basis of accounting

The financial statements have been prepared on a going concern basis in accordance with United Kingdom Generally Accepted Accounting Practice ("UK GAAP") and the Statement of Recommended Practice "Financial Statements of UK Authorised Funds" issued by the Investment Association in May 2014 (the "SORP") and updated in June 2017, the COLL and the Fund's Trust Deed. In applying UK GAAP, the financial statements have been prepared in compliance with Financial Reporting Standard 102, 'The Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland' ("FRS 102").

The Manager has made an assessment of the Fund's ability to continue as a going concern and is satisfied it has the resources to continue in business for at least the next twelve months after the financial statements are signed and is not aware of any material uncertainties that may cast significant doubt on this assessment. This assessment considers liquidity, fluctuations in global capital markets, known redemption levels, expense projections and key service provider's operational resilience.

b) Basis of valuation of investments

The valuation of the listed investments is based on the bid-market prices, excluding any accrued interest in the case of debt securities, at close of business on the last day of the accounting year, in accordance with the provisions of the Trust Deed. Unquoted securities are valued by the Manager on a fair value basis taking into account, where appropriate, latest dealing prices, valuations from reliable sources, financial performance and other relevant factors.

For Collective Investment Schemes managed by other management groups, investments are valued at the bid price for dual priced funds and at the single price for single priced funds. Valuations should take into account any agreed rate of redemption charge.

c) Revenue

Dividends on quoted ordinary shares and preference shares are recognised when the securities are quoted ex-dividend. Where such securities are not quoted, dividends are recognised when they are declared.

Interest on bank balances and deposits is recognised on an accruals basis.

Revenue arising on debt securities is accreted or amortised over the life of such securities and recognised at a consistent rate over the life of the instrument (effective yield basis). Future cash flow on all debt securities are considered when calculating revenue on an effective yield basis and where purchase costs are considered to reflect incurred credit losses, such losses are taken into account so that interest is recognised at a reasonably expected commercial rate.

Accrued interest purchased and sold on debt securities is excluded from the capital cost of these securities and dealt with as part of the revenue of the Fund.

All revenue is recognised at a gross amount that includes any withholding taxes but excludes any other taxes, such as attributable tax credits.

Revenue from securities lending is accounted for net of associated costs and is recognised on an accruals basis.

d) Rebates of Manager fees

Rebates of Manager fees are recognised on an accrual basis. These rebates are treated as revenue or capital based on the underlying fund's treatment of the Manager fees.

e) Expenses

All expenses are recognised on an accruals basis and are charged against revenue except for costs associated with the purchase and sale of investments.

The operating expenses of the Fund are paid out of the General administration charges by the Manager.

Notes to the Financial Statements (continued)

for the year ended 31 December 2023

1 Accounting policies (continued)

f) Allocation of income and expenses to multiple unit classes

The allocation of income and expenses to each unit class is based on the proportion of the Fund's assets attributable to each unit class on the day the income is earned or the expense is incurred. The Manager's charge is allocated at a fixed rate based on the net asset value of the respective unit class.

g) Taxation

Corporation tax is charged at 20% of the income liable to corporation tax, less expenses. Deferred tax is provided for at the rate at which taxation is likely to become payable in respect of all timing differences between the accounting and taxation treatment of items.

h) Foreign exchange

All transactions in foreign currencies are translated into Sterling at the rate of exchange ruling on the date of the transaction. Investments and other assets and liabilities denominated in foreign currencies are translated into Sterling at the exchange rates applicable at the end of the accounting period.

i) Financial instruments

Where appropriate, certain permitted financial instruments such as derivative contracts or forward exchange contracts are used for the purpose of efficient portfolio management. Where such financial instruments are used to protect or enhance revenue, the revenue and expenses derived therefrom are included in "Revenue" or "Expenses" in the Statement of Total Return. Where such financial instruments are used to protect or enhance capital, the returns derived therefrom are included in "Net capital gains/(losses)" in the Statement of Total Return. Any positions in respect of such instruments open at the year end are reflected in the portfolio statement at their market value. Where positions generate total returns, such returns are apportioned between capital and revenue to properly reflect the nature of the transaction. The amounts held at futures clearing houses in respect of these financial instruments are included in the cash and bank balances and detailed in the Notes to the Financial Statements. Transaction costs associated with derivatives are charged to revenue when incurred. All forward contracts outstanding at financial reporting dates are marked-to-market. The Fund may enter into permitted transactions such as derivative contracts or forward currency transactions as outlined in the relevant Investment Objective and Policy of the Fund.

Derivative financial instruments are initially recorded at transaction value on the date on which the derivative contract is entered into. All contracts outstanding at the financial reporting date are carried at a value provided by independent pricing providers. Any positions on such financial instruments open at the year end are reflected in the Balance Sheet at their marked-to-market value at close of business which is not materially different from IA SORP defined fair value policy.

1.1 Distribution policies

j) Basis of distribution

The net revenue available for distribution at the end of each distribution period will be paid as a dividend distribution. Should the expenses of the Fund (including taxation) exceed the revenue of the Fund, there will be no distribution and the shortfall will be set against the capital of the Fund.

Any revenue attributable to accumulation unitholders is retained within the Fund at the end of the distribution period and represents a reinvestment of income on behalf of the accumulation Unitholders.

k) Equalisation

Equalisation on distributions from collective investment scheme is deducted from cost of investment and does not form part of the Fund's distribution.

Notes to the Financial Statements (continued)

for the year ended 31 December 2023

1.1 Distribution policies (continued)

l) Special dividends

The underlying circumstances behind special dividends are reviewed on a case by case basis in determining whether the amount is revenue or capital in nature. Amounts recognised as revenue will form part of the distribution. Any tax treatment will follow the accounting treatment of the principal amount.

m) Functional currency

The base currency of the Fund is Sterling and is taken to be the 'functional currency' of the Fund.

2 Net capital gains/(losses)

	1.1.2023 to 31.12.2023 (£'000)	1.1.2022 to 31.12.2022 (£'000)
The net capital gains/(losses) comprise:		
Non-derivative securities	76,503	(143,371)
Forward currency contracts	101	(1)
Foreign currency (losses)/gains	(566)	67
Net capital gains/(losses)	76,038	(143,305)

3 Revenue

	1.1.2023 to 31.12.2023 (£'000)	1.1.2022 to 31.12.2022 (£'000)
Bank interest	205	38
Interest from UK fixed income securities	3,731	9,071
Management fee rebates on CIS	51	262
Non-taxable overseas dividends	4,243	3,307
Stock lending income	8	8
Taxable overseas dividends	79	–
UK dividends	250	888
Total revenue	8,567	13,574

4 Expenses

	1.1.2023 to 31.12.2023 (£'000)	1.1.2022 to 31.12.2022 (£'000)
Payable to the Manager or associates of the Manager:		
Manager's charge	3,877	5,032
General administration charges*	401	427
Total expenses	4,278	5,459

* The audit fee for the year (borne out of the General administration charges), excluding VAT, was £17,050 (2022: £17,050). Where the fee exceeds the General administration charges, the shortfall will be met by the Manager.

Notes to the Financial Statements (continued)

for the year ended 31 December 2023

5 Taxation

	1.1.2023 to 31.12.2023 (£'000)	1.1.2022 to 31.12.2022 (£'000)
a) Analysis of the tax charge for the year		
Overseas tax	608	488
Total tax charge [see note(b)]	608	488

b) Factors affecting the tax charge for the year

The taxation assessed for the year is lower (2022: lower) than the standard rate of corporation tax in the UK for authorised Unit Trusts of 20% (2022: 20%). The differences are explained below:

	1.1.2023 to 31.12.2023 (£'000)	1.1.2022 to 31.12.2022 (£'000)
Net revenue before taxation	4,277	8,114
Corporation tax at 20% (2022 - 20%)	855	1,623
Effects of:		
Indexation allowance	(929)	(2,266)
Movement in unrecognised tax losses	1,056	1,666
Overseas tax	608	488
Prior year adjustment to unrecognised tax losses	(83)	(184)
Revenue not subject to tax	(899)	(839)
Total tax charge [see note(a)]	608	488

Authorised Unit Trusts are exempt from UK tax on capital gains. Therefore, any capital return is not included in the above reconciliation.

c) Deferred tax

At the year end there is a potential deferred tax asset of £27,470,000 (2022: £26,414,000) due to tax losses of £137,350,000 (2022: £132,072,000). It is unlikely that the Fund will generate sufficient taxable profits in the future to utilise these expenses and therefore no deferred tax asset has been recognised in the year or the prior year.

6 Interest payable and similar charges

	1.1.2023 to 31.12.2023 (£'000)	1.1.2022 to 31.12.2022 (£'000)
Overdraft interest	12	1
Total interest payable and similar charges	12	1

Notes to the Financial Statements (continued)

for the year ended 31 December 2023

7 Distributions

	1.1.2023 to 31.12.2023 (£'000)	1.1.2022 to 31.12.2022 (£'000)
Interim distribution	3,954	3,708
Final distribution	2	3,965
	3,956	7,673
Amounts deducted on cancellation of units	142	247
Amounts received on issue of units	(33)	(113)
Distributions	4,065	7,807

The distributable amount has been calculated as follows:

Net revenue after taxation	3,669	7,626
Add: Equalisation on conversions	–	181
Shortfall of income taken to capital	396	–
Distributions	4,065	7,807

The distribution per unit is set out in the tables on page 49.

8 Debtors

	31.12.2023 (£'000)	31.12.2022 (£'000)
Accrued management fee rebates on CIS	–	19
Accrued revenue	198	636
Amounts receivable for issue of units	189	179
Currency sales awaiting settlement	–	786
Overseas withholding tax	56	35
Total debtors	443	1,655

9 Cash and bank balances

	31.12.2023 (£'000)	31.12.2022 (£'000)
Cash and bank balances	8,295	5,510
Total cash and bank balances	8,295	5,510

Notes to the Financial Statements (continued)

for the year ended 31 December 2023

10 Creditors

	31.12.2023 (£'000)	31.12.2022 (£'000)
Accrued expenses	33	34
Accrued Manager's charge	308	334
Amounts payable for cancellation of units	764	615
Currency purchases awaiting settlement	–	788
Total other creditors	1,105	1,771

11 Contingent liabilities

There were no contingent liabilities or outstanding commitments at the balance sheet date (2022: £Nil).

12 Related party transactions

The Manager, Liontrust Fund Partners LLP is a related party and is regarded as a controlling party by virtue of having the ability to act in respect of operation of the Fund.

By virtue of the Regulations governing authorised unit trusts, the Manager is party to every transaction in respect of units of the Fund, which are summarised in the Statement of Change in Net Assets Attributable to Unitholders.

The charges paid to Liontrust Fund Partners LLP and its associates are shown in note 4. Details of units issued and cancelled by Liontrust Fund Partners LLP are shown in the Statement of Change in Net Assets Attributable to Unitholders and balances due to/from the Manager at the year end are included within Notes 8 and 10.

The balance due to Liontrust Fund Partners LLP and its associates in respect of expenses at the year end was £340,000 (2022: £368,000).

The total expenses due to Liontrust Fund Partners LLP and its associates for the year was £4,278,000 (2022: £5,459,000).

The total rebate of expenses paid by Liontrust Fund Partners LLP and its associates for the year was £51,000 (2022: £261,000).

The total rebate of expenses balance due from Liontrust Fund Partners LLP and its associates at the year end was £0 (2022: £19,000).

Notes to the Financial Statements (continued)

for the year ended 31 December 2023

13 Securities lending

The Fund engages in security lending activities which expose the Fund to counterparty credit risk. The maximum exposure to the Fund is equal to the value of the securities loaned.

Securities lending transactions entered into by the Fund are subject to a written legal agreement between the Fund and the Stock Lending Agent, The Bank of New York Mellon (London Branch), and separately between the Stock Lending Agent and the approved borrowing counterparty. Collateral received in exchange for securities lent is transferred under a title transfer arrangement and is delivered to and held in an account with a tri-party collateral manager in the name of the Trustee on behalf of the Fund. Collateral received is segregated from the assets belonging to the Fund's Trustee or the Stock Lending Agent. All operational costs are borne out of the Stock Lending Agent's share of income earned.

The total income earned from securities lending transactions is split between the relevant Fund and the Stock Lending Agent. The Fund receives 70% while the Stock Lending Agent receives 30% of such income, with all operational costs borne out of the Stock Lending Agent's share.

Return and cost

The table below shows the net income earned by the Fund from securities lending activity during the year to 31 December 2023.

	Collective Investment Undertaking (£'000)	Manager of Collective Investment Undertaking (£'000)	Third Parties (e.g. lending agent) (£'000)	Total (£'000)
Securities lending				
Gross return	8	—	3	11
% of total	70%	0%	30%	100%
Cost	—	—	—	—

The table below shows the net income earned by the Fund from securities lending activity during the year to 31 December 2022.

	Collective Investment Undertaking (£'000)	Manager of Collective Investment Undertaking (£'000)	Third Parties (e.g. lending agent) (£'000)	Total (£'000)
Securities lending				
Gross return	8	—	3	11
% of total	70%	0%	30%	100%
Cost	—	—	—	—

Notes to the Financial Statements (continued)

for the year ended 31 December 2023

13 Securities lending (continued)

Securities on loan and collateral received

The following table details the value of securities on loan and associated collateral received, analysed by borrowing counterparty as at the Balance Sheet date.

Counterparty	Counterparty's country of establishment	31 December 2023		31 December 2022	
		Securities on loan (£'000)	Collateral received (£'000)	Securities on loan (£'000)	Collateral received (£'000)
J.P. Morgan Securities Plc	UK	369	405	—	—
Merrill Lynch International	UK	458	490	113	122
The Bank of Nova Scotia	Canada	811	893	—	—
UBS	Switzerland	683	753	—	—
Total		2,321	2,541	113	122

Collateral accepted is non-cash in the form of sovereign debt rated AA or better from approved governments only, supranational debt obligations rated AAA or better listed on a recognised exchange.

Management of counterparty credit risk related to securities lending

To mitigate this risk, the Fund receives either cash or securities as collateral equal to a certain percentage in excess of the fair value of the securities loaned. The Investment Manager monitors the fair value of the securities loaned and additional collateral is obtained, if necessary. At the year end all non-cash collateral received consists of securities admitted to or dealt on a recognised exchange.

The Fund also benefits from a borrower default indemnity provided by The Bank of New York Mellon (London Branch). The indemnity allows for full replacement of securities lent. The Bank of New York Mellon (London Branch) bears the cost of indemnification against borrower default.

14 Risk management policies

In accordance with the investment objectives and policies the Fund can hold certain financial instruments as detailed in the Fund's prospectus. These can comprise of:

- equity, equity related and non-equity shares;
- Investment grade corporate bonds and government bonds (both sterling and non-sterling);
- Sub-investment grade bonds, covered bonds and preference shares;
- cash, liquid resources and short-term debtors and creditors that arise directly from its operations;
- short-term borrowings used to finance operational cash flows;
- units and shares in collective investment schemes;
- unitholders' funds, which represent investors' monies which are invested on their behalf from overseas investments held;
- derivative transactions for efficient portfolio management in accordance with the Fund's investment policies.

In accordance with the requirements of the rules in the Financial Conduct Authority's Collective Investment Schemes Sourcebook, the Fund is not permitted to trade in other financial instruments. The Fund's use of financial instruments during the year satisfies these regulatory requirements.

Notes to the Financial Statements (continued)

for the year ended 31 December 2023

14 Risk management policies (continued)

The main risks arising from the Fund's financial instruments are market price (including "emerging markets price risk"), currency, interest rate, liquidity and counterparty credit risk. The Manager's policies for managing these risks are summarised below.

The Fund, alongside an independent risk function, has used a combination of risk measurements and limits to measure and monitor portfolio risk. This is in line with the Liontrust Group's Risk Management Process.

These policies have remained unchanged since the beginning of the year to which these financial statements relate and during the prior year.

Market price risk

Market price risk is the risk that the Fund might suffer potential loss through holding market positions in the face of price movements. It arises mainly due to uncertainty about future prices of financial instruments held. The Manager reviews the portfolio in order to consider the asset allocation implications and to minimise the risk associated with particular countries or industry sectors whilst continuing to follow the Fund's investment objective. An individual Fund Manager has responsibility for monitoring the existing portfolio, in accordance with the overall asset allocation parameters described above and seeks to ensure that individual stocks also meet an acceptable risk reward profile. Futures contracts may be used to hedge against market price risk where deemed appropriate for efficient portfolio management purposes.

The Fund's investment portfolio is monitored by the Manager in pursuance of its investment objective and policy as set out in the prospectus.

As at 31 December 2023 and 31 December 2022 the overall market exposure for the Fund was as shown in the Portfolio Statement, other than for derivatives where the exposure could be greater. The Fund is exposed to market price risk as the assets and liabilities of the Fund are listed on stock exchanges and their prices are subject to movements both up and down that would result in an appreciation or depreciation in the fair value of that asset. The sensitivity of the Fund to market price risk is estimated below which shows the expected change in the market value of the Fund when a representative market index changes by 10%. These percentage movements are based on the Manager's estimate of reasonably possible market movements over the course of a year and uses an industry standard measure (Beta) to estimate the amount a Fund has previously changed when that corresponding market index has moved taking into account the Fund's historic correlation to the representative index's movements over the last three years using monthly returns. This analysis assumes that the historic relationships between the portfolio's holdings and the representative index are a valid approximation of their future relationship and that the characteristics of the portfolio and the market have been broadly unchanged over the three years.

As at 31 December 2023, had the representative market index increased/decreased by 10.0% the resulting change in the value of the Net Asset Value is expected to have been an increase/a decrease of 13.4%.

As at 31 December 2022, had the representative market index increased/decreased by 10.0% the resulting change in the value of the Net Asset Value is expected to have been an increase/a decrease of 9.0%.

Some limitations of sensitivity analysis are;

- markets and levels of market liquidity in conditions of market stress may bear no relation to historical patterns;
- the market price risk information is a relative estimate of risk rather than a precise and accurate number;
- the market price information represents a hypothetical outcome and is not intended to be predictive; and
- future market conditions could vary significantly from those experienced in the past.

The Fund is required to calculate its exposure to derivatives on a daily basis using one of two alternate methods, the Commitment Approach or Value at Risk (VaR).

The calculation of conversion methods for the commitment approach for standard derivatives is taken from the conversion methodologies listed in the ESMA Guidelines on calculation of Global Exposure and Counterparty Risk. The commitment

Notes to the Financial Statements (continued)

for the year ended 31 December 2023

14 Risk management policies (continued)

Market price risk (continued)

conversion methodology for standard derivatives is either the notional value or the market value of the equivalent position in the underlying asset. Please refer to the portfolio statement for the notional values of any forwards and futures contracts.

VaR is a method of estimating potential loss due to market risk, rather than a statement of leverage, using a given confidence level, or probability, over a specific time period and assuming normal market conditions. VaR is calculated using a Historical Simulation model carried out in accordance with regulatory guidelines.

The Fund uses a combination of other risk measurements and limits. This is in line with the Liontrust Group's Risk Management Process.

The Fund did not materially use derivatives in the current or prior year and the level of leverage employed by the Fund during the current or prior year is not considered to be significant.

Currency risk

Currency risk is the risk that the revenue and net asset value of the Fund may be adversely affected by movements in foreign exchange rates. The revenue and capital value of the Fund's investments may be significantly affected by currency risk movements as some of the assets and income are denominated in currencies other than Sterling, which is the Fund's functional and reporting currency.

The Manager has identified three principal areas where foreign currency risk could impact the Fund:

- Movements in exchange rates affecting the value of investments;
- Movements in exchange rates affecting short-term timing differences; and
- Movements in exchange rates affecting the income received.

Currency exposure is monitored closely and is considered to be part of the overall investment process. Currency hedges via forward exchange contracts will only be used in the event of a specific unwanted currency risk being identified.

The Fund may be subject to short-term exposure to exchange rate movements, for instance, where there is a difference between the date an investment purchase or sale is entered into and the date when settlement of the proceeds occurs. The Manager believes that the impact of such movements is not significant enough to warrant the cost incurred of eliminating them via hedging.

The Fund may receive income in currencies other than Sterling, and the Sterling values of this income can be affected by movements in exchange rates. The Fund converts all receipts of income into Sterling on or near the date of receipt; it does not, however, hedge or otherwise seek to avoid exchange rate risk on income accrued but not received.

Notes to the Financial Statements (continued)

for the year ended 31 December 2023

14 Risk management policies (continued)

Currency risk (continued)

At 31 December 2023 the Fund's currency exposure was as shown in the table below:

Currency	Net Foreign Currency Assets		Total (£'000)
	Monetary Exposures (£'000)	Non-Monetary Exposures (£'000)	
Canadian Dollar	35	–	35
Danish Krone	19	19,545	19,564
Euro	36	24,168	24,204
Hong Kong Dollar	–	3,917	3,917
Japanese Yen	–	2,798	2,798
South African Rand	3	9,922	9,925
Swiss Franc	–	20,566	20,566
United States Dollar	248	242,001	242,249
	341	322,917	323,258

At 31 December 2022 the Fund's currency exposure was as shown in the table below:

Currency	Net Foreign Currency Assets		Total (£'000)
	Monetary Exposures (£'000)	Non-Monetary Exposures (£'000)	
Canadian Dollar	–	10,342	10,342
Euro	35	15,350	15,385
Japanese Yen	–	15,502	15,502
United States Dollar	5,440	264,588	270,028
	5,475	305,782	311,257

If the exchange rate at 31 December 2023 between the functional currency and all other currencies had increased or decreased by 1% with all other variables held constant, this would have increased or decreased net assets attributable to holders of units of the Fund by approximately 0.76%/(0.76)% respectively.

If the exchange rate at 31 December 2022 between the functional currency and all other currencies had increased or decreased by 1% with all other variables held constant, this would have increased or decreased net assets attributable to holders of units of the Fund by approximately 0.72%/(0.72)% respectively.

Interest rate risk

Interest rate risk is the risk that the revenue cash flow or the fair value of investments may be adversely affected by movements in market interest rates.

Between 10% and 60% (typically 25%) of the Fund's financial assets will be in interest bearing financial assets and liabilities. As a result, the Fund is subject to the risk of potentially adverse movements in the prevailing level of market interest rates. The Manager may from time to time enter into derivative contracts on behalf of the Fund that seeks to mitigate the effects of these movements.

Interest receivable on bank deposits and short-term deposits or payable on bank overdraft positions will be affected by fluctuations in interest rates. The interest rates earned on sterling deposits are earned at a rate in line with overnight bank rates.

Notes to the Financial Statements (continued)

for the year ended 31 December 2023

14 Risk management policies (continued)

Interest rate risk (continued)

The interest rate risk profile of investment assets and liabilities at 31 December 2023 was as follows:

	Floating Rate Investments (£'000)	Fixed Rate Investments (£'000)	Non-Interest Bearing Investments (£'000)	Total (£'000)
Investment assets	—	62,979	352,141	415,120
Investment liabilities	—	—	—	—

The interest rate risk profile of investment assets and liabilities at 31 December 2022 was as follows:

	Floating Rate Investments (£'000)	Fixed Rate Investments (£'000)	Non-Interest Bearing Investments (£'000)	Total (£'000)
Investment assets	—	61,256	365,802	427,058
Investment liabilities	—	—	—	—

At 31 December 2023, if interest rates had strengthened/weakened by 1.00% with all other variables held constant this would have increased/decreased the net assets attributable to investors in the Fund by approximately 13.80%.

At 31 December 2022, if interest rates had strengthened/weakened by 1.00% with all other variables held constant this would have increased/decreased the net fixed income assets attributable to investors in the Fund by approximately 14.80%.

Liquidity risk

Liquidity risk is the risk that the Fund will not be able to meet its obligations as they fall due. The Fund's assets comprise mainly of readily realisable securities which can be sold to meet liquidity requirements.

If a Fund is primarily exposed to smaller companies there may be liquidity constraints from time to time, i.e. in certain circumstances, the Fund may not be able to sell a position for full value or at all in the short-term. This may affect performance and could cause the Fund to defer or suspend redemptions of its units. In addition, the spread between the price you buy and sell units will reflect the less liquid nature of the underlying holdings. Any unquoted investments held by a Fund are by their nature much less liquid than those listed on an exchange. A Fund may not be able to sell a position for full value or at all in the short term.

The equity markets of emerging countries tend to be more volatile than the more developed markets of the world. Standards of disclosure and accounting regimes may not always fully comply with international criteria and can make it difficult to establish accurate estimates of fundamental value. The lack of accurate and meaningful information, and inefficiencies in its distribution, can leave emerging markets prone to sudden and unpredictable changes in sentiment. The resultant investment flows can trigger significant volatility in these relatively small and illiquid markets. At the same time, this lack of liquidity, together with low dealing volumes, can restrict the Manager's ability to execute substantial deals.

The main liquidity risk of the Fund is the redemption of any units that investors wish to sell, which are redeemable on demand under the Trust Deed. Where investments cannot be realised in time to meet any potential liability, the Fund may borrow up to 10% of its value to ensure settlement.

In accordance with the Manager's policy, the Manager monitors the Fund's liquidity on a daily basis.

Notes to the Financial Statements (continued)

for the year ended 31 December 2023

14 Risk management policies (continued)

Counterparty credit risk

Counterparty credit risk is the risk of suffering loss due to another party not meeting its financial obligation. Investments may be adversely affected if any of the institutions with which money is deposited or invested suffers insolvency or other financial difficulties or the credit rating of the bearers of the bonds held by the Fund are downgraded.

The table below summarises the credit quality of the Fund debt portfolio as at 31 December 2023 and 31 December 2022.

Summary of Credit ratings	31.12.2023 (£'000)	31.12.2022 (£'000)
Investment grade	62,979	61,256
Total	62,979	61,256

The Fund may enter into transactions in financial instruments (including derivatives) which exposes it to the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

The Fund only buys and sells investments through brokers which have been approved by the Manager as an acceptable counterparty. This list is reviewed at least annually.

The Fund may enter into stock lending activities which exposes it to the risk that the counterparty will not deliver the stock or cash after the Fund has fulfilled its obligations. The Fund will only enter into stock lending activities with parties that have been approved as acceptable by the Manager and obtaining collateral from counterparties which has a fair value in excess of the related stock on loan.

Counterparty exposures

The counterparty exposure of financial derivative transactions at 31 December 2023 is shown below:

Counterparty details Financial Derivative Transactions	Forward Foreign Exchange Contracts (£'000)	Total Exposure (£'000)
Bank of New York Mellon International	79	79
Total	79	79

At 31 December 2022, there were no counterparties to open derivative contracts.

At the year end collateral of £Nil (2022: £Nil) was received; collateral pledged was £Nil (2022: £Nil) and none (2022: none) of the Fund's financial assets were past due or impaired.

The Trustee is responsible for the safe-keeping of assets and has appointed the Bank of New York Mellon, S.A./N.V., London Branch ("BNYMSA") as its global custodian. The long term credit rating of the parent company of the Trustee and Custodian, The Bank of New York Mellon Corporation, as at 31 December 2023 and at 31 December 2022 was A (Standard & Poor's rating).

BNYMSA, in the discharge of its delegated Trustee duties, holds in custody (i) all financial instruments that may be registered in a financial instruments account opened on the books of BNYMSA and (ii) all financial instruments that can be physically delivered to BNYMSA. BNYMSA ensures all financial instruments (held in a financial instruments account on the books of BNYMSA) are held in segregated accounts in the name of the Fund, clearly identifiable as belonging to the Fund, and distinct and separately from the proprietary assets of BNYMSA and BNYM.

Notes to the Financial Statements (continued)

for the year ended 31 December 2023

14 Risk management policies (continued)

Counterparty exposures (continued)

In addition BNYMSA, as banker, holds cash of the Fund on deposit. Such cash is held on the balance sheet of BNYMSA. In the event of insolvency of BNYMSA, in accordance with standard banking practice, the Fund will rank as an unsecured creditor of BNYMSA in respect of any cash deposits.

Insolvency of BNYM and or one of its agents or affiliates may cause the Fund's rights with respect to its assets to be delayed or may result in the Fund not receiving the full value of its assets.

Maturity profile of financial liabilities

All financial liabilities of the Fund at the current and prior year-end are due to settle in one year or less, or on demand.

Fair value of financial assets and liabilities

Securities held by the Fund are valued at bid-price. The difference between this value and the fair value of the securities is immaterial. There is also no material difference between the value of other financial assets and liabilities of the Fund included in the balance sheet and their fair value.

Valuation of financial investments

	Assets (£'000)	Liabilities (£'000)
31.12.2023		
Level 1: Quoted prices	409,051	—
Level 2: Observable market data	79	—
Level 3: Unobservable data	5,990	—
	415,120	—
31.12.2022		
Level 1: Quoted prices	390,079	—
Level 2: Observable market data	29,567	—
Level 3: Unobservable data	7,412	—
	427,058	—

Level 1: Unadjusted quoted price in an active market for an identical instrument;

Level 2: Valuation techniques using observable inputs other than quoted prices within level 1;

Level 3: Valuation techniques using unobservable inputs.*

*The Level 3 assets have been identified in the portfolio statement and the Manager has engaged with Private Equity firms to ascertain the fair value of the level 3 assets held by the Fund. The fair value is calculated using methods such as last traded price and net assets value.

Notes to the Financial Statements (continued)

for the year ended 31 December 2023

15 Portfolio transaction costs

for the year ending 31 December 2023

	Transaction Value (£'000)	Commissions (£'000)	%	Taxes (£'000)	%
Purchases (excluding derivatives)					
Equity instruments (direct)	381,244	150	0.04	136	0.04
Total purchases	381,244	150		136	
Total purchases including transaction costs	381,530				
	Transaction Value (£'000)	Commissions (£'000)	%	Taxes (£'000)	%
Sales (excluding derivatives)					
Equity instruments (direct)	440,518	158	0.04	4	–
Collective investment schemes	32,849	–	–	–	–
Total sales	473,367	158		4	
Total sales net of transaction costs	473,205				
Total transaction costs		308		140	
Total transaction costs as a % of average net assets		0.07%		0.03%	

Notes to the Financial Statements (continued)

for the year ended 31 December 2023

15 Portfolio transaction costs (continued)

for the year ending 31 December 2022

Purchases (excluding derivatives)	Transaction Value (£'000)	Commissions (£'000)	%	Taxes (£'000)	%
Equity instruments (direct)	3,915	2	0.05	–	–
Debt instruments (direct)	2,641	–	–	–	–
Total purchases	6,556	2		–	
Total purchases including transaction costs	6,558				

Sales (excluding derivatives)	Transaction Value (£'000)	Commissions (£'000)	%	Taxes (£'000)	%
Equity instruments (direct)	50,150	18	0.04	1	–
Collective investment schemes	1,971	–	–	–	–
Total sales	52,121	18		1	
Total sales net of transaction costs	52,102				

Total transaction costs		20		1	
Total transaction costs as a % of average net assets		–		–	

The above analysis covers any direct transaction costs suffered by the Fund during the year. However, it is important to understand the nature of other transaction costs associated with different investment asset classes and instrument types.

Separately identifiable direct transaction costs (commissions & taxes etc.) are attributable to the Fund's purchase and sale of equity shares. Additionally, for equity shares there is a dealing spread cost (the difference between the buying and selling prices) which will be suffered on purchase and sale transactions.

For the Fund's investment transactions in debt and money market instruments any applicable transaction charges form part of the dealing spread for these instruments. Transactions in money market instruments to manage the Fund's daily liquidity position are excluded from the analysis.

During the year the Fund utilised derivative instruments including equity index options covering different underlying asset classes. The settlement values for opening and closing derivative positions are not comparable to principal values for transactions in direct holding investments and therefore purchase and sale amounts for derivative transactions are not quantified in the analysis above. Transaction costs for derivatives positions will be either suffered as direct costs or form part of the dealing spread for the instruments. Any direct costs are identified in the analysis above.

For the Fund's investment in collective investment scheme holdings there will potentially be dealing spread costs applicable to purchases and sales. However, additionally there are indirect transaction costs suffered in those underlying funds, throughout the holding period for the instruments, which are not separately identifiable and do not form part of the analysis above.

Dealing spread costs suffered by the Fund vary considerably for the different asset/instrument types depending on a number of factors including transaction value and market sentiment.

At the balance sheet date the average portfolio dealing spread (difference between bid and offer prices of all investments expressed as a percentage of the offer price value) was 0.07% (2022: 0.07%).

Notes to the Financial Statements (continued)

for the year ended 31 December 2023

16 Unit classes

For the year ending 31 December 2023

	Opening units	Units issued	Units redeemed	Units converted	Closing units
A Accumulation	8,026,428	107,251	(2,417,716)	(209,301)	5,506,662
A Income	123,006	3,375	(25,411)	(53,958)	47,012
B Accumulation	3,851,679	152,976	(236,141)	48,720	3,817,234
B Income	2,312,191	55,806	(439,791)	10,458	1,938,664
C Accumulation	163,923,219	8,827,190	(30,759,464)	731,128	142,722,073
C Income	7,750,708	806,169	(2,091,663)	320,885	6,786,099
D Accumulation	15,573,554	1,364,753	(10,117,344)	62,536	6,883,499

17 Post balance sheet events

The Fund invests in a portfolio of assets, whose values have changed since the year-end, primarily due to market volatility. Since the year-end, the NAV per unit of the C Accumulation unit class has increased by 5.07% to 17 April 2024. The other unit classes in the Fund have moved by a similar magnitude.

Distribution Tables

for the year ended 31 December 2023

Interim distribution

Group 1 - Units purchased prior to 1 January 2023

Group 2 - Units purchased 1 January 2023 to 30 June 2023

	Net Revenue Pence per unit	Equalisation* Pence per unit	Distribution paid 31.8.2023 Pence per unit	Distribution paid 31.8.2022 Pence per unit
A Accumulation - Group 1	5.3384	—	5.3384	4.0636
A Accumulation - Group 2	3.8177	1.5207	5.3384	4.0636
A Income - Group 1	4.7216	—	4.7216	3.6552
A Income - Group 2	1.0356	3.6860	4.7216	3.6552
B Accumulation - Group 1	0.8061	—	0.8061	0.6880

D Accumulation - Group 2	1.6366	0.2772	1.9138	1.6992

Distribution Tables (continued)

for the year ended 31 December 2023

Final distribution

Group 1 - Units purchased prior to 1 July 2023

Group 2 - Units purchased 1 July 2023 to 31 December 2023

	Net Revenue Pence per unit	Equalisation* Pence per unit	Distribution paid 28.2.2024 Pence per unit	Distribution paid 28.2.2023 Pence per unit
A Accumulation - Group 1	—	—	—	4.6409
A Accumulation - Group 2	—	—	—	4.6409
A Income - Group 1	—	—	—	4.1281
A Income - Group 2	—	—	—	4.1281
B Accumulation - Group 1	—	—	—	0.7355
B Accumulation - Group 2	—	—	—	0.7355
B Income - Group 1	—	—	—	0.7286
B Income - Group 2	—	—	—	0.7286
C Accumulation - Group 1	—	—	—	1.9072
C Accumulation - Group 2	—	—	—	1.9072
C Income - Group 1	—	—	—	1.7900
C Income - Group 2	—	—	—	1.7900
D Accumulation - Group 1	0.0286	—	0.0286	1.7799
D Accumulation - Group 2	—	0.0286	0.0286	1.7799

* Equalisation only applies to units purchased during the distribution period (Group 2 units). It is the average amount of revenue included in the purchase price of all Group 2 units and is refunded to holders of these units as a return of capital. Being capital, it is not liable to income tax but must be deducted from the cost of units for capital gains tax purposes.

Securities Financing Transactions (unaudited)

as at 31 December 2023

Securities Lending

Securities lending transactions entered into by the Fund are subject to a written legal agreement between the Fund and the Stock Lending Agent, The Bank of New York Mellon (London Branch), a related party to the Fund, and separately between the Stock Lending Agent and the approved borrowing counterparty. Collateral received in exchange for securities lent is transferred under a title transfer arrangement and is delivered to and held in an account with a tri-party collateral manager in the name of The Bank of New York Mellon (International) Limited ("the Trustee") on behalf of the Fund. Collateral received is segregated from the assets belonging to the Fund's Trustee or the Stock Lending Agent.

The total income earned from securities lending transactions is split between the relevant Fund and the Stock Lending Agent. The Fund receives 70% while the Stock Lending Agent receives 30% of such income, with all operational costs borne out of the Stock Lending Agent's share.

The following table details the value of securities on loan as a proportion of the Fund's total lendable assets and Net Asset Value (NAV) as at 31 December 2023. The income earned from securities lending are also shown for the period ended 31 December 2023. Total lendable assets represents the aggregate value of assets forming part of the Fund's securities lending programme. This excludes any assets held by the Fund that are not considered lendable due to any market, regulatory, investment or other restriction.

	Securities on loan	
% of lendable assets	% of NAV	Income earned (£'000)
0.60	0.55	8

The following table details the value of securities on loan and associated collateral received, analysed by counterparty as at 31 December 2023.

Counterparty	Counterparty's country of establishment	Securities Lending Amount on loan (£'000)	Collateral received (£'000)
J.P. Morgan Securities Plc	UK	369	405
Merrill Lynch International	UK	458	490
The Bank of Nova Scotia	Canada	811	893
UBS	Switzerland	683	753
Total		2,321	2,541

All securities on loan have an open maturity tenor as they are callable or terminable on a daily basis.

Collateral

The Fund engages in activities which may require collateral to be provided to a counterparty ("collateral posted") or may hold collateral received ("collateral received") from a counterparty.

Securities Financing Transactions (unaudited)(continued)

as at 31 December 2023

Collateral (continued)

The following table provides an analysis by currency of the underlying cash and non-cash collateral received/posted by way of title transfer collateral arrangement by the Fund, in respect of securities lending transactions, as at 31 December 2023.

Currency	Cash collateral received (£'000)	Cash collateral posted (£'000)	Non-cash collateral received (£'000)	Non-cash collateral posted (£'000)
Securities lending transactions				
AUD	-	-	33	-
CHF	-	-	90	-
DKK	-	-	75	-
EUR	-	-	196	-
GBP	-	-	568	-
HKD	-	-	491	-
JPY	-	-	21	-
NOK	-	-	49	-
NZD	-	-	1	-
SEK	-	-	21	-
USD	-	-	996	-
Total	-	-	2,541	-

Non-cash collateral received by way of title transfer collateral arrangement in relation to securities lending transactions cannot be sold, re-invested or pledged.

The following table provides an analysis of the type, quality and maturity tenor of non-cash collateral received/posted by the Fund by way of title transfer collateral arrangement in respect of securities lending transactions, as at 31 December 2023.

Collateral type and quality	Maturity Tenor					Open transactions (£'000)	Total (£'000)
	1 - 7 days (£'000)	8 - 30 days (£'000)	31 - 90 days (£'000)	91 - 365 days (£'000)	More than 365 days (£'000)		
Collateral received - securities lending							
Fixed income							
Investment grade	—	—	—	—	1	—	1
Equities							
Recognised equity index	—	—	—	—	—	2,540	2,540
Total	—	—	—	—	1	2,540	2,541

Investment grade securities are those issued by an entity with a minimum investment grade credit rating from at least one globally recognised credit rating agency; Standard & Poor's, Moody's or Fitch.

A recognised equity index contains at least 20 equities where no single equity represents more than 20% of the total index and no five equities combined represent more than 60% of the total index.

Securities Financing Transactions (unaudited)(continued)

as at 31 December 2023

Collateral (continued)

The maturity tenor analysis for fixed income securities received as collateral is based on the respective contractual maturity date, while for equity securities and exchange traded funds (ETFs) received as collateral are presented as open transactions as they are not subject to a contractual maturity date.

As at 31 December 2023, all non-cash collateral received by the Fund in respect of securities lending transactions is held by the Fund's Trustee (or through its delegates).

The following table lists the top ten issuers (or all the issuers if less than ten) by value of non-cash collateral received by the Fund by way of the title transfer collateral arrangement across securities lending transactions as at 31 December 2023.

Issuer	Value (£'000)	% of the Fund's NAV
The Bank of Nova Scotia	893	0.21
UBS	753	0.18
Merrill Lynch International	490	0.12
J.P.Morgan Securities Plc	405	0.09
Total	2,541	0.60

Additional Information (unaudited)

Trust Deed: The Fund was established by a Trust Deed made between the Manager and the Trustee dated 9 October 2002.

Prospectus: Copies of the Fund's Prospectus are available free of charge from the Manager upon request, and from our website, www.liontrust.co.uk.

Unit type: The Fund issues income and accumulation units. Investors can elect at any time to have any income either paid out or automatically reinvested to purchase units at no initial charge.

Pricing and dealing: A buying price (the price at which you have bought the units in the Fund and being the higher) and a selling price (the price at which you can sell the units back to the Manager and being the lower) are always quoted for the Fund. The buying price includes the Manager's initial charge.

Dealing in all unit trusts operated by Liontrust Fund Partners LLP may be carried out between 09.00 and 17.00 hours on any business day. Professional investors and advisers may buy and sell units over the telephone; private investors are required to instruct the Manager in writing for initial purchases, but can deal over the telephone thereafter. Prices are quoted on a 'forward' basis. This means that all deals are based on a price that is calculated at the next valuation point (which is 12.00 hours on each business day) following receipt of instructions. Instructions received before 12.00 hours will be priced at 12.00 hours that day, whilst those deals taken later in the day will receive the next dealing price which is fixed at 12.00 hours on the following business day.

The minimum initial lump sum investment in Class A and Class B Units of the Fund is £1,000, the minimum subsequent purchase or sale is £50, providing you maintain a balance of £1,000. The minimum initial lump sum investment in Class C Units of the Fund is £250,000, the minimum subsequent purchase or sale is £100, providing you maintain a balance of £250,000. The minimum initial lump sum investment in Class D Units of the Fund is £100,000,000, with no minimum subsequent purchase or sale, providing you maintain a balance of £100,000,000. At its absolute discretion, the Manager may accept a lower minimum amount for the purchase and sale of units.

A contract note in respect of any purchase will be issued the day following the dealing date. Unit certificates will not be issued. Instructions to sell your units may be required to be given by telephone and then confirmed in writing to Liontrust Fund Partners LLP at Liontrust Customer Services Team, PO Box 373, Darlington, DL1 9RQ. A contract note confirming the instruction to sell will be issued the day following the dealing day. Following receipt of a correctly completed Form of Renunciation, a cheque in settlement will be sent directly to you or your bank/building society, if proof of ownership of the account has been received by us, in four business days. Liontrust does not make or accept payments to or from third parties unauthorised by the Financial Conduct Authority or other financial regulator.

Management charges and spreads: The initial charge and annual management fees per unit class are detailed below.

Initial charge	%	Ongoing charges figure*	%	Included within the OCF is the Annual Management Charge**	%
A Accumulation	Nil	A Accumulation	1.64	A Accumulation	1.60
A Income	Nil	A Income	1.64	A Income	1.60
B Accumulation	Nil	B Accumulation	1.12	B Accumulation	1.00
B Income	Nil	B Income	1.12	B Income	1.00
C Accumulation	Nil	C Accumulation	0.85	C Accumulation	0.75
C Income	Nil	C Income	0.85	C Income	0.75
D Accumulation	Nil	D Accumulation	0.75	D Accumulation	0.65

* The OCF covers all aspects of operating a Fund during the course of its financial year. These include the annual charge for managing the Fund, administration and independent oversight functions, such as trustee, custody, legal and audit fees. The OCF excludes portfolio transaction costs except for an entry/exit charge paid by the Fund when buying or selling units in another Fund.

** These are the annual costs of running and managing the Fund.

Additional Information (unaudited) (continued)

Publication of prices: The price of units in the Fund is quoted on our website, www.liontrust.co.uk and other industry websites such as www.trustnet.com. Daily and historic Fund prices are available from our Dealing and Administration team on 0344 892 0349.

Capital Gains Tax: As an authorised unit trust, any capital gains made within the Fund is exempt from UK Capital Gains Tax. An individual investor is subject to capital gains tax on gains made on their investment, however an individual's first £6,000 of net gains on disposals in the 2023-2024 tax year are exempt from tax (2022-2023: £12,300).

Income Tax: UK tax resident individuals are now entitled to a new tax-free dividend allowance in place of the dividend tax credit. Consequently, all income from dividend distributions is now regarded as gross income.

UK resident individuals who are not liable to tax are not able to reclaim the tax credits from the HM Revenue and Customs. In the case of UK resident individuals who are liable to starting or basic rate tax only, the tax credit will match his or her liability on the distribution and there will be no further tax to pay and no right to claim repayments from the HM Revenue and Customs. In the case of a higher rate taxpayer, the tax credit will be set against, but not fully match, his or her tax liability on the distribution. Such people will have an additional tax liability to pay.

Remuneration: Following the implementation of UCITS V in the UK on 18 March 2016, all authorised UCITS Managers are required to comply with the UCITS V Remuneration Code from the start of their next accounting year. Under the UCITS V Directive (2014/91/EU), the Manager is required to disclose information relating to the remuneration paid to its staff for the financial year. The table below provides an overview of the following as at year ended 31 March 2023:

- Aggregate total remuneration paid by the Manager to its staff (employees and members)
- Aggregate total remuneration paid by the Manager to all relevant UCITS code staff

	Headcount	Total Remuneration (£'000)
Manager UK Staff ¹	102	15,629
of which		
Fixed remuneration	102	9,728
Variable remuneration	102	5,901
UCITS Remuneration Code Staff ^{1, 2}	7	892
of which		
Senior Management	2	30
Other control functions:		
Other code staff/risk takers	5	862

¹ The Manager's UK staff costs have been incurred by another Group entity and allocated to the Manager. The most appropriate measure of staff costs are those staff who are members of Liontrust Investment Partners LLP or Group staff who are employed by LAM but have their costs apportioned to the LLP. The information has been disclosed on an annualised basis.

² UCITS Aggregate Remuneration Code Staff applies only in respect of the provision of services to UCITS funds rather than their total remuneration in the year. For senior management and control function staff, remuneration is apportioned on the basis of assets under management for UCITS funds versus the total Group assets under management. For portfolio management staff remuneration is apportioned directly to the Fund.

Remuneration is made up of fixed pay (i.e. salary and benefits such as pension contributions) and variable pay (annual performance based or linked directly to investment management revenues). Annual incentives are designed to reward performance in line with the business strategy, objectives, values and long term interests of the Manager and LAM PLC Group. The annual incentive earned by an individual is dependent on the achievement of financial and non-financial objectives, including adherence to effective risk management practices. The Manager provides long-term incentives which are designed to link reward with long-term success and recognise the responsibility participants have in driving future success and delivering value. Long-term incentive awards are conditional on the satisfaction of corporate performance measures. The structure of remuneration packages is such that the fixed element is sufficiently large to enable a flexible incentive policy to be operated.

Additional Information (unaudited) (continued)

Staff are eligible for an annual incentive based on their individual performance, and depending on their role, the performance of their business unit and/or the group. These incentives are managed within a strict risk framework, and the Directors of LAM retain ultimate discretion to reduce annual incentive outcomes where appropriate.

The Manager actively manages risks associated with delivering and measuring performance. All our activities are carefully managed within our risk appetite, and individual incentive outcomes are reviewed and may be reduced in light of any associated risk management issues.

The Liontrust Group operates a Remuneration Committee (the "Committee"). The Committee reports to the Board. The Committee reviews risk and compliance issues in relation to the vesting of deferred awards for all employees and members. Compliance is monitored throughout the vesting period by the Committee.

These remuneration policies apply also to other entities in the Liontrust Group to which investment management of the Company has been delegated, and those delegates are subject to contractual arrangements to ensure that policies which are regarded as equivalent are applied.

The Board adopts, and reviews annually, the general principles of the applicable remuneration policies, and the implementation of the remuneration policies is, at least annually, subject to central and independent internal review by the Committee for compliance with policies and procedures.

Assessment of Value: The regulator - the FCA - has asked every asset manager to assess the value of the funds they run. Assessing value goes beyond performance and costs and encompasses a minimum of seven criteria mandated by the FCA. Please note we have changed the reference and publication date of our annual Assessment of Value. Previously, the reference date was the end of August, with a publication date of December. Going forward, from 30 June 2023, the reference date will be 30 June, with a publication deadline of end of October. The assessment of value report can be viewed on the Liontrust website www.liontrust.co.uk/learning/assessment-of-value.

Changes to the Fund: The Liontrust Global Equity team became part of the Liontrust Global Fundamental team on 8 February 2023.

Important information: Past performance is not a guide to future performance. The value of an investment and the income generated from it can fall as well as rise and is not guaranteed. You may get back less than you originally invested. The issue of units may be subject to an initial charge and this is likely to have an impact on the realisable value of your investment, particularly in the short term. You should always regard unit trust investment as long term.
