

For professional investors and advisers only

- This document provides a summary of the target market assessments for Liontrust Sustainable Funds
- Liontrust has defined the target markets to help investors assess whether a specific fund might be a suitable investment. As per MiFID II guidelines, this includes identifying the type of investors the fund might be suitable for, by considering a client's knowledge and experience, their ability to bear losses, risk tolerance, objectives and investment horizon. We have also clearly defined the distribution strategy for each fund

Key risks

The value of investments may go up or down and you may get back less than you originally invested. We recommend any Fund is held long term (minimum period of 5 years). We recommend that you hold Funds as part of a diversified portfolio of investments.

All Liontrust Funds carry some degree of risk which may have an adverse effect on the future value of your investment. Therefore, before making an investment decision, you should familiarise yourself with the different types of specific risks associated with the investment portfolio of each of our Funds. There is no certainty the investment objectives of the Funds mentioned in this document will actually be achieved and no warranty or representation is given, whether express or implied, to this effect.

The issue of units/shares in Liontrust Funds may be subject to an initial charge, which will have an impact on the realisable value of the investment, particularly in the short term. Investments should always be considered as long term.
